(57) Statement of Newness and Distinctiveness: **The rectangle planter box is new and distinctive due to both the shape of its profile which has a soft sine-wave inspired curve that rises from the base terminating with a returned edge and the water reservoir at the base that is able to be filled with without removing the main body of the product. The water reservoir is designed so that it fits under the edge of the planter giving the appearance of the reservoir being contained/nested under the planter shape at the base and continuing the planter's form to the ground. The watering aperture is styled in such a way that the shape of both elements of the planter create a unique profile as they overlap. An interlocking 4 posted 3 tier trellis system can be erected in two separate independent positions. The trellis system is designed so that its components can be packed for transportation in the empty water reservoir.**

(57) Statement of Newness and Distinctiveness: **The square planter box is new and distinctive due to both the shape of its profile which has a soft sine-wave inspired curve that rises from the base and the water reservoir at the base that is able to be filled with without removing the main body of the product. The water reservoir is designed so that it fits under the edge of the planter giving the appearance of the reservoir being contained/ nested under the planter shape at the base and continuing the planter's form to the ground. The watering aperture is styled in such a way that the shape of both elements of the planter create a unique profile as they overlap. An interlocking 4 posted 3 tier trellis system can be erected in two separate independent positions. The trellis system is designed so that its components can be packed for transportation in the empty water reservoir.**

(57) Statement of Newness and Distinctiveness: **This product is designed to add to the current market in the range of supporting the larger ladies apparel underwear. As this product has been designed with comfort and freedom of movement in mind, they will be made out of a range of 100% stretch breathable material and to allow extra stretch, there will be two V shapes positioned at the front of the garment, on the both the left and right hand sides, as well as an inbuilt crouch and no visible lines. Therefore the lady will feel like she is wearing everyday underwear that is suited to dresses, night gowns and bridal wear with the distinction being to prevent chaffing and discomfort between their inner thighs, giving the ladies the option to avoid stockings if they wish to.**

(57) Statement of Newness and Distinctiveness: **The contours of the pendant light wraps around the globe as tightly as possible. The bright coloured ring in the centre creates a feature to match different interiors. The top of the light is turned hardwood and provides a tactile surface before curving into the metal spun cap that lives right on top of the globe to minimize glare from light shining directly at you. This allows the eye to wander above to appreciate the beauty in the natural element of the design of the wood grains and knots.**

A perspective view of a long, narrow, rectangular structure, possibly a bookshelf or a display case, with multiple vertical compartments or shelves. The structure is shown from a low angle, emphasizing its length and depth. It has a series of vertical dividers creating several compartments. The top edge features a series of small, rectangular protrusions or tabs. The overall design is functional and modular.
