General Information

EDITORIAL ENQUIRIES

All enquiries about official notices, public notices, advertisements and general information in the Journal should be directed to IP Australia, ABN No 38 113 072 755,
PO Box 200 Woden ACT 2606
(Telephone 02 6283 2999)
(Fax 02 6283 7999)
(E-mail assist@ipaaustralia.gov.au)

Copy for advertisement in the journal should be received at the Patent Office not later than seven days before the desired publication date. If a publication date is not nominated, the advertisement will appear in the next available issue.

CONTACT INFORMATION

Customer Support Centre

Ph: **02 6283 2999** , Fax: **02 6283 7999**

E-mail: assist@ipaaustralia.gov.au

Customers can contact the Customer Support Centre by telephone or by e-mail. Telephones are staffed between 9am and 5pm EST each working day.

Customers should contact the CUSTOMER SUPPORT CENTRE for information about:

- All Patent Matters including PCT and Innovation Patents.
- All Trade Mark Matters.
- All Design Matters.

Professional Standards Board for Patent and Trade Mark Attorneys.

Ph: **02 6283 2345** Fax: **02 6283 1048**

ORDERING PATENT DOCUMENTS

When ordering copies of Australian patent specifications, or abstracts and abridgments notified as open to public inspection on or after 26 October 1978, or as accepted on or after 16 November 1978, the documents should be referred to by application numbers only, preceded by letters AU-A or AU-B respectively.

REQUESTS FOR INFORMATION UNDER SECTION 194 (C)

A request for information under Section 194 (C) of the Patents Act 1990 should be made in the approved form and be accompanied by the prescribed fee. The request should be as detailed as possible.

INFORMATION FROM REGISTERS

All requests for information from Register of Patents, Trade Marks or Designs, should be made in writing and accompanied by the prescribed fee. The Registers are located in Canberra and may be examined free of charge.

COUNTRY CODES

For a listing of country codes used by IP Australia please refer to the Official Journals dated 7 November 1996.

ABBREVIATIONS IN JOURNAL

Standard abbreviations are used in the name of companies and firms. Enquiries concerning the precise name should be directed to the Customer Support Centre.

FREEDOM OF INFORMATION ACT

What does it do?

- Gives you right to obtain information held by Commonwealth Ministers, Departments and most statutory bodies (these bodies are called agencies under the Act).
- Requires Commonwealth Government agencies to make available to members of the public:
 - Information about agencies, their functions and operations.
 - Information about rules and practices which are used in making decisions which affect you.
- Gives you a legal right to:
 - See non exempt documents held by agencies, and
 - appeal against a decision not to grant access to a document.

What documents can you see?

- The Act gives you a right to see documents lodged on or after 1 December 1977, or earlier if you need them to understand another document you have already.
- Documents include files, reports, computer printouts, maps, plans, photographs, tape recordings, films or videotapes.
- Documents which are available for purchase under the Patents Act 1990, the Trade Marks Act 1995 or Designs Act 2003 are not available under the Freedom of Information Act (Section 12 refers).

How do you apply?

Requests for access to documents must

- Be in writing
- Provide sufficient information so as to enable identification of the documents requested
- Specify an address in Australia where notices can be sent and
- Be accompanied by the application fee (currently \$30.00) or specify an IP Australia account to which the charges will be posted.

Requests for documents should be addressed to IP Australia, PO Box 200 Woden, ACT 2606, or faxed to 02 6283 7999

DECISIONS OF THE COMMISSIONER OF PATENTS AND REGISTRAR OF TRADE MARKS AND DESIGNS

- All decisions of the Commissioner and Registrars are available free of charge from AUSTLII's website www.austlii.edu.au

Copies of all written Patent and Design decisions are available (except if they would not be available under the provisions of the Freedom of Information legislation, e.g. if they would effectively disclose matter from documents that are not open to public inspection) on request for a cost of \$AU 25. They are also available for inspection in indexed volume series, dating from 1 January 1987, in the Office library, Canberra.

Copies of Trade Mark decisions may be accessed via IP Australia's website www.ipaustralia.gov.au

- Copies of the taped record of Patent and Design hearings are available (with the same exception as above) on request.
- When a written decision is issued the fact of the decision plus a brief head note will be published in the Official Notices section of the next available Patents, Trade Marks or Designs Journal.

