ORDERING PATENT DOCUMENTS

When ordering copies of Australian patent specifications, or abstracts and abridgments notified as open to public inspection on or after 26 October 1978, or as accepted on or after 16 November 1978, the documents should be referred to by application numbers only, preceded by letters AU-A or AU-B respectively.

REQUESTS FOR INFORMATION UNDER SECTION 194 (C)

A request for information under Section 194 (C) of the Patents Act 1990 should be made in the approved form and be accompanied by the prescribed fee. The request should be as detailed as possible.

INFORMATION FROM REGISTERS

All requests for information from Register of Patents, Trade Marks or Designs, should be made in writing and accompanied by the prescribed fee. The Registers are located in Canberra and may be examined free of charge.

COUNTRY CODES

For a listing of country codes used by IP Australia please refer to the Official Journals dated 7 November 1996.

ABBREVIATIONS IN JOURNAL

Standard abbreviations are used in the name of companies and firms. Enquiries concerning the precise name should be directed to the Customer Service Network.

FREEDOM OF INFORMATION ACT

What does it do?

- Gives you right to obtain information held by Commonwealth Ministers, Departments and most statutory bodies (these bodies are called agencies under the Act).
- Requires Commonwealth Government agencies to make available to members of the public:
 - Information about agencies, their functions and operations.
 - Information about rules and practices which are used in making decisions which affect you.
- Gives you a legal right to:
 - See non exempt documents held by agencies, and
 - appeal against a decision not to grant access to a document.

What documents can you see?

- The Act gives you a right to see documents lodged on or after 1 December 1977, or earlier if you need them to understand another document you have already.
- Documents include files, reports, computer printouts, maps, plans, photographs, tape recordings, films or videotapes.
- Documents which are available for purchase under the Patents Act 1990, the Trade Marks Act 1995 or Designs Act 2003 are not available under the Freedom of Information Act (Section 12 refers).

How do you apply?

Requests for access to documents must

- Be in writing
- Provide sufficient information so as to enable identification of the documents requested
- Specify an address in Australia where notices can be sent and
- Be accompanied by the application fee (currently \$30.00) or specify an IP Australia account to which the charges will be posted.

Requests for documents should be addressed to IP Australia, PO Box 200 Woden, ACT 2606, or Faxed to 02 6283 7999

DECISIONS OF THE COMMISSIONER OF PATENTS AND REGISTRAR OF TRADE MARKS AND DESIGNS

- All decisions of the Commissioner and Registrars are available free of charge from AUSTLII's website www.austlii.edu.au

Copies of all written Patent and Design decisions are available (except if they would not be available under the provisions of the Freedom of Information legislation, e.g. if they would effectively disclose matter from documents that are not open to public inspection) on request for a cost of \$AU 25. They are also available for inspection in indexed volume series, dating from 1 January 1987, in the Office library, Canberra.

Copies of Trade Mark decisions may be accessed via IP Australia's website www.ipaustralia.gov.au

- Copies of the taped record of Patent and Design hearings are available (with the same exception as above) on request.
- When a written decision is issued the fact of the decision plus a brief head note will be published in the Official Notices section of the next available Patents, Trade Marks or Designs Journal.

HEARINGS BEFORE THE COMMISSIONER OF PATENTS AND THE REGISTRARS OF TRADE MARKS AND DESIGNS

Hearings before the Commissioner of Patents and the Registrars of Trade Marks and Designs will be set down in Melbourne, Sydney, Adelaide, Perth and Brisbane during the periods indicated below.

Patent Hearings Sessions 2005

Melbourne	9 – 11 May
Sydney	11 – 13 July
Adelaide	2 – 3 August
Perth	4 – 5 August
Brisbane	1 – 2 September

Note: Expert matters will have priority over other matters for allocation of a hearing in these sessions.

Designs and Trade Marks Hearings Sessions 2005

Melbourne	14 – 18 February 6 – 10 June 12 – 16 September
Sydney	14 – 18 March 18 – 22 July 17 – 21 October
Adelaide	15 – 16 August
Perth	18 – 19 August
Brisbane	22 – 23 August

Persons who desire matters to be set down for hearing in Melbourne, Sydney, Adelaide, Perth or Brisbane must give at least one month's notice of their intention to be heard. If such notice is not given, it may be that there would be insufficient time to allow for the execution of official procedures associated with the listing of hearings, and as a result, the matter involved might not be listed.

Subject to the convenience of this Office, hearings will be set down in Canberra at any time suitable to the parties.

Trade Marks — New Certificate Stationery

Soon there will be a new face to the trade mark registration certificates. New certificate stationery has been produced which reflects a modern design consistent with the prestige and importance of a registered trade mark.

