Cl. 9 Electric, electronic, mechanical, acoustic, optical, haptic and cognitive measuring, control and information equipment for drivers and passengers, and for driveline, chassis and steering components/systems in motor vehicles; electric and electronic controls, shifting systems, shifting programs and shifting strategies for gears, manual transmissions, automatic transmissions, continuously variable automatic transmissions,

hydrodynamic and hydrostatic transmissions, transfer cases, axles, differentials, chassis components, torque converters, clutches, and retarders

Cl. 12 Manual transmissions, synchromesh and power shift transmissions, automatic transmissions, continuously variable automatic transmissions, dual-clutch transmissions, hydrodynamic and hydrostatic transmissions, transfer cases, axles, axle components, differentials, chassis components, torque converters, clutches, retarders, brakes, shift clutches and clutches and systems composed of them, auxiliary drives, wheel-drive assemblies,

shock absorbers and shock absorber springs, tie rods, stabilizers, stabilizer links, radius links, wheel joints, if contained in this class; wheel drive and electric drive components (all of the aforementioned goods, if contained in this class); except motorcycles and their parts

Cl. 37 Maintenance, service and repair work on systems for transportation by land, by air, or by water, on vehicles and their parts, on gears, manual transmissions, automatic transmissions, continuously variable automatic transmissions, dual clutch transmissions, hydrodynamic and hydrostatic transmissions, transfer cases, axles, axle components, differentials, chassis components, torque converters, clutches, retarders, brakes, gearshift and clutch systems, power take-offs, axle drives, shock absorbers and shock absorber springs, suspension joints, levelling systems, 4-point links, wishbones, electric, electro- hydraulic, hydraulic power steering systems and mechanical steering systems, steering pumps, steering columns, and steering accessories, on wheel drives, electric drives and their components, on electric, electronic, mechanical, acoustic, optical, haptic and cognitive measurement, control and information equipment for driveline, chassis and steering components/systems in motor vehicles, and on electric and electronic controls, shifting systems, shifting programs and shifting strategies for gears, manual transmissions, automatic transmissions, continuously variable automatic transmissions, hydrodynamic and hydrostatic transmissions, transfer cases, axles, differentials, chassis components, torque converters, clutches and retarders

Cl. 42 Design and development of computer hardware and software for vehicles and their parts, gears, manual transmissions, automatic transmissions, continuously variable automatic transmissions, hydrodynamic and hydrostatic transmissions, transfer cases, axles, differentials, chassis components, torque converters, clutches and retarders, for electric, electronic, mechanic, acoustic, optic, haptic and cognitive measurement, control and information equipment for driveline, chassis and steering components/systems in motor vehicles, and for electric and electronic controls and gear shifting systems for gears, manual transmissions, automatic transmissions, continuously variable automatic transmissions, hydrodynamic and hydrostatic transmissions, transfer cases, axles, differentials, chassis components, torque converters, clutches, and retarders

Cl. 9 Accounting computer terminals; acoustic apparatus for the recording of sound; acoustic discs for data processing; acoustic receivers for telephonic communication with computers; acoustic recording discs or supports; active electronic labels containing coded information; adaptors for connecting telephones to hearing aids; add-on cards for computers; aerials for telecommunications; airwave encoded data information receivers;

alarm management apparatus, devices, instruments or installations; amplifiers for use in cars for entertainment purposes; analogue recording apparatus, devices or instruments; apparatus adapted for identifying magnetically recorded information; apparatus controlled by computers for analysing samples; apparatus designed to monitor the performance of apparatus; apparatus device or instrument for communication;

apparatus device or instrument for data communications between computers; apparatus device or instrument for filing information; apparatus device or instrument for linking computers into networks; apparatus device or instrument for localisation for vehicles via satellite; apparatus device or instrument for managing energy supplies; apparatus device or instrument for network communication; apparatus device or instrument for receiving data;

apparatus device or instrument for recording digital information; apparatus device or instrument for recording electrical information; apparatus device or instrument for recording sound, video or visual signals; apparatus device or instrument for recording television signals on disc; apparatus device or instrument for sending data; apparatus device or instrument for simulating the performance of air land or water borne ;

apparatus device or instrument for telecommunications engineering; apparatus device or instrument for telephone communication; apparatus device or instrument for the communication of data; apparatus device or instrument for transmission via satellites; apparatus device or instrument for transmitting information; apparatus device or instrument for use in access control; apparatus device or instrument for use in communication engineering;

apparatus for automatically placing messages via telecommunications equipment; apparatus for computer aided design; apparatus for computer aided manufacture; apparatus for conducting scientific experiments in satellites; apparatus for controlling computer programmes; apparatus for controlling computer programs; apparatus for controlling the input of data; apparatus for controlling the processing of data; apparatus for controlling the storage of data; apparatus for converting digital values into graphic information; apparatus for data collection; apparatus for data memories; apparatus for data storage; apparatus for decoding magnetically recorded information; apparatus for device or instrument for handling information; apparatus for digitising geometric data contained in documents; apparatus for displaying information;

apparatus for electronic publishing; apparatus for games adapted for use with an external display screen or monitor; apparatus for gathering information; apparatus for guarding data communication systems against unauthorised access; apparatus for information processing; apparatus for information teleprocessing; apparatus for inputting information into a computer; apparatus for interconnecting data processing equipment;

apparatus for issuing reading cards bearing encoded information; apparatus for linking computers; apparatus for mounting in vehicles for displaying information for route planning; apparatus for mounting in vehicles for displaying traffic information; apparatus for mounting in vehicles for receiving traffic information; apparatus for personal use for protection against injury; apparatus for processing data; apparatus for processing information;

apparatus for producing analogue for music; apparatus for protecting computers from electrical power supply faults; apparatus for reading data; apparatus for reading information; apparatus for receiving information from a computer; apparatus for receiving satellite broadcast signals; apparatus for recording electrical information; apparatus for telephone communication; apparatus for testing the quality of food products;

apparatus for the acquisition of information; apparatus for the conversion of information; apparatus for converting digital values into graphic information; apparatus for the detection of micro-organisms in food; apparatus for the processing of digital information; apparatus for the storage of data; apparatus for the storage of information; apparatus for the storage of physical measurements; apparatus for the storage of pictorial data;

apparatus for the storage of textual data; apparatus for the transmission of data; apparatus for transmitting data via the telephone or telephone network; apparatus for transmitting messages via the telephone; apparatus for transmitting television signals via satellite; apparatus for use in audio-visual communication; apparatus for use in communications between computers; apparatus for use in desktop publishing;

apparatus for use in digital communication transmission; apparatus, device or instrument for measuring pressure; apparatus, device or instrument for measuring temperature (other than for medical purposes); apparatus, device or instrument for signalling or transmitting signals; apparatus, device or instrument that enables signalling by means of light, color, sound, pressure or other means of expression; appliances for communication;

application software; articles of protective clothing; audio electrical apparatus for in-car entertainment; audiovisual apparatus device or instrument for use in satellite broadcasting; automatic access security apparatus; automatic answering apparatus for communications apparatus; automatic telephone exchange apparatus; balance installations; balances; biosensors; blank cartridges for recording of data;

boxes adapted for storing computer software disks; broadband data interconnecting computer installations; building automation installations; building automation systems; business programmes for computers; cable connectors for use in the data communications industry; cable converters for television being telecommunications apparatus; cable management installations for data signal transmission; cable management installations for power transmission;

call barring devices for use with telecommunications apparatus; call charging apparatus for use with telecommunications apparatus; car telephones; cards bearing coded data in punched-out form; cards bearing data for use in computers; cards bearing data for use in data storage apparatus; cards carrying magnetically, optically or electronically recorded or encoded information ; cards encoded to access computer software;

cards for use with computers (encoded or magnetic); carriers adapted for computer discs; carriers for bearing data; cartridges (software) for use with computers; cartridges for computer games (software); cartridges for video games (software); cases adapted for music recordings; cellular mobile telephones; cellular radio alarm communication instruments; cellular radio telephone apparatus; cellular radio telephone instruments;

cellular telecommunications apparatus; cellular telecommunications instruments; character signal generators; charging systems for battery operated domestic kitchen appliances; chips arrays and sensors using DNA, genetic and other biological and diagnostic materials (scientific apparatus and instruments); chronographs (time recording apparatus); circuit boards for use in the emulation of computer terminals; circuit boards for use with computers;

circuits for computers; cleaning discs for computer disk drives; cleaning guns for computer keyboards; coded signalling apparatus, device or instrument; coin operated musical automata; coin-operated telephones; communication apparatus device or instrument; communication commutating apparatus; communication devices for linking computer networks; communication installations; communication routing instruments; communication software;

communications electronics for computers; communications processing computer software; communications system enabled by any form of energy transmission; communications systems; components for computers; computer aided design (cad) apparatus; computer aided design instruments for laser machining systems; computer aided design programmes; computer aided design programs; computer aided manufacturing (cam) apparatus;