HEARINGS BEFORE THE COMMISSIONER OF PATENTS AND THE REGISTRARS OF TRADE MARKS AND DESIGNS

Hearings before the Commissioner of Patents and the Registrars of Trade Marks and Designs will be set down in Melbourne, Sydney, Adelaide, Perth and Brisbane during the periods indicated below.

Patent Hearings Sessions 2005

Melbourne	9 – 11 May
Sydney	11 – 13 July
Adelaide	2 – 3 August
Perth	4 – 5 August
Brisbane	1 – 2 September

Note: Expert matters will have priority over other matters for allocation of a hearing in these sessions.

Designs and Trade Marks Hearings Sessions 2005

Melbourne	14 – 18 February 6 – 10 June 12 – 16 September
Sydney	14 – 18 March 18 – 22 July 17 – 21 October
Adelaide	15 – 16 August
Perth	18 – 19 August
Brisbane	22 – 23 August

Persons who desire matters to be set down for hearing in Melbourne, Sydney, Adelaide, Perth or Brisbane must give at least one month's notice of their intention to be heard. If such notice is not given, it may be that there would be insufficient time to allow for the execution of official procedures associated with the listing of hearings, and as a result, the matter involved might not be listed.

Subject to the convenience of this Office, hearings will be set down in Canberra at any time suitable to the parties.

LIST OF STATE OFFICES

IP Australia State Offices are located in the Australian Capitals at the addresses given below. Requests for information may be obtained by calling at, phoning or writing to these offices or IP Australia, Canberra.

GUIDE TO THE USE OF THIS JOURNAL

The Australian Official Journal of Patents (**AOJP**) reports on all the major events and actions which take place during the life cycle of an Australian patent and provides certain details of these actions as they relate to the patent or patent application involved. This guide sets out to teach the reader how to use the journal to access this information.

While there are many possible actions in the life of a patent, the majority of actions reported relate to the following events, which are the main stages in the progression of a patent application to a sealed patent:

(i) FILING –

This is the act of making an application. When the application is first filed certain details are published.

(ii) OPEN-TO-PUBLIC-INSPECTION (OPI) –

Approximately 18 months after first filing of an Australian or a corresponding foreign application, certain application documents, including the complete specification, become available to the public (Open-to-Public-Inspection or “OPI”). Relevant application details are published. In addition, an Abstracts Supplement to the AOJP contains abstracts of the inventive content of the OPI applications.

(iii) ACCEPTANCE –

This is the Commissioner’s acceptance of a patent application. Once the Commissioner has accepted a patent application, certain details of the application are published in the AOJP. In addition, an Abridgments Supplement contains an abridgment (usually the broadest accepted claim and relevant drawing where appropriate) for each accepted application. Notice of opposition may be filed within three months of advertisement of acceptance.

(iv) OPPOSITION –

If an opposition action is commenced against the grant of the patent, the six-figure acceptance number and the name of the opponent are published.

(v) SEALING –

Most accepted applications are not opposed. These proceed to sealing and become granted patents. Of the few that are opposed (less than 1%) most of these, after resolution of the opposition, proceed to sealing and become granted patents. Sealed patents are simply listed in order of their six-figure acceptance number.

In addition to the actions related to these stages, other actions reported include: assignments, lapsing or withdrawal of applications and ceasing or expiry of patents, voluntary amendments, extensions of time for certain actions and registration of licences.

How To Identify Information Using “INID” Numbers

Patents are published in many different languages. As a result, finding the information that you want (eg the filing date) on a patent document or in a journal can be quite difficult. There is an international system operating, however, which codifies this information in an unambiguous way, by assigning a specific number to each piece of information about the history of a patent. These numbers are called the international agreed Numbers for the identification of Data or INID numbers.

These numbers appear on all published patents and abstracts and are used throughout this journal to identify particular items of information. For example, the data on which a document is filed has the INID number (22), while the name of the applicant has the INID number (71). These numbers are always expressed in parentheses and always immediately precede the information to which they relate. For example:

(22) 12.10.91

means that the filing date of the document which contains this reference is 12 October 1991. Learning the INID numbers for the information you want will help you find it quickly and easily.

A complete list of the INID numbers and the items to which they relate is provided at the end of this Guide.