The new trade mark certificate stationery will be introduced from 1 September 2005 for all new registered trade marks. The design of the new stationery is consistent with the Designs and Plant Breeder's Rights certificates. New certificate stationery for Patents will be launched in the near future.

Features of the new trade mark registration certificate stationery are the use of metallic ink and a mauve/grape colour. An example of the new Certificate stationery for Trade Marks is shown below.

Cl. 7 Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); air, gas and vapor compressors; lifting, elevating, lowering, positioning and levelling apparatus and power equipment, including hydraulic lifts for automobiles, trucks and buses, hoists and load arms; hoists; semiconductor manufacturing machines and parts thereof; hydraulic trash can dumpers;

food and beverage can manufacturing equipment, including presses and tooling for manufacturing cans and components thereof; pumps, including air-operated double diaphragm pumps, liquefied gas pumps, positive displacement pumps, rotary vane pumps, vacuum pumps, vapor recovery pumps, hose pumps and eccentric piston pumps; gear reducers for machines; bypass valves, including bypass valves for positive displacement pumps; piston rings;

mechanical seals and seal assemblies; piston rods; remote control manipulators, including master-slave manipulators; remotely controlled industrial robot arms; electrical generators and gears to be used in the air conditioning, refrigeration, gas pipeline, oil refining, and power generation industries; transmission gears for electrical generators; fuel injection valves;

machines for applying solder and related electronic materials in connection with production of printed circuit boards and other electronic substrates, including flow soldering machines, wave soldering machines, die bonders, placement equipment, stencil printers and screen printers; electric circuit board assembly machines; electronic thick film hybrid circuit and solar cell manufacturing machines; integrated circuit manufacturing machines;

power tools, including battery powered wire wrapping tools and replacement parts therefor; robotic drills; robot-controlled gripping devices for industrial use; robotic loading arms for industrial use; refrigeration compressor valves; machine parts, including cylinders; pneumatic, hydraulic and electronic tensioning devices and gripping tools, including torque wrenches, hydraulic wrenches and enclosed pneumatic clamps;

torque converters not for land vehicles; machine parts, including bearing housings; machine housings as a component of an industrial production machine; electric welding machines; electric food blenders for commercial use; hydraulic pump units; electric pumps; refuse collection, compaction and transport equipment, including truck mounted, trailer mounted and trailerized refuse containers; hoisting units for handling containers and materials;

industrial trash compacting machines; compactors, bailers, hoists, shredders, grinders, granulators, and conveyors; medical waste compactors; truck-mounted front loading waste compactors; garbage hoists; machines for cleaning surfaces using high pressure fluids; fluid handling equipment, including oil production equipment, including plunger lifts;

subsurface equipment for oil industry, including plungers, downhold equipment, including springs, valves, tubing stops and collar locks, control valves, butterfly valves, and pumps; pump parts, including plungers and oil and gas lift wells; liquid handling equipment, including sucker rods; printing presses; conveyors for moving articles past an inkjet;

internal combustion engine parts, including forged and cast pistons, connecting rod kits, crankshafts, sleeves, liners and cylinders, piston rings, bearings, gasket sets; well pumping equipment, including well-servicing equipment, sucker rods, plunger lifts, subsurface equipment, including plungers, downhold equipment, including springs, valves, tubing stops and collar locks, control valves, butterfly valves, and pumps;

fluid fuelling components, including manual and automatic nozzles, nozzle hood assemblies, including hose retractors, vapor recovery dispensing nozzles, swivels, breakaways, and vapor recovery valves; automated loading arms for industrial use; fuel dispensing pumps; vehicle washing, waxing, drying and polishing machines; machine couple and transmission components; electric motors for machines; gears for electric motors;

machine parts used in industrial robots; end effectors, grippers, rotary actuators, tool changers, collision clutches, all for industrial robots; centrifuges for liquid/solid separation; machinery for processing industrial fluid streams and industrial products equipment and media for liquid/solid separation, filtration and mixing, including mixers and centrifugal pumps;

ball bearings and journal bearings, including journal bearings, rod end bearings, self-lubricated bearings, spherical bearings, standard bearings, tilting pads, fluid film thrust bearings for use in rotating equipment, including steam turbines, gas turbines, compressors, marine propulsion systems, motors and generators; concrete finishing machines; concrete mixers and spreaders; concrete pumps;

power tools and machines for levelling concrete, including automatic condensation valves, screed heads, laser screeds and booms, and topping screeds; packaging automation machinery for forming, folding and packaging boxes and cartons; ultrasonic degreasing and cleaning machine for cleaning mechanical devices using terpene compounds; plastic polishing and refurbishing machines;