computer aided teleprinter apparatus; computer and telecommunications equipment; computer apparatus; computer apparatus device or instrument for use in monitoring biochemical reactions (other than for medical use); computer apparatus for addressing ; computer apparatus for computer aided design; computer apparatus for computer aided drafting; computer apparatus for computer aided manufacturing; computer apparatus for drawing;

computer apparatus for handling information; computer apparatus for processing data; computer apparatus for recording telephone calls; computer apparatus for remote meter reading; computer apparatus for the management or transmission of telephone calls; computer apparatus for the storage of data; computer apparatus for use in local area networks; computer apparatus for use with computer networks;

computer apparatus, device or instrument for personalising; computer assisted language programmes; computer backgammon games (programmes); computer based apparatus for designing the layout of electronic circuits; computer based apparatus for designing the layout of printed circuit boards; computer based apparatus for the implementation of electronic circuits; computer based apparatus for use in the enhancement of video signals;

computer based control apparatus for machine tools; computer based development apparatus for testing electronic circuits; computer based development apparatus for the design of electronic circuits; computer based training apparatus; computer bridge games (programmes); computer cables; computer cards (magnetic or smart); computer cards containing chips; computer chess games (programmes); computer chips; computer circuits;

computer communications modems; computer components; computer control apparatus; computer control units; computer controlled apparatus for furnishing voice responses to data inputs; computer controlled apparatus for testing printed circuit boards; computer controlled apparatus for voting systems; computer controlled automatic testing apparatus; computer controlled desk top recording; computer controlled drafting machines;

computer controlled electro-mechanical apparatus for automatically dispensing products; computer controlled fuel dispensing apparatus; computer controlled fuel dispensing instruments; computer controlled mechanisms for coin operated lockers; computer controlled plotters; computer controlled printers; computer controlled sound instruments; computer controlled telecommunications exchange apparatus; computer controlled workstations for data entry;

computer controllers; computer controllers for operating lighting apparatus; computer controls; computer controls for lighting instruments; computer data input apparatus; computer data input devices; computer data interchange apparatus; computer data recording instruments; computer data storage apparatus; computer databases; computer design hardware; computer discs; computer discs containing business documentation; computer diskettes;

computer documentation in electronic form; computer driven printers; computer firmware; computer games adapted for use with an external display screen or monitor; computer games apparatus adapted for use with cathode ray tubes; computer games apparatus adapted for use with monitors; computer games cartridges adapted for use with an external display screen or monitor; computer games entertainment software;

computer games instruments adapted for use with an external display screen or monitor; computer games programmes (software); computer games programs; computer games programs (software); computer games programs downloaded via the Internet (software); computer games programs recorded on tapes (software); computer games software; computer graphic input apparatus; computer graphics apparatus; computer graphics display stations;

computer graphics instruments; computer graphics operating apparatus; computer graphics plotting instruments; computer graphics software; computer hard disc apparatus; computer housings; computer imaging systems; computer input apparatus; computer input devices; computer installations; computer installations (networks); computer installations for the communication of data; computer installations for the control of machine tools;

computer instruction records; computer interface instruments; computer interface units for translating data; computer interfaces for clinical use; computer keyboards; computer magnetic memories; computer mainframes; computer measuring devices containing data; computer memory devices; computer memory instruments; computer memory storage apparatus; computer modelling language; computer modems; computer modules; computer monitoring apparatus;

computer monitors; computer network apparatus, instrument or installation; computer network operating installations; computer networking apparatus; computer networking installations; computer networks; computer networks for the communication of data; computer networks for the processing of data; computer networks for the storage of data; computer operated controls for mechanical handling apparatus; computer operating programs;

computer output microfilm recorders; computer outputting apparatus; computer plotters; computer printers; computer program for translating; computer programmes (programs) and recorded software distributed online; computer programming units; computer programs; computer programs for analysing computer hardware; computer programs for automating molecular biological processes; computer programs for calculators; computer programs for calculators;

computer programs for computer games; computer programs for data processing; computer programs for designing control systems; computer programs for designing printed circuit boards; computer programs for designing printed circuit boards; computer programs for electronic design automation; computer programs for financial management or reporting; computer programs for image processing; computer programs for laser machining;

computer programs for management of manufacturing; computer programs for managing conferences; computer programs for managing seminars; computer programs for measuring colors; computer programs for monitoring computer systems performance; computer programs for office use; computer programs for orchestral staging; computer programs for planning conferences; computer programs for planning exhibitions; computer programs for planning seminars;

computer programs for playing games; computer programs for printing; computer programs for producing computer graphics; computer programs for project management; computer programs for promotional purposes; computer programs for providing a graphical representation of data; computer programs for sales purposes; computer programs for scientific data analysis; computer programs for studying languages;

computer programs for studying or developing languages; computer programs for testing computer hardware; computer programs for the analysis of data processing, procedures, performance or efficiency; computer programs for the control of telecommunication instruments; computer programs for the creation of masks; computer programs for the creation of networks; computer programs for the management of sales;

computer programs for the management of the manufacturing processes; computer programs for the rating of plate fin heat exchangers; computer programs for use as reporting or searching directories; computer programs for use by airlines; computer programs for use by business organisations; computer programs for use by tour operators; computer programs for use by travel organisations; computer programs for use in communications;

computer programs for use in computer aided design; computer programs for use in computer aided engineering; computer programs for use in database management; computer programs for use in defining machineable parts; computer programs for use in desk top publishing; computer programs for use in farming; computer programs for use in fitting spectacles; computer programs for use in insurance; computer programs for use in molecular biology;

computer programs for use in processing data relating to financial records; computer programs for use in telecommunications; computer programs for use with computer integrated manufacturing installations; computer programs for use with structured system analysis; computer programs for video games; computer programs in machine readable form ; computer programs in machine readable form recorded on paper tape;

computer programs in the field of communications links; computer programs in the field of design analysis; computer programs in the field of molecular modelling; computer programs recorded on cards; computer programs recorded on cards or magnetic media; computer programs recorded on data carriers; computer programs recorded on data storage materials; computer programs recorded on diskettes for producing lettering;

computer programs recorded on drums; computer programs recorded on magnetic tape; computer programs recorded on tapes; computer programs relating to computer aided design; computer programs relating to computer networks; computer programs relating to food; computer programs relating to housing management; computer programs relating to motorcycle racing; computer programs relating to the creation or manipulation of graphic images;

computer programs relating to the training of personnel; computer programs stored in digital form; computer programs stored on magnetic data carriers; computer related data communication apparatus; computer software; computer software designed to estimate costs; computer software downloaded from the Internet; computer software for accounting systems; computer software for analysing address files;

computer software for analysing market information; computer software for analysing or processing address files; computer software for authorising access to data bases; computer software for business purposes; computer software for communicating purposes between microcomputers; computer software for communication between computer processes; computer software for processing address files; computer software for processing market information;

computer software for the analysis of defects; computer software for time control; computer software for use in controlling machines; computer software products; computer software programs; computer software programs for database management; computer software programs for spreadsheet management; computer storage apparatus; computer sub-assemblies; computer swivel bases; computer swivelling arms; computer systems;

computer systems designed for project management; computer terminals; computer terminals for banking purposes; computer terminals for use with debit cards at point of sale; computer timetables; computer workstations for electronic design; computers ; computers and electronic processing units; computing apparatus for handling information; connecting devices for data transfer; connecting elements for communication networks; electrical connections;

connectors; consoles for use with computers; containers for the storage of audio cassettes; containers for the storage of floppy discs; containers for the storage of photographic transparencies; control apparatus for computers; control apparatus for the management of data communication installations; control apparatus for the management of voice or text communication installations; control programs for data terminals;

controllers for use with electronic games; controlling software for computer printers; converters being telecommunications apparatus for television signals; converters for signals; cordless telephone apparatus; cordless telephones; couplers (data processing equipment); couplers (data processing equipment); cursor control devices for use with computer display systems; data access apparatus for use in accessing stored information;

data acquisition apparatus or instrument; data acquisition instruments; data banks; data bearing discs; data being electrically recorded for computers; data being optically recorded for computers; data buffers; data bus interface units; data carriers; data carriers bearing machine readable data; data carriers equipped with controlling or governing programs; data carriers equipped with governing programs;

data carriers for computers having software recorded thereon; data carriers for use with data processing apparatus; data carriers in the form of optical discs; data carriers incorporating computer programs; data carriers incorporating computer programs written in machine code; data carriers incorporating controlling programs; data carriers recorded with programs to enable data to be displayed; data carrying instruments; data collecting machines;

data collection apparatus; data collection computer installations; data collection computer installations; data collection instruments; data communications apparatus; data communications apparatus or instrument; data communications hardware; data communications receivers; data communications software; data compact discs; data compilations; data compressors; data encryption apparatus; data exit terminals;

data feeders for use with artificial intelligence; data files; data handling installations ; data information processing units; data logging apparatus; data networks; data printer apparatus; data processing apparatus for use with computers; data processing apparatus or components; data processing apparatus producing data in type form; data processing devices; data processing information ; data processing information carriers;