How Australia Patent Documents are Numbered

Patent applications in Australia are assigned numbers at various stages in their processing. Each Australian application which proceeds to acceptance will have at least two (and sometimes more) different numbers during its life. When searching for information and ordering documents it is vital that you understand the numbering systems.

1. **Provisional Applications** are given a number with two characters and four numbers

e.g. **PM1234**

A provisional application number is identified by the INID number (21).

2. **Complete Applications** are given a five-figure application number followed by the last two digits of the year of filing

e.g. **12345/93**

There are prefixes applied to this number which indicate whether the application has been accepted:

A document corresponding to an **unaccepted** application has the prefix, **AU-A**; e.g. AU-A-12345/93.

A document corresponding to an **accepted** application carries the prefix **AU-B**; e.g. AU-B-12345/93.

Users need to be aware that an accepted document may differ from the corresponding unaccepted document. This is because **amendment** may occur between first publication (OPI) and second publication (acceptance).

A five-figure application number is identified by the INID numbers (11) or (21).

3. When a patent application is **accepted** it is given a six-figure document number in addition to the five-figure application number
e.g. 123456

This is the number you must use to keep track of the application in the AOJP from now on. It is identified by the INID number (10).

NOTE: When ordering any patent document from us, whether accepted or not, please quote the five-figure application number preceded by the appropriate prefix.

Arrangement of Information in the Journal

For each of the categories

- (i) Provisional Applications Filed,
- (ii) Complete Applications Filed
- (iii) Applications Open to Public Inspection, and
- (iv) Applications Accepted

The Journal lists the information published in that category in an alphabetical **Name Index** list based on the name of the applicant. These indices are useful if you wish to find information about applications made by a particular applicant.

In addition to the Name Index there is provided, for each of these categories, a **Numerical Index**. This index lists the applications either in order of their five-figure Application Numbers, in the case of complete applications filed and applications OPI, or in order of their six-figure Document Number in the case of accepted applications. It provides, for each number, the name of the applicant. These indices are useful if you wish to track the progress of a particular patent application.

There are also **IPC indices** provided for applications which are OPI and for applications which have been accepted. IPC stands for International Patent Classification. Each IPC "mark" is an alpha-numerical representation of a particular area of technology. These indices are in order of IPC mark, and within each mark provide either the five-figure application numbers of the applications which are now OPI or the six-figure numbers of the cases now accepted. These indices are useful if you wish to check on patent activity in a particular technology.

Using the Indices

1. To Find Patent Information If You Know the Name of the Applicant.

Use the Name Indices. They will give you the following information identified by their INID number:

<u>ITEM</u>	<u>INID</u> <u>No.</u>	<u>ITEM</u>	<u>INID</u> <u>No.</u>
A) Provisional applications filed – Name Index		B) Complete applications filed – Name Index	
The <u>name</u> of the applicant	(71)	The <u>name</u> of the applicant	(71)
The <u>Provisional application number</u>	(21)	The <u>number</u> assigned to the application	(21)
The <u>date</u> of filing	(22)	The <u>date</u> of filing	(22)
The <u>title</u> of the invention	(54)	<u>Title</u> of the invention	(54)
		<u>Number</u> of priority document(s) if any	(31)
		<u>Date(s)</u> of filing of priority documents	(32)
		<u>Country</u> in which priority document filed	(33)
		PCT application <u>number</u>	(86)
<u>ITEM</u>	<u>INID</u> <u>No.</u>	<u>ITEM</u>	<u>INID</u> <u>No.</u>
C) Applications open to public inspection – Name Index		D) Applications accepted – Name Index	
The <u>name</u> of the applicant	(71)	The <u>name</u> of the applicant	(71)
The <u>number</u> of the document	(11)	The <u>number</u> of the document	(11)
The <u>number</u> assigned to the application	(21)	The <u>number</u> of the accepted document	(10)
The <u>date</u> of filing	(22)	The <u>number</u> assigned to the application	(21)
The <u>title</u>	(54)	The <u>date</u> of filing	(22)
The <u>classification marks</u>	(51)	The <u>title</u>	(54)

Priority document <u>number(s)</u>	(31)	The <u>classification marks</u>	(51)
Date of filing of priority document(s)	(32)	PCT publication <u>number</u>	(87)
<u>Country</u> in which priority document filed	(33)	Priority document <u>number(s)</u>	(31)
Publication <u>date</u> of unexamined document	(43)	<u>Date</u> of filing of priority document(s)	(32)
Inventors <u>names</u> if known	(72)	<u>Country</u> in which priority document filed	(33)
Patent <u>Attorneys</u>	(74)	Publication <u>date</u> of unexamined document	(43)
Related by addition	(61)	Publication <u>date</u> of examined document	(44)
Related by division	(62)	Publication <u>date</u> of granted document	(45)
		Inventors <u>names</u> if known	(72)
		Patent <u>Attorneys</u>	(74)
		Related by addition	(61)
		Related by division	(62)

You will notice at each stage of following an application through that all applications are in alphabetical order of Applicant, not inventor.