automotive engine parts, including piston kits, connecting rod kits, bearings, and engine valves; gasket sets for internal combustion engines; packaging machines; machines that apply crimp closure fasteners, netting and vacuum packaging closure to food and other packaged products; radiators for motors and engines; winches; gear systems, including hydraulic lifts for boats, hydraulic pumps, and parts thereof;

machines for automated printing on and handling of containers, including dry-offset printing machines for the packaging industry, cup printers, pail printers, lid printers, and tube printers; soldering machines for use in the manufacture of printed circuits; machines for solvent cleaning of printed circuit boards; air filters, mufflers and air control valves all for use with engines and motors; drain pump adaptors; diaphragm pumps for preprocess, process and waste applications; hydraulic bolt tensioners and torque mode changers; gear systems and parts thereof for water vehicles; refrigerated conveyors; snow plows, metal railway couplers; sucker rod couplings; metal rods, including piston rods, piston connecting rods, cylinder rods, compressor rods, drive rods and sucker rods; metal clamps used for holding piece parts on machine tool tables; bowl mixers;

electric dough rollers; power clamping machines; vapor recovery equipment for brewing and fermentation, including booster compressors and reciprocating compressors; refrigerated condensing units, including compressors, evaporators and condensers; automotive repair machines, including body, frame and wheel aligners;

electric arc welder accessories for electric arc welding machines, including cable assemblies, positioning booms, water cooler circulators, cable splicers and equipment carts, (being moveable carts to hold equipment and apparatus such as electric arc welders and other machines); and gear systems and parts thereof for use on land vehicles, including drive gears,

hydraulic pump drives and capstans for utility cranes and construction and truck industries; manual dispensers for proportioning, dispensing and pumping chemicals and cleaning solvents

Cl. 9 Scientific, weighing, measuring apparatus and instruments; apparatus for conducting, switching, transforming, accumulating, regulating and controlling electricity; data processing equipment, computer hardware and software, vapor recovery monitoring system, consisting of monitoring unit and vapor recovery nozzles for carbon dioxide recovery;

control instruments and apparatus for pumps and fluid motors, including hydraulic controls for submarines and hydraulic controls, including automatic hydraulic valves and actuators for aircraft landing gear; liquid proportioning and metering instruments and apparatus, including chemical and liquid proportioners in the industrial cleaning fields for mixing detergents and chemicals with a water stream in non-medical,

non-dental and non-veterinary applications; electronic apparatus, including electronic level transmitters/controllers for monitoring, sensing and measuring liquid levels in pressure containing tanks and vessels and in mobile and stationary storage vehicles; liquid handling equipment, including automatic butterfly valves, automatic control valves; automatic valves; magnetic interferometers for testing the integrity of elongate metal objects;

high frequency electronic circuit boards and microwave integrated circuits for use in microwave frequency applications; modular enclosures for electronic equipment; capacitors for microwave equipment; ceramic packaging for use in the further manufacture of integrated circuits and electronic devices; measuring instruments, including devices for measuring temperature and heat of solder wave, ultrasonic device for measuring animal backfat;

high frequency rheometers for measuring viscosity of a fluid, and liquid flow; flow meters; pressure gauges; probes for measuring fluid flow; automatic valves, including hydraulic, pneumatic and solenoid valves and control valves for aircraft and submarines; vacuum gauges; gas analyzers, including gas well controller systems for analyzing well contents, gas monitoring transducers, pneumatic level analyzers, pressure analyzers,

temperature analyzers and carbon dioxide analyzers; welding electrodes; laser printers; laser scanners for industrial inspection; lasers for non-medical use; power supplies for lasers; laser-powered measuring instruments for measuring liquid levels, contour and placement of concrete; laser markers; electrostatic discharge devices that ground people and computer workstations to reduce or eliminate static electricity; electromechanical switches;

electrical transformers; inductors; parking meters; metal spring probes used to test the conductivity of printed circuit boards and other electrical components; apparatus and instruments for testing and monitoring electric and electronic components, including printed circuit board testers, in-circuit testers, semiconductor testers; electronic controllers for controlling productivity of oil and gas well installations;

modular computer network systems, including local area networks; electrical, electronic and radio-controlled switches for crane systems; electrical, electronic and radio-controlled switches for signalling, monitoring, and metering crane systems; liquid crystal displays; tension meters; computerized colour control apparatus for printing presses; x-ray scanning densitometers (being apparatus for measuring the optical density of a material);

