(57) Statement of Newness and Distinctiveness: **Structural supports with arms sited one person in from outer edge enables 2 people adjacent each support to use the rests instead of 1 as is the case with end frames. The position of the support frames with a structural member in front of the timber seat member acts as a skateboard inhibitor without the addition of extra devices. The arm rest descends from the front of the seat to enable easy installation of the back rest. Clean simple aesthetic construction achieved by support frames of any metal and finish, coloured or not ; and use of durable and/or treated timbers. Bracing by cleats welded to seat support frame and then screwed to fixed seat members. Use of curved pipe section for front leg and armrest for comfortable grasping by hand.**

(57) Statement of Newness and Distinctiveness: **The multi-functional hair drying net and turban towel for upright application may be used on its own or in combination with a hand held hair dryer. Useful for managing dry and wet hair, to absorb water from wet hair after washing, swimming, or anytime the hair is wet, thereby avoiding dripping of water on the face, neck, or clothes. Used over dry hair to keep hair off the face, back and neck when applying make-up and treatments to the face. When required to dry hair by electrical means the device can be connected to a commercially available hair dryer and used as a conduit to direct warm air into the net cavity and dry hair using electrical means. It can be used to keep hair dry and off the face and back in the bath, shower, Jacuzzi, spa or steam bath.**

(57) Statement of Newness and Distinctiveness: **The newness and distinctiveness of this design resides in the number of sides added to the overall shape of the pocket. A traditional jean back hip pocket consists of 5 sides, whereas here, a 6th edge has carefully been added, giving the shape an instant sense of newness. In addition, the outer row of twin needle stitching follows each edge of the pocket, while the inner row impresses the traditional 5 edged shape. This gives the wearer the illusion of the pocket being traditional, yet the overall impression of the design still registers as something completely different.**

(57) Statement of Newness and Distinctiveness: **This trouser design is new because the panels of each leg are in a rectangular box shape having 4 sides, constructed of 4 panels, joined by 4 side seams (being 2 inner & 2 outer), the combination of which fit around each of the wearer's legs in a distinctive 3 dimensional box shaped design. There are front and back panels to the trousers. These are joined by an inner-leg gusset panel going the whole length of the leg, as well as outside-leg panels which also go the whole length of the leg from hem to yoke. This panel combination causes a distinctive 3 dimensional, 4 sided shaped design feature for each leg, which is recognizable by the 2 inside and 2 outside side seams. As opposed to previous trouser designs which are constructed from front and rear panels joined by 2 side seams per leg (being inner and outer), which fit around the wearer in an envelope design and 2 dimensional manner. Nothing new or distinct is claimed in the design relating to pockets, hems, yoke, waist band, zipper.**