data processing installations; data processing instruments; data processing programmes; data processing programmes for the production of periodicals; data processing programs stored on data carriers; data processing software for graphic representations; data processing software for word processing; data processing terminals; data processors for business data; data processors for control of material supply; data programmes;

data readers being acoustic devices for data processing apparatus; data readers being optical devices for data processing apparatus; data receivers; data recorded electronically; data recorded in electronic form; data recorded on magnetic materials; data recording materials; data retrieval apparatus ; data security instruments; data storage apparatus; data storage cartridges; data storage cassettes; data storage devices;

data storage devices for recording data; data storage devices for recording data or computer programs; data storage discs; data storage instruments; data storage media (other than paper) for recording computer programs; data switching apparatus; data terminals for the entry or communication of data to a central computer system; data terminals for the validation of data; data transfer instruments; data transmission cables;

data transmission networks or installations; data transmitters; data transmitting instruments; databases; desk top publishing apparatus or programmes; desktop publishing programmes; detectors; detectors for biotechnological fractionation or separation; device, apparatus or instrument for converting image information to digital signals for computers; devices for linking terminals on a computer apparatus;

devices for use in the networking of computers; diagnostic apparatus or instrument; diagnostic viewers for evaluating the condition of local area network installations; diagnostic viewers or viewing transceivers; diagnostic viewing transceivers for evaluating local area network apparatus; digital cassettes for electronic data processing; digital data transmission apparatus; digital music (downloadable) from the Internet; digital telecommunications apparatus; digital telecommunications instruments; digital telephone sets; digital telephone switching apparatus; digital music (downloadable) provided from MP3 websites on the Internet; digitized typefaces stored in electrical data carriers; disc drives for use with computers; discs containing programs for data processing; discs for the transmission of data; display apparatus for use with computers; display apparatus for use with data processing installations; downloadable music files; dynamic filters for use in the control panels of fire detection systems; earth satellites for use in earth observation; earth satellites for use in telecommunications; earth satellites for use in the security surveillance of national spacecraft; educational materials in the form of computer programmes for teaching languages; electrical message switching apparatus for use in communications installations; electric apparatus for data processing; electric computer games adapted for use with an external display screen or monitor; electric computer games adapted for use with visual display units; electric cords for musical amplifiers; electric cords for musical instruments; electric devices for displaying information; electric devices for transmission of data between computers; electric storage batteries; electrical amplifiers for use with musical instruments; electrical apparatus (other than generators) for use in energy supply; electrical apparatus for altering video games; electrical apparatus for converting signals into visual information; electrical apparatus for converting video games; electrical apparatus for data acquisition; electrical apparatus for fitting to vehicles to display visual information; electrical apparatus for recording data; electrical apparatus for the use in the calculation of data ; electrical apparatus for use in testing video games; electrical apparatus for use in the calculation of data; electrical apparatus for use in the production of color images; electrical communication apparatus for transmitting data; electrical communications apparatus for use with interconnecting computers; electrical communications cables; electrical communications installations; electrical connections ; electrical connectors for connecting laptop computers to telephone lines; electrical data input apparatus for use with computers; electrical data input devices or apparatus; electrical data output apparatus for computers; electrical devices for communication by facsimile;

electrical devices for data, information, graphics or animated display; electrical devices for information display; electrical devices for storage of data; electrical devices for the switching of data; electrical devices for transmission of data; electrical door entry apparatus in combination with a telephone; electrical instruments for telecommunications purposes; electrically punched (encoded) tapes for use with computers;

electrically recorded data for computers; electro-acoustic apparatus or instrument for the production of sound recordings; electro-acoustic instruments for the production of sound recordings; electrodynamic apparatus for the remote control of storage operations; electromagnetic apparatus for providing communication links; electromagnetic apparatus for the communication of information; electromagnetic materials for bearing information;

electromechanical signs for public information; electronic apparatus for information delivery; electronic apparatus for information exchange; electronic apparatus for manipulating data; electronic apparatus for measuring environmental conditions ; electronic apparatus for surveying; electronic apparatus for the transmission of data or information; electronic apparatus for transmitting information; electronic cards containing information;

electronic circuits for data processing apparatus; electronic components for the storage of computer programs; electronic data carriers; electronic data carriers with computer programs (machine script); electronic data output apparatus for use with computers; electronic data processing apparatus for the storage of computer programs; electronic data processing machines for use in photographic finishing laboratories;

electronic design analysis apparatus ; electronic devices for indicating the interaction of fields; electronic devices for information processing; electronic devices for the transmission of data between computers; electronic digital building automation systems; electronic files for the storage and retrieval of data on microfilm or optical discs; electronic games (adapted for use with an external display screen or monitor);

electronic games adapted for use with independent visual display facilities only; electronic gaming information apparatus (adapted for use with an external display screen or monitor); electronic image recording apparatus; electronic information storage materials; electronic instruments for recording information; electronic materials being computer programs; electronic memories comprising computer programmes;

electronic memories comprising computer programs; electronic memories for computers; electronic memories for the control of computer data; electronic memories for the input of computer data; electronic memories for the output of computer data; electronic memories for the storage of computer data; electronic memories incorporating computer programs; electronic memory units for bearing computer programmes; electronic memory units for computers;

electronic musical recording apparatus device or instrument; electronic networking apparatus for telephone systems; electronic print out apparatus for use with computers; electronic printers for use with computers; electronic printing apparatus for use with computers; electronic publications including those sold and distributed online; electronic scoring instruments for recording the score in games;

electronic signal processing apparatus device or instrument for musical instruments; electronic telephone data communications apparatus; electronic television satellite apparatus device or instrument; electronic temperature monitor or recorder (other than for medical use); electronic visual display apparatus for use with computers; electronic weighing scales for personal use;

electronically controlled personalised installations for buildings or personalised installations for buildings enabled via any form of energy; electronically encoded identity bracelets or wristbands or other devices ; encoded cards for use in point of sale transactions; encoded cards for use in relation to the electronic transfer of funds; encoded data; encoded data for use in translation; encoded data in the form of computer listings;

encoded programmes for computers; encoded programmes for data processing apparatus; encoded programs for data processing apparatus; energy regulators; engineering design software; expert systems diagnosis apparatus; external storage apparatus for use with data processing apparatus; fibre optic connectors for telecommunications apparatus; fibre optics communications apparatus for use with computer workstations;

fibre optics communications apparatus for use with electronic instruments; fibre optics communications installations for use with computers; fibre optics communications installations for use with electronic apparatus; filter screens for computer screens; fixed radio instruments for data transceivers; flat screens for electronic data processing apparatus; food analysis apparatus; fresnel lenses to increase the zone of vision;

galena crystals (detectors); game programmes (programs) and software for use with electronic games of all kinds; games adapted for use with an external display screen or monitor; games software for use with an external display screen or monitor gamma cameras; games software for use with computers; gauges for measuring the liquid content of storage tanks; glass for protection against high energy radiation; global positioning apparatus;

global positioning instruments; ground based apparatus for controlling satellites; hand held computer games (for use with television receivers only); hand held electronic games (for use with television receivers only); hard discs for electronic data processing; headgear adapted for use in the reception of auditory stimuli; heat sequence apparatus for biochemical reactions; high capacity broadband telecommunications switching apparatus;

high speed data transmission apparatus device or instrument; holders adapted for the storage of audio cassettes; home computers; housings for computers; identity cards; illuminated electronic moving information displays; image data capture devices; image data translation apparatus; image making devices for simulators; image recording instruments; indication apparatus for displaying information; indication apparatus for transmitting information; industrial computer software programs; information carriers (electric, electronic, encoded, magnetic or in the form of discs); information display apparatus (luminous); information distribution programs; information storage apparatus (electric or electronic); information storage devices (encoded or magnetic); information storage discs (encoded magnetic or optical); information storage instruments (electric, electronic, encoded or magnetic);

information storage tapes (magnetic); informational programs; in-house communication apparatus; ink-jet printers for use with computers; input apparatus for data processors; input apparatus for transferring data to or from computers; input apparatus for use with computers for handling data; input apparatus for use with data transmission apparatus; input devices for computers; installations (electric or electronic) for use in access control;

installations for data processing; installations for receiving information; installations for the electronic processing of data; installations for the remote loading or unloading of computer software; installations for the storage of data; installations for use in forming computer networks; instruction materials (apparatus) and programmes; instruction programmes for the input or output of data; instruction programmes for the storage of text;

instruction programmes for use with computers; instructional apparatus; instrument, apparatus or device for use in biochemical purification (other than for medical use); instrumentation simulators; instruments for electronic data processing; instruments for the recording of data; insulated telecommunications cables; integrated circuit cards storing computer games programs; integrated services digital network components;

interactive computer software; interactive computers for use in certifying airport security personnel; interactive computers for use in training; interactive educational games for use with television receivers; interactive entertainment software for use with computers; interactive video software; intercom key apparatus for connection to telephone networks; intercommunication satellites; interface boards for computers;