computer hardware and software for monitoring, reporting and analyzing pressroom operations; temperature responsive control devices for controlling the defrosting of refrigerated equipment; computer printers; electrical controls for ink jet printers; radio frequency and microwave filters; coaxial switches;

electronic circuit components and electromagnetic structures for selective frequency control within the electromagnetic spectrum, including crystal-controlled oscillator circuits, transducers and electromechanical switches, coaxial and waveguide switches and telecommunications power signal routing switches; electronic microwave transmitters and receivers; electromagnetic solenoids used in valve operations;

overmoulded coils used in valve operations; liquid level gauges; liquid level controls and alarms for tanks, cars, trucks, barges and stationary and intermodal tanks; electrical circuit continuity tester for checking tank barge overflow in manure and transportation industries; capacitors; computer operating software for use with electronic component assembly production lines; control and integration software for pressroom automation;

computer software for controlling and managing printers; electronic controllers controlling production of oil and gas well installations; automatic control valves and liquid level controllers; automatic industrial check valves; semiconductor, circuit board and microprocessor test and diagnostic equipment, including IC-handlers, performance boards, probe card blanks, probe test machines; probes, custom-designed test boards, and grid testers;

electric powered soldering irons; thermal tweezers for soldering; electrostatic discharge devices, including electrostatic precipitators, wrist strap testers and heel grounders; electronic power supplies; gas flow gauges; leak detectors for responding to changes in the pressure of fluid to intake leaks in expansion joints; electronic scanner for use with magnetic activation device to activate a gasoline pump to dispense gasoline and diesel fuel;

computer software modules for use with PC platforms at petroleum fueling sites for controlling electronic devices, including dispensers, island card readers, cash registers, tank monitors, and for performing business administration functions, including transaction data management, credit/debit transfer and processing, fleet and retail card transactions;

electronic products using microprocessors, including ATMs, screen printers, semiconductor bare board testers; fuel management machines; industrial lasers for cutting or welding; magnetic interferometers; electronic measuring, reference and calibration apparatus and instruments for use in sensing and measuring density, flow, pressure, force, torque, weight, temperature and inertial parameters,

including measuring densitometers and quartz pressure transducers to measure pressure and temperature in oil and gas exploration and production; pressure sensing apparatus for use in liquid flow lines; electrical transformers; handheld computers; circuit breakers; crystal oscillators; data recovery software; automatic condensation valves;

automatic industrial control valves and actuators for controlling discharge of materials from truck trailer tanks; trash container fullness monitors; ink jet printers; stands and supports for use with printed circuit boards; computerized mechanical measuring devices for identifying and analyzing structural damage to vehicles; metered fuel pumps; continuous ink jet printers for printing data on primary and secondary packaging materials;

automatic metered dispensers for cleaning chemicals; programmable pump dispensing unit for commercial dishwasher and laundry applications; automatic laundry and dish detergent dispenser; automatic dispensers for proportioning, dispensing and pumping chemicals and cleaning solvents; high pressure fluid spraying and cleaning machines, comprised of proportioners for mixing, dispensing and spraying of chemicals and cleaning solvents;

and electronic well controllers

979996 Amended Class 7 "Machines and machine tools; motors and engines (except for land vehicles); machine coupling and transmission components (except for land vehicles); air, gas and vapor compressors; lifting, elevating, lowering, positioning and levelling apparatus and power equipment, including hydraulic lifts for automobiles, trucks and buses, hoists and load arms; hoists; semiconductor manufacturing machines and parts thereof; hydraulic trash can dumpers;

food and beverage can manufacturing equipment, including presses and tooling for manufacturing cans and components thereof; pumps, including air-operated double diaphragm pumps, liquefied gas pumps, positive displacement pumps, rotary vane pumps, vacuum pumps, vapor recovery pumps, hose pumps and eccentric piston pumps; gear reducers for machines; bypass valves, including bypass valves for positive displacement pumps; piston rings;

mechanical seals and seal assemblies; piston rods; remote control manipulators, including master-slave manipulators; remotely controlled industrial robot arms; electrical generators and gears to be used in the air conditioning, refrigeration, gas pipeline, oil refining, and power generation industries; transmission gears for electrical generators; fuel injection valves;

machines for applying solder and related electronic materials in connection with production of printed circuit boards and other electronic substrates, including flow soldering machines, wave soldering machines, die bonders, placement equipment, stencil printers and screen printers; electric circuit board assembly machines; electronic thick film hybrid circuit and solar cell manufacturing machines; integrated circuit manufacturing machines;