2. To Find Information About a Patent Application If You Know Its Number.

Use the appropriate numerical index. This will give you the name of the applicant from the number. You will then need to use the appropriate Name Index as above to find out other information about the Patent Application you are interested in.

The following Numerical Indices are available:

- A) **Provisional** Applications filed.
- B) **Complete** Applications filed.
- C) Applications **Open to Public Inspection**.
- D) Applications **Accepted** (note that this uses six-figure document numbers rather than five-figure application numbers).

3. To Find Information About Patent Documents in the Area of Technology in which You are Interested if You Know the International Patent Classification Mark for that Area.

All patent applications are classified according to their subject matter using the International Patent Classification (**IPC**). Although the system is very detailed and covers all technologies, knowledge of the IPC marks of the technologies you are interested in will allow you to find patent documents in these technologies quite easily. To identify the IPC marks of technologies you are interested in, you can inspect relevant documentation in any of IP Australia's state offices.

The indices to use are

- A) Applications **OPI** – IPC Index
- B) Applications **Accepted** – IPC Index.

These indices give you the numbers of the applications which are either OPI or Accepted and are listed in order of their IPC marks.

Once you have the numbers of the documents that interest you, consult the relevant Number Index (see 2. above) to find the applicant's name, and then the Name Index (see 1. above) to find out the details of that application.

INID NUMBERS in use on Australian Patent Documents

INID is an acronym for ' Internationally agreed Numbers for the Identification of Data '.

(10) Document Identification

- (11) Number of the document
- (12) Plain language designation of the kind of document.
- (19) WIPO country code, or other identification, of the country publishing the document.

(20) Document filing data

- (21) The number(s) assigned to the application(s)
- (22) Date(s) of filing application(s)
- (23) Other date(s) of filing, including exhibition filing date of filing complete specification following provisional specification.
- (24) Date from which industrial property rights may have effect.

(30) Priority date

- (31) Number(s) assigned to priority application(s)
- (32) Date(s) of filing priority application(s)
- (33) Country (countries) in which the priority application(s) was (were) filed.

(40) Date(s) of making available to the public

- (43) Date of publication by printing or similar process of an unexamined document, on which no grant has taken place on or before the said date.
- (44) Date of publication by printing or similar process of an examined document, on which no grant has taken place on or before the said date.
- (45) Date of publication by printing or similar process of a document, on which grant has taken place on or before the said date.

(50) Technical Information

- (51) International Patent Classification.
- (52) Domestic or national classification.
- (54) Title of invention.
- (56) List of prior art documents, if separate from descriptive text.
- (57) Abstract or claim.

(60) Reference(s) to other legally related domestic document(s)

- (60) Related by cognate(s).
- (61) Related by addition(s)
- (62) Related by division(s).

(70) Identification of parties concerned with document

- (70) Name(s) of nominated person
- (71) Name(s) of applicant(s).
- (72) Name(s) of inventor(s) if known to be such.
- (74) Name(s) of attorney(s) or agent(s).
- (75) Name(s) of inventor(s) who is (are) also applicant(s)

(80) Identification of data related to International Conventions other than the Paris Convention

- (86) PCT Application Number.
- (87) PCT Publication Number.

NOTE:

- (1) Australian patent documents published on or after 26 October 1978 should be referred to by the application number preceded by the AU-A or AU-B.

AU-A = Pre-examination

AU-B = Post-examination

- (2) The classification used is the International Patent Classification and is identified by the INID code (51). Further editions of the classification are identified as (51)², (51)³, (51)⁴ and (51)⁵.

- (3) INID code 74 provides for the name of patent attorney, or firm of attorneys, prosecuting an application.