interface instruments for computer control of knitting machines; interfaces (for computers); interpretation apparatus, device or instrument relating to image, voice, light, sound, color, data, pressure or other means of expression; joysticks for use with computers; keyboard apparatus for use with computers; keyboards for use with data communication apparatus;

kits comprising recorded materials including discs, software, tapes and other recordings and manuals sold together as a unit; language libraries; language translating apparatus; laptop computers; local mobile telephone systems; luminous signals; luminous signals for giving information ; machine readable data carriers incorporating programs; machine readable information carriers for recording data;

machine readable material for bearing computer programmes; machines for dispensing (vending) foods; machines for the processing of information; machines for the use in the analysis of environmental contaminants (other than medical); magnetic cards bearing computer programs; magnetic cards being computer software; magnetic cards for the recording of data; magnetic cards for the storage of computer programs; magnetic cards for use with computers;

magnetic carriers for the storage of computer programs; magnetic computer tapes for recording data; magnetic data carriers in the form of cassettes; magnetic data carriers recorded with programmes for instruction; magnetic data carrying tapes; magnetic data cartridges; magnetic data recording apparatus; magnetic data storage materials; magnetic discs being information storage devices; magnetic discs for bearing recorded data;

magnetic discs for data storage purposes; magnetic discs for storing computer programmes; magnetic discs for the electronic recording of data; magnetic disk recording apparatus; magnetic disks for data input; magnetic disks for the storage of data; magnetic materials bearing data for video games; magnetic platforms for software; magnetic recording materials apparatus or medium; magnetic recording materials bearing computer programmes;

magnetic recording mediums; magnetic recording tapes; magnetic recordings of computer programmes; magnetic storage materials incorporating software or programmes; magnetic tapes being data carriers; magnetic tapes for memorising software programs; magnetic tapes for recording visual images; magnetically encoded cards for carrying data; magnetically recorded data for computers; mass storage apparatus (electric);

materials bearing computer programs in magnetic (encoded) form; materials bearing data in encoded form for use with computers; materials bearing data or computer programs in encoded form; materials bearing information in magnetic form for use with computers; materials for carrying computer data in magnetic or optical form; mats for use with a computer mouse; mechanical storage apparatus for vision;

memories and memory extensions for use with electronic games of all kinds; memory apparatus for telecommunications network management; memory controllers for use with computers; microchips for recording data; microwave antenna for the reception of satellite data; microwave apparatus for communication; miniature hard disk drive storage units; mobile communication terminals; mobile data apparatus; mobile data communications apparatus;

mobile telecommunications apparatus; mobile workstations (computer; modems for communications networks; modular sub-assemblies for use in data processing; monitors (computer programs); monitors for recording events; mosaic type heads for impact printing machines for use with computers; multi-channel communications boards for microchips; multifunctional telephones; multiplexers for bearing data; multiprocessor computer apparatus; music recordings;

music reproducing apparatus (other than musical instruments); musical recordings in the form of wires; navigation apparatus for vehicles (on-board computers); navigation computers for cars; navigation systems using satellite reference; network anti-interference filters; network applications being computer programs; network connector for radio networks; network controlling apparatus; network junction points for telephone exchange networks;

network management apparatus; network management computer software; network management control apparatus; networks for the interconnection of communication systems; non-impact printers for use with computers; non-impact printers for use with data processing apparatus; notebook computers; office machines (data processing); on-board computers for vehicles; operating computer software for main frame computers; operating systems (robotic);

operations recording apparatus; operator controlled electrical data-interface apparatus; optic discs; optical apparatus for the processing of data; optical apparatus for the recording of data; optical apparatus for the transmission of data; optical character readers for data entry; optical communication systems; optical communications apparatus ; optical communications instruments; optical data carriers;

optical data carriers in the form of discs (disks); optical data recording apparatus; optical data storage drives; optical data storage labels (bar codes); optical data transmission systems; optical discs bearing machine readable computer program; optical discs for bearing machine readable computer program; optical discs for the storage of data; optical energy transfer apparatus device or instrument;

optical fibres for use in the storage of images; optical information reading apparatus; optical laser disc storage materials; optical materials for storing data; optical networks; optical storage apparatus; optically or electronically recorded or encoded information; packaged software; paging interface apparatus for use with computers; panels for reading information provided by micro-processing apparatus; paper bearing data in printed form;

paper being magnetic discs for recording computer programs; paper feed apparatus for use with computer printers; paper feeding apparatus for use with computer printers; paper handling devices (parts of computer printers); paper storage cassettes for audio recordings; paper storage cassettes for sound recordings; paper strips bearing punched (encoded) computer programs; paper tapes and cards bearing punched (encoded) computer programs;

paper tapes for recording data; performance testing apparatus (other than medical use); peripheral control devices for computers; personal communications apparatus, device or instrument ; personal computer application software; personal computer cards (punched or encoded); personal computer enhancement circuitry; personal computer workstations; personal computers; personal computers for use with coin operated video game devices;

personal computers for use with video game devices; personal computers incorporating computer software; personal home computers; personal identification lights; personal reflectors ; personal stereo speaker apparatus; personal stereos ; personal voice amplifying instrument; photographic storage devices; photographic storage devices bearing representations of typefaces in encoded form; pick-ups for electrical musical instruments;

plastic cards containing machine-readable information ; plastic insulated cables (electric) for computers ; plates adapted for holographic recordings; plotters for computers; plotters for use in data processing installations; plug-in cards bearing computer programmes; plug-in cartridges bearing computer programmes; plug-in electronic cards for computers; pneumatic apparatus for recording data; pocket telephones; point of sale apparatus;

pointing devices for use with computers; portable apparatus for receiving satellite transmissions; portable communication terminals for use in connection with satellites; portable computers; portable radio communications receivers; portable telephones; pre-recorded data carriers for use with computers; print out apparatus for use with data processing apparatus; printed circuit boards for mounting in computers;

printed circuit boards for remote data transmission; printer spooler software; printers for data processing apparatus; printers or print out apparatus for data processing apparatus; printing apparatus for use with data processing apparatus; printing machines for use with computers; printout apparatus for data processing apparatus; private automatic branch exchange for data; private telephone exchange apparatus; process control tuning modules;

processing computers; processing programmes recorded on data carriers; processing programs recorded on data carriers; program carrying magnetic discs for use with electronic data processing apparatus; program cartridges for computer games; program for setting up performance analysis in computers; programmable computers; programmed video games (software); programming instructions for data processing apparatus (recorded);

programs bearing encoded information; programs for computer generated music; programs for computer print out apparatus; programs for computers; programs for data processing apparatus (recorded); programs for data processing apparatus recorded on cards or tapes; programs for processing data on computers; programs for recording data ; programs for recording data in reproduction technology; programs for the design of control information systems;

programs for use in communications; programs for use with computer games; programs for use with data processors; programs for word-processing; programs in the form of printed matter for computers; programs recorded on card data carriers; programs recorded on optical data carriers; protection devices for personal use; public access information data terminals; public address speaker systems;

pulse code modulation apparatus or instrument for transmission via satellite radio or microwave; pulse code modulation multiplexing instruments; pulse generators for electronic revolution counters; punched disks containing data in encoded form; punched paper containing data in encoded form; punched paper tapes containing data in encoded form; punched tapes for use with computers; racks and mountings specifically adapted for use with audio;

radio transmitters for use in telephones; radios with electronic data decoders; receiving devices for connection to communications networks; reconditioned computer parts; record carriers for computer programmes (magnetic); record carriers for computer programmes (optical); recorded computer programs; recorded computer programs for scientific research; recorded computer programs in the form of cards;

recorded computer programs in the form of punched cards; recorded computer programs in the form of tapes; recorded computer programs in the form of wires; recorded data files; recorded material for use by computers; recorded software and programmes for use with electronic games of all kinds; recording discs; recording discs in digital form; recording discs of paper (blank); recording material bearing computer programmes;

recording materials for sound reproduction; recording materials for the storage of digital computer programs; recording materials of card for the storage of data (encoded); recording materials of paper for the storage of data (encoded); recording media for video signals; recording substrates (optical); records bearing data; records bearing entertainment material; remote access online electronic information apparatus;

remote control apparatus connected by modems to computers; remote control systems; remote data processing apparatus; remote management apparatus for payphones; repeaters for use in data networking; ring nodes for computers; sampling network analysers (scientific apparatus); satellite apparatus; satellite communication apparatus; satellite communications equipment; satellite communications terminals; satellite dishes (antennae);

satellite earth stations; satellite imagery software; satellite receiving aerials; satellite receiving apparatus; satellite television transmission uplink scrambling apparatus; satellite transmitting apparatus; satellites for communication purposes; satellites for scientific purposes; satellites for signal transmission; scanners (data processing equipment); scientific apparatus; scientific apparatus for testing or the receiving of data;

scientific apparatus for the receiving of data; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving, and teaching apparatus and instruments; screens for use with computers; self adhesive labels bearing data in bar code form; semiconductor apparatus for use with computers; semiconductor memory cartridges being computer programmes; sensors;