power tools, including battery powered wire wrapping tools and replacement parts therefor; robotic drills; robot-controlled gripping devices for industrial use; robotic loading arms for industrial use; refrigeration compressor valves; machine parts, including cylinders; pneumatic, hydraulic and electronic tensioning devices and gripping tools, including torque wrenches, hydraulic wrenches and enclosed pneumatic clamps;

torque converters not for land vehicles; machine parts, including bearing housings; machine housings as a component of an industrial production machine; electric welding machines; electric food blenders for commercial use; hydraulic pump units; electric pumps; refuse collection, compaction and transport equipment, including truck mounted, trailer mounted and trailerized refuse containers; hoisting units for handling containers and materials;

industrial trash compacting machines; compactors, bailers, hoists, shredders, grinders, granulators, and conveyors; medical waste compactors; truck-mounted

front loading waste compactors; garbage hoists; machines for cleaning surfaces using high pressure fluids; fluid handling equipment, including oil production equipment, including plunger lifts;

subsurface equipment for oil industry, including plungers, downhold equipment, including springs, valves, tubing stops and collar locks, control valves, butterfly valves, and pumps; pump parts, including plungers and oil and gas lift wells; liquid handling equipment, including sucker rods; printing presses; conveyors for moving articles past an inkjet;

internal combustion engine parts, including forged and cast pistons, connecting rod kits, crankshafts, sleeves, liners and cylinders, piston rings, bearings, gasket sets; well pumping equipment, including well-servicing equipment, sucker rods, plunger lifts, subsurface equipment, including plungers, downhold equipment, including springs, valves, tubing stops and collar locks, control valves, butterfly valves, and pumps;

fluid fuelling components, including manual and automatic nozzles, nozzle hood assemblies, including hose retractors, vapor recovery dispensing nozzles, swivels, breakaways, and vapor recovery valves; automated loading arms for industrial use; fuel dispensing pumps; vehicle washing, waxing, drying and polishing machines; machine couple and transmission components; electric motors for machines; gears for electric motors;

machine parts used in industrial robots; end effectors, grippers, rotary actuators, tool changers, collision clutches, all for industrial robots; centrifuges for liquid/solid separation; machinery for processing industrial fluid streams and industrial products equipment and media for liquid/solid separation, filtration and mixing, including mixers and centrifugal pumps;

ball bearings and journal bearings, including journal bearings, rod end bearings, self-lubricated bearings, spherical bearings, standard bearings, tilting pads, fluid film thrust bearings for use in rotating equipment, including steam turbines, gas turbines, compressors, marine propulsion systems, motors and generators; concrete finishing machines; concrete mixers and spreaders; concrete pumps;

power tools and machines for levelling concrete, including automatic condensation valves, screed heads, laser screeds and booms, and topping screeds; packaging automation machinery for forming, folding and packaging boxes and cartons; ultrasonic degreasing and cleaning machine for cleaning mechanical devices using terpene compounds; plastic polishing and refurbishing machines;

automotive engine parts, including piston kits, connecting rod kits, bearings, and engine valves; gasket sets for internal combustion engines; packaging machines; machines that apply crimp closure fasteners, netting and vacuum packaging closure to food and other packaged products; radiators for motors and engines; winches; gear systems, including hydraulic lifts for boats, hydraulic pumps, and parts thereof;

machines for automated printing on and handling of containers, including dry-offset printing machines for the packaging industry, cup printers, pail printers, lid printers, and tube printers; soldering machines for use in the manufacture of printed circuits; machines for solvent cleaning of printed circuit boards; air filters, mufflers and air control valves all for use with engines and motors; drain pump adaptors;

diaphragm pumps for preprocess, process and waste applications; hydraulic bolt tensioners and torque mode changers; gear systems and parts thereof for water vehicles; refrigerated conveyors; snow plows, metal

railway couplers; sucker rod couplings; metal rods, including piston rods, piston connecting rods, cylinder rods, compressor rods, drive rods and sucker rods; metal clamps used for holding piece parts on machine tool tables; bowl mixers;

electric dough rollers; power clamping machines; vapor recovery equipment for brewing and fermentation, including booster compressors and reciprocating compressors; refrigerated condensing units, including compressors, evaporators and condensers; automotive repair machines, including body, frame and wheel aligners;

electric arc welder accessories for electric arc welding machines, including cable assemblies, positioning booms, water cooler circulators, cable splicers and equipment carts, (being moveable carts to hold equipment and apparatus such as electric arc welders and other machines); and gear systems and parts thereof for use on land vehicles, including drive gears,

hydraulic pump drives and capstans for utility cranes and construction and truck industries; manual dispensers for proportioning, dispensing and pumping chemicals and cleaning solvents".