- (4) No provision is made for addresses for service. Addresses for service of applicants not represented by an independent attorney or firm are viewable at www.ipaustralia.gov.au and on sale at the IP Australia State Offices.

Official Notice

New Release of the Trade Marks E-Form

A new version of the Trade Marks Application E-form is due to be released on the 18th of June 2005.

The major features of the new trade mark application E-form are:

- the addition of a save functionality;
- increased compatibility with different computers and browsers;
- the option of a pick-list for selecting goods and services; and
- a new look.

The save functionality

The new E-form enables applicants to save the application form and complete it or send it at later stage. The save function also enables applicants to store a completed E-form for future reference.

Increased compatibility

The E-form currently in use has had some compatibility problems with a small number of computers and/or browsers. The newly developed e-form has been designed to avoid such compatibility problems and to achieve functionality with a wider range of computers and browsers.

The option of a pick list for selecting goods and services

The new E-form features a list of goods and services from the Nice Classification which applicants can choose from to include on their application. A clear and accurate description of the goods and/or services claimed is an important aspect of any trade mark application, because it determines the scope of the application and of any resulting registration. Correct classification of the goods and/or services claimed is also important, because it facilitates accurate searching for conflicting trade marks.

Applicants and or their agents using the pick list will be able to ensure that goods and services selected from it are correctly classified. The pick list is however, optional and applicants who would prefer to specify their goods and services without using this resource are free to do so.

Assistance is also available during business hours (9.00 am to 5.00 pm Mon to Fri) from our Customer Service Network via 1300 651010 or you can send your query by e-mail to the address listed below.

Official Notice

Trade Marks in Colour on ATMOSS
Changes to the Trade Marks Manual of Practice Procedure
New Glossary of Constituent Particulars Index Terms

Trade Marks in Colour on ATMOSS

IP Australia has recently implemented changes to image processing in IP Australia to allow trade mark images to be viewed in colour. As a result trade mark images filed in colour will now be viewable in colour in ATMOSS and Trade Marks Image Viewer.

However, representations of the colour will depend on your computer and its settings. We recommend 32 bit TrueColour setting.

Please note:

- Applicants who file trade marks in colour do not usually intend to restrict usage to those colours alone. Registration rights for use of these trade marks will normally extend to use of the mark in other colours.
- If a trade mark is restricted to colour, this will be noted in an accompanying endorsement.
- A colour by itself or in combination with other colours may also be claimed as a trade mark. This will be noted in an accompanying endorsement.

This change took effect for any trade marks received after TM 1052163. The next phase will be to back capture prior applications received in colour.

Trade Marks Online Manual of Practice and Procedure updated

The online Trade Marks Manual is now available in a more user friendly format. The new look manual can be found on our [Resources - Manuals page](#).

New Trade Marks Glossary of Image Descriptors

In response to feedback from customers, an up to date listing of image descriptors showing pictorial examples has been made available on the IP Australia website on the [TM Search page](#). This is an adjunct to the existing Image Descriptor search which can be found through links on the [TM Search page](#) or via [ATMOSS](#).

ABSTRACTS OF DECISIONS

ABSTRACT OF REASONS FOR A DECISION OF A DELEGATE OF THE REGISTRAR OF
TRADE MARKS

Trade Mark Application	:	877486: MW MOUNT WILLIAM and the device of a VINE LEAF
Applicant	:	Darryl Murray Cousins, Adrienne Mary Cousins, Neil Stuart Smith and Joan Smith
Opponent	:	McWilliams Wines Pty Ltd
Decision	:	<i>Trade Marks Act 1995</i> - section 52 opposition – grounds under sections 44 and 60 not established – registration allowed.
Decision Issued	:	23 May 2005

ABSTRACTS OF DECISIONS

ABSTRACT OF REASONS FOR A DECISION OF A DELEGATE OF THE REGISTRAR OF
TRADE MARKS

Trade Mark Registration	:	675261: ENDURANCE SPORTS MADE TO LAST
Applicant for removal	:	Rembrandt Suits Ltd
Opponent to removal	:	Kevin John Mansfield
Decision	:	S92 removal (opposed). No use of trade mark established. Removal ordered. Costs awarded against opponent
Decision Issued	:	20 May 2005

Proceedings Under The Trade Marks Act 1995

Applications/IRs Filed

Nos 1055066 to 1055667

Representations of the trade marks comprised in the following list of applications/international registrations designating Australia may be inspected at the Trade Marks Office, Canberra and in the Trade Marks Sub-Offices at Sydney, Melbourne, Brisbane, Adelaide, Perth and Hobart. The date following the class is that on which the application was filed; in the case of convention applications the country of origin and the date claimed are in parentheses.