sensors for real time data input apparatus; sensors for trace analysis in the food industry; simulation software; simulators; simulators incorporating digital computers for industrial training purposes; skin temperature indicators (other than for medical use); solar energy operating apparatus device or instrument; solid-state electrical apparatus for storing computer data; solid-state electrical apparatus for storing computer programmes;

sound record storage apparatus; sound recordings; sound recordings in the form of discs (disks); sound recordings in the form of tapes; sound tracks (recordings); sources of optical beams for communications; speakers for computers; spectrocoulometers, other than for medical diagnostic use; spectrum analysers (other than for medical use); speech communications apparatus for use in noisy environments;

stereo headphones for personal entertainment use; still movie-recording apparatus; storage apparatus for computer data; storage batteries for lighting; storage cards (electric); storage cells (electric); storage containers adapted for video cassettes; storage devices; storage discs for use with computers; storage materials for data in magnetic form; storage racks; storage racks for compact discs (CDs); storage racks for computer discs;

storage racks for computer disks; storage racks for discs; storage racks for discs (sound recordings); storage racks for DVDs; storage racks for magnetic tapes; storage racks for video cassettes; surveying poles; switchboards for telephone exchanges; synchronous data units; synchronous data units or synchronous data communications apparatus; table top electronic games (adapted for use with an external display screen or monitor);

tablets for computers; tags carrying data or information; tape back-up (data storing) apparatus; tape drive apparatus for data processors; tape drives for use with computers; tape recordings of music; tape recordings relating to fictional characters; tape units for backing up computer data storage systems; tapes encoded with computer readable data; tapes encoded with machine readable data; target surveillance apparatus (satellite);

target trackers (satellite); telecommunications alarm apparatus; telecommunications apparatus; telecommunications apparatus device or instrument; telecommunications apparatus for interfacing purposes; telecommunications apparatus for measuring purposes; telecommunications apparatus for transferring data to computers; telecommunications apparatus for transmitting data for use with computers;

telecommunications apparatus for use on analogue signals; telecommunications apparatus for use with digital signals; telecommunications circuit board units; telecommunications devices; telecommunications digital exchange apparatus; telecommunications ground station apparatus; telecommunications instruments; telecommunications instruments for use in cellular radio networks; telecommunications multiplexers;

telecommunications network management installations; telecommunications networks; telephone aerials; telephone apparatus adapted for use on credit; telephone apparatus for communication by sound; telephone apparatus for communication by vision; telephone apparatus for the recording of sound; telephone apparatus for the reproduction of sound; telephone apparatus for the transmission of sound;

telephone apparatus for use by persons with hearing difficulties; telephone apparatus for use by the handicapped; telephone apparatus with prepayment by coin; telephone appliances; telephone books in electronic form; telephone cables; telephone cables of optical fibres; telephone call cost calculators; telephone call management apparatus, device instrument or system; telephone call management systems; telephone circuits;

telephone communications apparatus; telephone concentrators; telephone cords; telephone directories in electronic form; telephone directory databases; telephone distribution frames; telephone equipment; telephone handsets; telephone index notebooks; telephone index notebooks (electronic); telephone installations; telephone intercom apparatus; telephone keyboards; telephone machines with pre-recorded messages; telephone management installations;

telephone measuring apparatus; telephone outlets; telephone registers (electronic); telephone ring tones (downloadable); telephone security instruments; telephone switching apparatus; telephone transmitters; telephone wire connection boxes; telephones; telephones incorporating answering machines; telephones incorporating intercommunication systems; telephones incorporating radios; telephonic installations;

telephonic installations for business use; television apparatus incorporating sound reproducing apparatus; television games; television receivers for use with computers; television standards converters; temperature display units; temperature logging apparatus device or instrument; temperature or heat sensor; temperature sensing apparatus, device or instrument; terminals for remote data processing;

testing apparatus for sale in kit form (other than medical); textual information published on optical materials; thermal energy measuring apparatus; thermal energy measuring apparatus device or instrument; thermal imaging apparatus for night vision; thermal storage apparatus for electricity generation; thermo couples for converting temperature into digital signals; three dimensional viewers; time data generators;

touch pads (electric or electronic); touch sensitive control panels; touch sensitive electronic screens; toy telephones (functioning) track balls or tracker balls (computer apparatus); trackers (computer apparatus); training guides in electronic format; training guides or manuals in electronic format; training manuals in electronic format; training materials (apparatus); translation apparatus, device or instrument; translation computers ;

transmitter simulators; transmitters for use with computers; transmitting apparatus for satellite broadcast; travel guides in the form of audio recordings; typeface data recorded on electronically readable data carriers; underwater communications devices; units adapted for the storage of computer disks; units for backing up computer data storage systems; units for displaying information received in machine readable format;

updating of memory banks of computer systems; value cards for accreditation ; value cards for accreditation purposes; vibration sensors; video communications apparatus; video communications apparatus device or instrument; video communications instruments; video data converting apparatus; video door telephone installations; video game computer programs for use with game apparatus not requiring a separate means of display;

video game programs for use with computers; video games on disc (computer software); video games programs (computer software); video games programs (software); video games programs for coin-operated apparatus; video local area network controllers; video recording materials; video recordings; videotext computer terminals incorporating alphanumeric keyboards; view data terminals; viewers; visual display apparatus for reading data;

visual display apparatus for recording data; visual display apparatus for use in training personnel; visual display apparatus for use in training personnel; visual display apparatus for use with computers; visual display apparatus, device or instrument for use with database or indexing system ; voice actuated computer apparatus; voice actuated computer apparatus or instrument; voice amplifiers for detecting telephone rings;

voice apparatus for analogue network apparatus; voice apparatus for digital network apparatus; voice facsimile communication apparatus; voice mail systems; voice signalling apparatus for use with line telephone systems; wall plates for electrical connections; wallet pouches for the storage of magnetic discs (specifically adapted); waterproof safety clothing for the prevention of injury; waveguides (telecommunications components);

weather information instruments; wheel balancing apparatus utilising computers; wire free data transmission; apparatus; wired communications apparatus device or instrument; wireless pulse transmitters; wireless telephones; wires for communication; work stations (computer apparatus); wrist rests for use with computers; communication system or network enabled by any form of energy transmission; devices for use in the networking of computers;

point of sale communication devices; communication system or network apparatus, equipment or devices enabled by any form of energy transmission; on-line internet customer service and distribution system hardware and software; telephony for voting or entertainment purposes

- Cl. 38** Advisory services relating to communications ; broadcast of information by means of television ; broadcasting or transmission of recorded messages and/or information ; broadcasting services ; car telephone communications services ; cellular communications services ; cellular telephone communication ; communication between computers ; communication by computer ; communication network consultancy ; communication of data by means of telecommunications ; communication of information by computer ; communication of information by electronic means ; communication of information by satellite ; communication of information by television ; communication services between computers ; communication services by electronic means ; communication services for the transmission of information ; communication services for the transmission of information by electronic means ; communication services for video conferencing purposes ; communication services including transmission of voice, audio, visual images, data and other sensory means of expression by telecommunications or other means of communication or network including wireless communication networks or systems ; communication services over computer networks ;

communications by closed circuit audio or video systems ; communications by fiber (fibre) optic networks ; communications by fiber optic networks ; communications by telephone ; communications including telecommunications ; communications service enabled by any form of energy transmission ; communications services for accessing a database ; communications services for accessing a database ; communications services for telegrams ;

communications services for the exchange of data in electronic form ; communications services over computer networks ; computer bulletin boards ; computer communications for the transmission of information ; computer intercommunication ; computerised data communications ; consultancy services in relation to communications ; consultancy services relating to data communications ; data broadcasting services ; data communication services ;

data transfer electronic communication services ; ; data transmission ; delivery of digital, music, audio, video or visual data by telecommunications ; digital network telecommunications services ; electronic communications consultancy ; electronic communications services for the transmission of data ; electronic data exchange services ; electronic data exchange services ; electronic file transfer ;

electronic funds transfer communication services ; electronic instructions transmission services ; electronic network communications ; electronic transmission of data ; fibre optic telecommunications services ; hire of telecommunications instruments ; information about telecommunication ; information services relating to broadcasting providing information including online about telecommunications ;

information services relating to electronic communication networks ; interactive services for facilitating the recording of television programmes ; interactive services for facilitating the recording of television programs ; interactive telecommunications using the world wide web, Internet and email ; Internet cafe services being the provision of telecommunications access to the Internet ; maritime radio-telephone network services ;

mobile telephone communication services ; music broadcasting ; operating of electronic communications networks ; operation of cellular communications systems ; operation of chat rooms ; operation of telecommunications apparatus ; operation of television cable networks ; operation of wide-band telecommunications networks ; planning relating to communications ; preparation of reports relating to communications ;

providing access time to websites (ISPs) ; providing access to computer networks ; providing access to databases ; providing access to online computer databases ; providing email and instant messaging services ; providing information including online about telecommunications and communications ; providing information, including online, about telecommunications ; providing of access to telecommunication warehousing services ;

