Cl. 9 Devices, equipment, components, computers, data processors, software, data storage means and user terminals for position and location determination, telecommunication, satellite telecommunication, navigation, satellite navigation, telecommunication databases, navigation databases, radio telecommunication, radio navigation as well as for the following applications especially such based on telecommunication, satellite telecommunication, navigation and satellite navigation, map information, traffic information, route guidance, driver information, fleet management, safety and emergency applications, search and rescue applications, monitoring and observation applications, position and location applications; electric and electronic apparatus and instruments especially for receiving,

processing and/or sending of telecommunication signals and/or navigation signals as well as equipment and components therefore; computers, data processors, computer software, data storage means; electric and electronic apparatus and instruments for examination, analysis, observation and monitoring of telecommunication data and/or navigation data and telecommunication signals and/or navigation signals as well as equipment and components therefore;

electronic and electronic apparatus and instruments as well as computer, data processors and computer software for development, optimization and performance analysis of methods and algorithms as well as of processors and software modules for processing and/or generation of telecommunication signals and/or navigation signals and/or of telecommunication-relevant and/or navigation-relevant data;

electronic downloadable analysis reports and/or measurement reports especially in form of graphics, tables and maps as a result of analysis and/or monitoring of telecommunication signals and/or navigation signals; electronic downloadable analysis reports and/or measurement reports especially in form of graphics, tables and maps as a result of analysis and/or monitoring of telecommunication data and/or navigation data;

scientific, geodetic and optical apparatus and instruments; apparatus and instruments, components and computer software for surveying, observing, measuring, signaling, checking, testing and monitoring; mobile measuring, controlling, monitoring and surveying arrangements; apparatus and instruments, components and computer software for measuring, checking,

testing and monitoring of positions and telecommunication-related and navigation-related data; antennas and components therefore; apparatus and instruments, components and computer software for examining and characterizing of two-dimensional or three-dimensional space segments; vehicle tracking devices; personnel tracking devices; electronic panic devices; electronic personal alarm devices; GPS tracking and location devices

- Cl. 38** Data transmission services, data transfer services, especially in telecommunication and navigation, for position and location data, accuracy augmentation data for position determination, telecommunication data and/or navigation data, telecommunication support data and/or navigation support data, combined telecommunication and navigation data, integrity information for position and location data in telecommunication and/or navigation especially satellite navigation; reception, collection, modification and transmission of telecommunication signals and/or navigation signals and of telecommunication-related data and/or navigation-related data and of telecommunication-related information and/or navigation-related information; preparation, modification and/or transmission of augmentation data especially for the purpose of telecommunication and/or navigation especially satellite navigation; data transmission services, data transfer services; data transmission services, data transfer services, providing of online access to data, providing of access to data and information in the Internet

- Cl. 42** Tests, analysis and/or monitoring of telecommunication signals and/or navigation signals; development, optimization and performance tests of methods, algorithms, processing and software modules for computing of telecommunication signals and/or navigation signals; tests, analysis and/or monitoring of system algorithms for generation of telecommunication-relevant data and/or navigation-relevant data; development, optimization and tests of performance of methods, algorithms, processing and software modules for generation of telecommunication-relevant data and/or navigation-relevant data; services in the field of monitoring and control; services in the field of telecommunication signals and/or navigation signals especially satellite navigation signals; services in the field of the development of algorithms and/or methods for computing of telecommunication signals and/or navigation signals; services in the field of the development of algorithms and/or methods for generation of telecommunication-relevant data and/or navigation-relevant data; services for generation of augmentation data for telecommunication and/or navigation especially satellite navigation;

services for generation and/or delivering of results especially in form of analysis reports, graphics, tables, maps; scientific and technological services and research and design especially relating to developing, engineering, investigating, consulting, optimizing, calibrating, aligning, testing, improving especially relating to antennas, aerials, radiating and reflective objects,

examining and characterizing of two-dimensional or three dimensional space segments; services in the field of measuring, characterizing, verifying, examining, scanning and sampling electromagnetic fields; services in the field of industrial analysis; services in the field of search and rescue; services in the field of monitoring and observation especially in the field of the natural environment;

scientific and technological services and research and design relating thereto in the field of data processing, analyzing of data, converting of data; provision of computer programs in data networks; creation of database programs; preparation and modification of access to data and information in Internet;

computing of telecommunication signals and/or navigation signals especially for the purpose of their transmission of application in user equipments and especially end devices; computing of telecommunication data and/or navigation data especially for the purpose of their transmission of application in user equipments and especially end devices