Cl. 4 Oils in this class; fuels in this class; gas products in this class including natural gas, gas for lighting, compressed natural gas, natural gas liquids, gas oil, producer gas, solidified gas; coal, products in this class for heating, illuminating, fuel and power generating purposes

Cl. 9 Smoke and fire detectors; fire extinguishing apparatus including fire extinguishers; fire alarms; anti intrusion monitors and alarms; gas testing instruments; fuel and energy resources pumps and meters in this class; pressure indicator plugs for valves; connections for electric lines; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling energy; electric wires and connectors; computer software including software and systems for the management and maintenance of pipelines; CD ROMs, DVDs and audio tapes; home and business security products

Cl. 12 Equipment, apparatus and accessories in this class for natural gas vehicles including lines, wires, compressors, fittings, filters, valves, regulators, meters and gauges

Cl. 16 Printed matter; training manuals and instructions materials on the subject of fuel, natural and liquefied gas, oil, coal, energy and water resources, and pipeline operations, management, maintenance, efficiency, design, technology and safety

Cl. 35 Business management services and business measurement services in the fields of fuel, natural and liquefied gas, oil, coal, energy and water resources, including business advisory and management services relating to management and conservation of petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil, propane and water; retailing of gas fired and electric appliances and equipment; sale of residential appliances, commercial appliances, industrial appliances and equipment and apparatus for use in the production, generation, co-generation, distribution, transportation, transmissions, storage, management, conservation, research and development and consumption of water resources and energy resources, including natural gas and natural gas liquids, refined products, electricity, oil and propane; sale of parts and equipment relating to remote monitoring and control of environmental systems including heating and cooling, intruder and fire alarms and appliances; consultancy services in this class; business consultancy, management and administration services offered to third parties to increase efficiency and performance of energy use; retailing of gas fired and electric appliances and equipment; retailing of environmental systems including heating and cooling and parts and equipment thereof; promotion and advertising services in relation to petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil, propane and water; business advisory and management services relating to the management and conservation of petroleum, refined petroleum product, energy and fuel

Cl. 36 Financial services in this class including financing purchase and/or rental of merchandise, accessories and equipment including natural gas vehicle equipment and accessories; brokering services in relation to petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil, propane and water on behalf of others; brokerage of commodities; billing services provided to others in relation to petroleum, refined petroleum products, natural and liquefied gas electrical energy, oil, propane and water; provision of financial service plans; financing and warranty services for home and commercial appliances, home and business security products, equipment supplied for use in the production, generation, co-generation, distribution, transportation, transmission, storage, management, conservation, research and development and consumption of water resources and energy

resources, including natural gas and natural gas liquids, refined products, electricity, oil and propane; in plant financing; financial services in relation production, generation, co-generation, distribution, transportation, transmission, storage, management, conservation, research and development and consumption of water resources and energy resources, including natural gas and natural gas liquids, refined products, electricity, oil and propane; loan financing services; online commodity trading services in this class