providing online chat rooms and electronic bulletin boards for transmission of messages among users in various fields of interest which may also contain interactive polls about entertainment and a wide range of other topics ; providing telecommunications connections to a global computer network ; providing user access to a global computer network and online sites containing information on a wide range of topics ;

providing user access to an internal, local or global computer network and online sites containing information on a wide range of topics ; providing user access to global positioning signals for navigation purposes ; providing user access to search engines ; provision of access to electronic messaging systems ; provision of access to television via decoding apparatus ; provision of communications between computers ;

provision of communications information ; provision of information relating to communications ; provision of user access to the Internet ; provision of voice communication services over the Internet ; radio frequency communications services ; radio information services ; radio telecommunications ; radio-phonetic communications ; radio-phonetic communications services ; remote transmission of data by means of telecommunications ;

rental of access time to global computer networks ; rental of broadcasting time by satellite ; rental of communications apparatus ; rental of communications apparatus or equipment ; rental of communications equipment ; rental of communications systems ; rental of data communication apparatus or equipment ; rental of data communications equipment ; rental of telephone circuits ; rental of telephone services ; satellite communications services ;

satellite telecommunications services ; satellite transmission ; satellite video conferencing services ; sound transmission via satellite ; streaming audio, visual or other material on the Internet ; telecommunications advisory services ; telecommunications routing and junction services ; telecommunications security (providing secure connections and access including to computers and the global computer network) ;

telecommunications services by satellite ; telecommunications services for the distribution of data ; telegraph telecommunications services ; telegraphic communication services ; telephone communication services ; teleprinter communication services ; telex message communication services ; text and numeric wireless digital messaging services ; transmission of computerised data ; transmission of data by computer ; transmission of data by radio ;

transmission of information by computer; transmission of information by telephone; transmission of information on a wide range of topics, including online and over a global computer network ; transmission of messages by telephone ; transmission of pictures by satellite ; transmission of sound by satellite ; video conference services (telecommunications services) ; video on demand transmission services ;

web portal services (providing user access to a global computer network) ; web-casting (broadcasting over a global computer network) ; wireless communication services ; wireless telephone services; communication services relating to a communication system or network enabled by any form of energy transmission and communications services related to on-line internet customer service and distribution systems

Cl. 42 Accreditation for quality or standards; advisory services relating to design; advisory services relating to building design; advisory services relating to computer hardware; advisory services relating to computer systems design; advisory services relating to environmental pollution; advisory services relating to environmental protection; advisory services relating to industrial design; advisory services relating to interior design ;

advisory services relating to the planning of premises; advisory services relating to the preparation of standards; architectural project management; building design services; certification of quality or standards; clothing and fashion designing; clothing design services; commercial and graphic art designing; commercial design services; commercial interior design; compilation of data-processing programs; computer database consultancy services;

computer engineering; computer network services; computer program advisory services; computer program advisory services; computer program updating services; computer research services; computer security services (design and development of secure computer hardware, software and systems); computer software advisory services; computer software consultancy; computer software design; computer software development; computer software engineering;

computer software engineering; computer software engineering; computer software programming services; computer support services (computer hardware, software and peripherals advisory and information services); computer system design; computer time-sharing; consultancy in relation to occupational health and safety; consultancy in the field of computer hardware; creating and designing web pages for others;

data conversion of computer programs and data (not physical conversion); data encryption services; data security services (firewalls); database design; design and development of computer software (for others); design and development of search engines; design consultancy; design of brand names; design of building interiors; design of business premises; design of child care facilities; design of clothing; design of communication systems;

design of communications apparatus; design of communications systems; design of computer codes; design of computer databases; design of computer languages; design of computer programs; design of computer software; design of consumer products; design of corporate identity; design of fashion accessories; design of games; design of information systems; design of instruments; design of office space; design of products; design of protective clothing;

design of road networks; design of scale models and dioramas; design of storage systems; design of telecommunications apparatus; design of telecommunications installations; design planning; design services; design services including design services in relation to languages ; designing and planning of real estate subdivisions and developments; development of computer based networks; development of computer codes; development of computer software;

development of computer software application solutions; development of computer systems; development of software; development of systems for the processing of data; development of systems for the storage of data; development of systems for the transmission of data; development, maintenance and updating of a telecommunication network search engine; diagnosis of faults in computer software;

disaster recovery services for data communications systems; duplication of computer programs; energy auditing; energy use and conservation consultancy; engineering services relating to computer programming; environment design services; environmental conservation; environmental hazard assessment; environmental surveys; hosting computer sites (web sites); hosting of databases; information services relating to mathematics;

information services relating to standards; information technology (it) services (computer hardware, software and peripherals design and technical consultancy); installation of computer software; interior design services; maintenance of computer programs; maintenance of computer records; maintenance of computer software; management of scientific research projects; occupational health and safety services (ergonomics and design services);

online provision of web-based applications; online provision of web-based software; packaging design; pattern design; preparation of reports relating to architecture; preparation of reports relating to computer programs; product design; project management (design); project management (technical support); providing information including online about design and development of computer hardware and software;

providing information including online about scientific and technological services and research and design relating thereto; providing information, including online, about design and development of computer hardware and software; providing information, including online, about industrial analysis and research services; providing information, including online, about scientific and technological services and research and design relating thereto;

provision of information on food safety; provision of information relating to computer programming; provision of information relating to computers; provision of meteorological information; provision of online calculators; quality assurance consultancy; quality audits; real estate planning; recording data relating to energy consumption in buildings; recording of seismic data; recovery of computer data; rental of computer equipment;

rental of computer equipment; rental of computer programs; rental of computer software; rental of computer software; rental of computers; rental of data carriers; rental of data processing systems; rental of design equipment; rental of games software; repair of computer software; research in the field of environmental protection; research relating to computers; research relating to data processing; retail design services; retail design services;

scanning (conversion of data or documents from physical to electronic media); scientific computer programming services; social science consultancy services; software and peripherals design and technical consultancy; structural engineering services (design); technological planning services; testing of computer installations; testing of computer programs; testing of computers; town planning; town planning consultancy services;

translation of programs; updating of computer programs; updating of computer software; updating of memory banks of computer systems; upgrading of computer software; urban design; urban planning; visual design; weather information services; weather information services; web portal services (designing or hosting); web site design; writing of computer programs; writing of computer software; development of languages, standards and brands;

design services relating to a communication system or network enabled by any form of energy transmission and on-line Internet customer service and distribution system

Cl. 9 Access interfaces for managed private circuit networks; accounting computer terminals; acoustic apparatus for the recording of sound; acoustic discs for data processing; active electronic labels containing coded information; adaptors for connecting telephones to hearing aids; aerials for telecommunications; airwave encoded data information receivers; airwave encoded data information receivers; amplifiers for use in cars for entertainment purposes; apparatus adapted for identifying magnetically recorded information; apparatus controlled by computers for analysing samples; apparatus for automatically placing messages via telecommunications equipment; apparatus for communication; apparatus for computer aided design; apparatus for controlling computer programs; apparatus for controlling the input of data;

apparatus for controlling the processing of data; apparatus for controlling the storage of data; apparatus for converting digital values into graphic information; apparatus for converting digital values into graphic information; apparatus for data collection; apparatus for data communications between computers; apparatus for data memories; apparatus for data storage; apparatus for decoding magnetically recorded information;

apparatus for decoding magnetically recorded information; apparatus for digitising geometric data contained in documents; apparatus for displaying information; apparatus for filing information; apparatus for filing information; apparatus for games adapted for use with an external display screen or monitor; apparatus for gathering information; apparatus for guarding data communication systems against unauthorised access;

apparatus for handling information; apparatus for information processing; apparatus for information teleprocessing; apparatus for inputting information into a computer; apparatus for interconnecting data processing equipment; apparatus for linking computers into networks; apparatus for mounting in vehicles for displaying information for route planning; apparatus for mounting in vehicles for displaying traffic information;

apparatus for network communication; apparatus for processing data; apparatus for processing data; apparatus for processing information; apparatus for reading data; apparatus for reading data; apparatus for reading information; apparatus for receiving data; apparatus for receiving information from a computer; apparatus for recording digital information; apparatus for recording digital information; apparatus for recording electrical information;

apparatus for sending data; apparatus for telecommunications engineering; apparatus for telephone communication; apparatus for telephone communication; apparatus for the acquisition of information; apparatus for the communication of data; apparatus for the processing of digital information; apparatus for the storage of data; apparatus for the storage of information; apparatus for the storage of physical measurements;

apparatus for the storage of pictorial data; apparatus for the storage of textual data; apparatus for the transmission of data; apparatus for transmitting data via the telephone; apparatus for transmitting information; apparatus for transmitting messages via the telephone; apparatus for use in access control; apparatus for use in audio-visual communication; apparatus for use in communications between computers;

apparatus for use in digital communication transmission; appliances for communication; audio electrical apparatus for in-car entertainment; audiovisual apparatus for use in satellite broadcasting; automatic access security apparatus; automatic answering apparatus for communications apparatus; automatic telephone exchange apparatus; blank cartridges for recording of data; building automation installations; building automation systems;

business programmes for computers; cable connectors for use in the data communications industry; cable converters for television being telecommunications apparatus; cable management installations for power transmission; call barring devices for use with telecommunications apparatus; call charging apparatus for use with telecommunications; apparatus; cards bearing coded data in punched-out form; cards bearing data for use in computers;

cards carrying magnetically, optically or electronically recorded or encoded information; cards encoded to access computer software; carriers adapted for computer discs; carriers for bearing data; cartridges (software) for use with computers; cartridges for computer games (software); cartridges for video games (software); cellular mobile telephones; cellular radio alarm communication instruments; cellular radio telephone apparatus;

cellular radio telephone instruments; cellular telecommunications apparatus; cellular telecommunications instruments; circuit boards for use in the emulation of computer terminals; circuit boards for use with computers; cleaning discs for computer disk drives; cleaning guns for computer keyboards; coin-operated telephones; communication commutating apparatus; communication devices for linking computer networks; communication routing instruments;

communication software; communications electronics for computers; communications processing computer software; communications systems; computer aided design (CAD) apparatus; computer aided design instruments for laser machining systems; computer aided design programs; computer aided manufacturing (CAM) apparatus; computer aided teleprinter apparatus; computer and telecommunications equipment; computer apparatus; computer apparatus for addressing;

computer apparatus for computer aided design; computer apparatus for computer aided drafting; computer apparatus for computer aided manufacturing; computer apparatus for drawing; computer apparatus for handling information; computer apparatus for personalising; computer apparatus for processing data; computer apparatus for recording telephone calls; computer apparatus for the storage of data;

computer apparatus for the transmission of telephone calls; computer apparatus for use in local area networks; computer apparatus for use with computer networks; computer assisted language programmes; computer backgammon games (programmes); computer based apparatus for designing the layout of electronic circuits; computer based apparatus for the implementation of electronic circuits;

computer based apparatus for use in the enhancement of video signals; computer based control apparatus for machine tools; computer based development apparatus for testing electronic circuits; computer bridge games (programmes); computer cables; computer cards (magnetic); computer cards containing chips; computer chess games (programmes); computer chips; computer circuits; computer communications modems; computer control apparatus;

computer control units; computer controlled apparatus for furnishing voice responses to data inputs; computer controlled apparatus for furnishing voice responses to data inputs; computer controlled apparatus for furnishing voice responses to data inputs; computer controlled apparatus for testing printed circuit boards; computer controlled apparatus for voting systems; computer controlled automatic testing apparatus;

computer controlled desk top recording; computer controlled drafting machines; computer controlled electro-mechanical apparatus for automatically dispensing products; computer controlled fuel dispensing apparatus; computer controlled fuel dispensing instruments; computer controlled mechanisms for coin operated lockers; computer controlled printers; computer controlled sound instruments; computer controlled telecommunications exchange apparatus;

computer controlled workstations for data entry; computer controllers for operating lighting apparatus; computer controls; computer controls for lighting instruments; computer data input apparatus; computer data input devices; computer data interchange apparatus; computer data recording instruments; computer databases; computer design hardware; computer discs; computer discs containing business documentation; computer diskettes;

computer documentation in electronic form; computer firmware; computer games adapted for use with an external display screen or monitor; computer games apparatus adapted for use with an external display screen or monitor; computer games apparatus adapted for use with cathode ray tubes; computer games apparatus adapted for use with monitors; computer games cartridges adapted for use with an external display screen or monitor;

computer games entertainment software; computer games instruments adapted for use with an external display screen or monitor; computer games programmes (software); computer games programs; computer games programs (software); computer games programs downloaded via the Internet (software); computer games programs recorded on tapes (software); computer games software; computer graphic input apparatus; computer graphics apparatus;

computer graphics display stations; computer graphics instruments; computer graphics operating apparatus; computer graphics plotting instruments; computer graphics software; computer hard disc apparatus; computer housings; computer imaging systems; computer input apparatus; computer input devices; computer installations; computer installations (networks); computer installations for the control of machine tools;

computer installations for the storage of data; computer instruction records; computer interface instruments; computer interface units for translating data; computer interface units for translating data; computer interfaces for clinical use; computer keyboards; computer measuring devices containing data; computer memory devices; computer memory instruments; computer memory storage apparatus; computer modems; computer modules; computer monitors;

computer network installations; computer network operating installations; computer networking apparatus; computer networking installations; computer networks; computer networks for the communication of data; computer networks for the communication of data; computer networks for the processing of data; computer networks for the processing of data; computer networks for the storage of data; computer operated controls for mechanical handling apparatus; computer operating programs; computer outputting apparatus; computer plotters; computer printers; computer programs; computer programmes (programs) and recorded software distributed online; computer programming units; computer programs for analysing computer hardware; computer programs for calculators; computer programs for computer games; computer programs for computer games;

computer programs for data processing; computer programs for designing printed circuit boards; computer programs for electronic design automation; computer programs for financial management; computer programs for image processing; computer programs for laser machining; computer programs for managing conferences; computer programs for managing seminars; computer programs for monitoring computer systems performance;

computer programs for orchestral staging; computer programs for planning conferences; computer programs for planning exhibitions; computer programs for planning seminars; computer programs for playing games; computer programs for printing; computer programs for producing computer graphics; computer programs for project management; computer programs for promotional purposes; computer programs for sales purposes;

computer programs for scientific data analysis; computer programs for studying or developing languages; computer programs for testing computer hardware; computer programs for the analysis of data processing, procedures, performance or efficiency; computer programs for the control of telecommunication instruments; computer programs for the creation of networks; computer programs for the creation of networks;

computer programs for the management of the manufacturing processes; computer programs for the rating of plate fin heat; exchangers; computer programs for use as reporting directories; computer programs for use by airlines; computer programs for use by business organisations; computer programs for use by travel organisations; computer programs for use by tour operators; computer programs for use in computer aided engineering;

computer programs for use in database management; computer programs for use in defining machineable parts; computer programs for use in desk op publishing; computer programs for use in farming; computer programs for use in insurance; computer programs for use in processing data relating to financial records; computer programs for use in telecommunications; computer programs for use with computer integrated manufacturing installations;

computer programs for use with structured system analysis; computer programs for video games; computer programs in the field of design analysis; computer programs in the field of molecular modelling; computer programs recorded on data carriers; computer programs recorded on data storage materials; computer programs recorded on drums; computer programs recorded on magnetic media; computer programs relating to computer aided design;

computer programs relating to food; computer programs relating to housing management; computer programs relating to motorcycle racing; computer programs relating to the creation of graphic images; computer programs stored in digital form; computer programs stored on magnetic data carriers; computer related data communication apparatus; computer programs relating to the training of personnel; computer software;

computer software designed to estimate costs; computer software downloaded from the Internet; computer software for accounting systems; computer software for analysing or processing address files; computer software for analysing market information; computer software for analysing market information; computer software for authorising access to data bases; computer software for business purposes;

computer software for communication between computer processes; computer software for processing market information; computer software for the analysis of defects; computer software for time control; computer software for use in controlling machines; computer software products; computer software programs for database management; computer software programs for database management; computer software programs for database management;

computer software programs for spreadsheet management; computer storage apparatus; computer swivel bases; computer swivelling arms; computer systems; computer systems designed for project management; computer terminals; computer terminals for banking purposes; computer terminals for use with debit cards at point of sale; computer timetables; computer workstations for electronic design; computers and electronic processing units);

connecting devices for data transfer; connecting elements for communication networks; containers for the storage of audio cassettes; containers for the storage of photographic transparencies; control apparatus for computers; control apparatus for the management of data communication installations; control apparatus for the management of data communication installations; control apparatus for the management of voice communication installations;

control programs for data terminals; controllers for use with electronic games; controlling software for computer printers; converters being telecommunications apparatus for television signals; cordless telephones; couplers (data processing equipment); data access apparatus for use in accessing stored information; data acquisition apparatus or instrument; data banks; data bearing discs; data being electrically recorded for computers;

data being optically recorded for computers; data buffers; data bus interface units; data carriers; data carriers bearing machine readable data; data carriers equipped with controlling or governing programs; data carriers for computers having software recorded thereon; data carriers for use with data processing apparatus; data carriers incorporating computer programs; data carriers incorporating computer programs written in machine code;

data carriers incorporating controlling programs; data carriers in the form of optical discs; data carriers recorded with programs to enable data to be displayed; data carrying instruments; data collecting machines; data collection apparatus; data collection computer installations; data collection instruments; data communications apparatus; data communications apparatus; data communications apparatus; data communications receivers;

data communications software; data compact discs; data compilations; data compressors; data encryption apparatus; data exit terminals; data feeders for use with artificial intelligence; data files; data handling installations; data information processing units; data logging apparatus; data networks; data printer apparatus; data processing apparatus or components; data processing devices; data processing information carriers;