- Cl. 37** Services in this class being mining and drilling including water and oil drilling; services in this class being oil, coal and gas installations and operations; construction, installation, maintenance and repair of solar energy apparatus and installations; installation and servicing of pipes, valves, meters, trucks, tanks and storage vessels used in the supply of natural and liquefied petroleum gas to residential, commercial and industrial users; installation and servicing of gas fired and electric appliances and equipment, including air conditioners, boilers, burners, carbon dioxide generators, clothes dryers, coffee makers, deep fat fryers, dish washers, food and dish warmers, furnaces, fireplaces, fireplace heaters, space heaters, water heaters, swimming pool heaters, hot plates and griddles, humidifiers, incinerators, ovens, ranges, smokes houses, toasters, barbecues and lights; automatic burner ignition and safety shut off devices, combination controls for gas appliances, connectors for gas appliances, drip tubes for water heaters, draft hoods, petroleum gas hose, couplings and assemblies, pressure regulators, quick disconnect devices, thermostats and valves; installing and servicing household appliances, namely electric dishwashers, electric clothes washers, electric refrigerators, electric freezers, electric dryers, barbecues and accessories therefore, trashmashers, microwave ovens, air cleaners, vacuum cleaners, humidifiers, dehumidifiers, smoke and fire detectors, household security systems and fire extinguishers; installation services for insulation, aluminium doors and windows, aluminium or vinyl siding, soffits and fascias and evestroughs being guttering, external and internal air filtration controls for buildings; the service and installation of natural gas vehicle equipment and accessories; pipeline maintenance services; installing and servicing home and commercial appliances, home and business security products, equipment and supplies for use in the production, generation, co-generation, distribution, transportation, transmission, storage, management, conservation, research and development and consumption of water resources and energy resources, including natural gas and natural gas liquids, refined products, electricity, oil and propane; installation and servicing of environmental systems including heating and cooling and parts and equipment thereof; home renovation services; general contracting services for construction and building, electrical contracting services; construction, repair and maintenance of residential and commercial buildings; commercial building renovation and repair services; construction, installation and maintenance of pipelines; house painting services; janitorial services; rental of residential, commercial and industrial dishwashers, measuring devices (used for maintenance, repair or cleaning); and equipment and apparatus for the foregoing; professional consulting services in the field of maintenance of pipelines

- Cl. 38** Telecommunication services in this class, transmission services (regardless of technological means of transmission); computer aided transmission of

messages and images; transmission of information on a wide range of topics via online services

- Cl. 39** Transportation services including transportation of natural and liquefied petroleum gas and fuel to commercial and industrial users by pipeline, truck, rail or ship; distribution, transmission and storage of petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil propane and water; operation of pipelines, namely transporting crude oil, natural gas, hydrocarbons and liquids by pipeline; delivery of natural gas to consumers by rail, truck and pipeline; distribution of water to commercial and residential consumers by pipeline or truck; public utility services, namely distribution of electricity, gas and water; water and electric utility services namely distribution of water and electricity; operation of truck and marine terminals, and gas and liquid hydrocarbon terminals; operation of pipes, valves, meters, trucks, tanks and storage vessels used in the supply of natural and liquefied petroleum gas to residential, commercial and industrial users; professional consulting services in the field of pipeline operations; professional consulting services in the fields of gathering, transporting and distributing fuel, natural and liquefied gas, oil, coal, energy and water resources; rental of residential, commercial and industrial refrigerators, tanks, pipes, valves; and equipment and apparatus for the foregoing
- Cl. 40** Production, treatment, generation and co-generation of petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil, propane and water; water treatment; custom manufacturing of solar energy apparatus and installations; professional consulting services relating to the treatment and processing of fuel, natural and liquefied gas, oil, coal, energy and water resources; rental of residential, commercial and industrial water heaters, heaters, air conditioners; measuring devices, valves and coring apparatus used in manufacturing; and equipment and apparatus for the foregoing
- Cl. 41** On-line publication; publishing; electronic publishing; publication of information on the Internet; provision of training including technical training and training assistance to optimise use of available technologies in relation to petroleum, refined petroleum products, natural and liquefied gas, electrical energy, oil, propane and water; arranging and conducting educational seminars, training sessions and workshops in the field of fuel, natural and liquefied gas, oil, petroleum industry, coal, energy resources, water resources and pipeline operations, maintenance, efficiency, management and safety
- Cl. 42** Residential and commercial building and energy inspection services; evaluation services to determine efficiency and performance of energy use; consultation and research services provided to others in relation to petroleum, refined petroleum products, natural and liquefied gas, electrical energy, energy, oil, propane and water; home and industrial design; research and development services relating to remote monitoring and control of environmental systems including heating and cooling and appliances and parts and equipment thereof; research in the field of energy; mechanical engineering and research services; computer services in this class, namely custom design of computer software for the operation, maintenance, design and technology of pipelines; professional consulting services in the fields of fuel, natural and liquefied gas, oil, coal, energy and water resources; home and commercial building inspection services; energy monitoring and analysis; oil and gas mining exploration; rental of residential, commercial and

industrial coring apparatus, measuring devices and valves used in environmental monitoring; and equipment and apparatus for the foregoing; professional consulting services in the fields of efficiency and safety of pipelines; measurement services in the fields of fuel, natural and liquefied gas, oil, coal, energy and water resources; home and energy audit services