data processing installations; data processing instruments; data processing programmes; data processing programmes for the production of periodicals; data processing programs stored on data carriers; data processing software for graphic representations; data processing software for word processing; data processing terminals; data processors for business data; data processors for control of material supply; data programmes;

data readers being optical devices for data processing apparatus; data receivers; data recorded electronically; data recorded in electronic form; data recorded on magnetic materials; data recording materials; data retrieval apparatus; data security instruments; data storage apparatus; data storage devices; data storage devices for recording data or computer programs; data storage discs; data storage instruments;

data storage media (other than paper) for recording computer programs; data storage media (other than paper) for recording computer programs; data storage media (other than paper) for recording computer programs; data switching apparatus; data terminals for the communication of data to a central computer system; data terminals for the validation of data; data transmission cables; data transmission networks; data transmission networks;

data transmission networks; data transmitting instruments; devices for linking terminals on a computer apparatus; devices for use in the networking of computers; diagnostic viewers for evaluating the condition of local area network installations; diagnostic viewing transceivers for evaluating local area network apparatus; digital data transmission apparatus; digital telecommunications apparatus; digital telecommunications instruments;

digital telephone sets; digital telephone switching apparatus; digitized typefaces stored in electrical data carriers; discs containing programs for data processing; disc drives for use with computers; discs for the transmission of data; display apparatus for use with computers; earth satellites for use in telecommunications; earth satellites for use in the security surveillance of national spacecraft; electric apparatus for data processing;

electric computer games adapted for use with an external display screen or monitor; electric devices for displaying information; electric devices for transmission of data between computers; electrical apparatus for converting video games; electrical apparatus for data acquisition; electrical apparatus for fitting to vehicles to display visual information; electrical apparatus for recording data;

electrical apparatus for the use in the calculation of data; electrical apparatus (other than generators) for use in energy supply; electrical communication apparatus for transmitting data; electrical connectors for connecting laptop computers to telephone lines; electrical data input devices or apparatus; electrical devices for data information display; electrical devices for data information display; electrical devices for storage of data;

electrical devices for the switching of data; electrical door entry apparatus in combination with a telephone; electrical instruments for telecommunications purposes; electrically punched (encoded) tapes for use with computers; electroacoustic instruments for the production of sound recordings; electrodynamic apparatus for the remote control of storage operations; electromagnetic materials for bearing information;

electromagnetic apparatus for the communication of information; electromechanical signs for public information; electronic apparatus for information delivery; electronic apparatus for information exchange; electronic apparatus for the transmission of data; electronic apparatus for transmitting information; electronic cards containing information; electronic circuits for data processing apparatus;

electronic data carriers with computer programs (machine script); electronic data output apparatus for use with computers; electronic data processing apparatus for the storage of computer programs; electronic data processing machines for use in photographic finishing laboratories; electronic devices for the transmission of data between computers; electronic games (adapted for use with an external display screen or monitor);

electronic games adapted for use with independent visual display facilities only; electronic gaming information apparatus (adapted for use with an external display screen or monitor); electronic image recording apparatus; electronic information storage materials; electronic information storage materials; electronic materials being computer programs; electronic memories comprising computer programmes;

electronic memories comprising computer programs; electronic memories for computers; electronic memories for the control of computer data; electronic memories for the input of computer data; electronic memories for the input of computer data; electronic memories for the output of computer data; electronic memories for the storage of computer data; electronic memories incorporating computer programs;

electronic memory units for bearing computer programmes; electronic memory units for computers; electronic print out apparatus for use with computers; electronic printers for use with computers; electronic printing apparatus for use with computers; electronic publications including those sold and distributed online; electronic television satellite apparatus; electronic visual display apparatus for use with computers;

encoded cards for use in point of sale transactions; encoded cards for use in relation to the electronic transfer of funds; encoded data in the form of computer listings; encoded programmes for computers; encoded programmes for data processing apparatus; energy regulators; engineering design software; external storage apparatus for use with data processing apparatus; fibre optic connectors for telecommunications apparatus;

fibre optics communications apparatus for use with computer workstations; fibre optics communications apparatus for use with electronic instruments; fibre optics communications installations for use with computers; filter screens for computer screens; fibre optics communications installations for use with electronic apparatus; fixed radio instruments for data transceivers; flat screens for electronic data processing apparatus;

food analysis apparatus; game programmes (programs) and software for use with electronic games of all kinds; games adapted for use with an external display screen or monitor; games software for use with an external display screen or monitor gamma cameras; games software for use with computers; gauges for measuring the liquid content of storage tanks; global positioning apparatus; global positioning instruments;

ground based apparatus for controlling satellites; hand held computer games (for use with television receivers only); hand held electronic games (for use with television receivers only); high capacity broadband telecommunications switching apparatus; high speed data transmission apparatus or device; holders adapted for the storage of audio cassettes; home computers; housings for computers; illuminated electronic moving information displays;

image data capture devices; image data translation apparatus; indication apparatus for displaying information; indication apparatus for transmitting information; industrial computer software programs; information carriers (electric or electronic); information display apparatus (luminous); information storage apparatus (electric or electronic); information storage apparatus (electric or electronic);

information storage devices for use in data processing apparatus; information storage discs (magnetic); information storage instruments (encoded or magnetic); information storage tapes (magnetic); in-house communication apparatus; ink-jet printers for use with computers; input apparatus for data processors; input apparatus for transferring data to or from computers; input apparatus for use with data transmission apparatus;

input devices for computers; installations (electric or electronic) for use in access control; installations for data processing; installations for receiving information; installations for the electronic processing of data; installations for the remote unloading of computer software; installations for use in forming computer networks; instruction materials (apparatus) and programmes; instruction programmes for the output of data;

instruction programmes for the storage of text; instruction programmes for use with computers; instruments for electronic data processing; instruments for the recording of data; insulated telecommunications cables; integrated circuit cards storing computer games programs; integrated services digital network components; interactive computer software; interactive computers for use in certifying airport security personnel;

interactive educational games for use with television receivers; interactive entertainment software for use with computers; interactive video software; intercom key apparatus for connection to telephone networks; intercommunication satellites; interfaces (for computers); interface instruments for computer control of knitting machines; joysticks for use with computers; keyboard apparatus for use with computers;

keyboards for use with data communication apparatus; laptop computers; local mobile telephone systems; machine readable information carriers for recording data; machine readable material for bearing computer programmes; magnetic cards bearing computer programs; magnetic cards being computer software; magnetic cards for the recording of data; magnetic cards for the storage of computer programs; magnetic cards for use with computers;

magnetic carriers for the storage of computer programs; magnetic computer tapes for recording data; magnetic data carriers in the form of cassettes; magnetic data carriers recorded with programmes for instruction; magnetic data carrying tapes; magnetic data recording apparatus; magnetic data storage materials; magnetic discs for data storage purposes; magnetic discs for storing computer programmes;

magnetic discs for the electronic recording of data; magnetic disks for data input; magnetic disks for the storage of data; magnetic materials bearing data for video games; magnetic platforms for software; magnetic recording materials apparatus or medium; magnetic storage materials incorporating programmes; magnetic tapes for memorising software programs; magnetically recorded data for computers; mass storage instruments (electric); materials bearing data or computer programs in encoded form; materials bearing information in magnetic form for use with computers; materials for carrying computer data in magnetic or optical form; mats for use with a computer mouse; memories and memory extensions for use with electronic games of all kinds; memory apparatus for telecommunications network management; memory controllers for use with computers; microchips for recording data;

microwave antenna for the reception of satellite data; microwave apparatus for communication; miniature hard disk drive storage units; mobile communication terminals; mobile data apparatus; mobile data communications apparatus; mobile telecommunications apparatus; modems for communications networks; modular sub-assemblies for use in data processing; monitors (computer hardware); multi-functional telephones; multiplexers for bearing data;

multiprocessor computer apparatus; musical recordings in the form of wires; music reproducing apparatus (other than musical instruments); navigation apparatus for vehicles (on-board computers); navigation apparatus for vehicles (on-board computers); navigation computers for cars; network controlling apparatus; network anti-interference filters; network applications being computer programs; network junction points for telephone exchange networks;

network management apparatus; network management computer software; network management computer software; network management computer software; networks for the interconnection of communication systems; non-impact printers for use with computers; non-impact printers for use with data processing apparatus; notebook computers; office machines (data processing); on-board computers for vehicles; operating computer software for main frame computers;

optical apparatus for the processing of data; optical apparatus for the recording of data; optical apparatus for the transmission of data; optical character readers for data entry; optical communication systems; optical communications instruments; optical data carriers; optical data carriers in the form of discs (disks); optical data recording apparatus; optical data storage apparatus or drives; optical data transmission systems;

optical discs bearing machine readable computer program; optical discs for bearing machine readable computer program; optical discs for the storage of data; optical fibres for use in the storage of images; optical materials for storing data; optical networks; optical storage apparatus; optically or electronically recorded or encoded information; optically or electronically recorded or encoded information;

paging interface apparatus for use with computers; paper being magnetic discs for recording computer programs; paper feed apparatus for use with computer printers; paper feeding apparatus for use with computer printers; paper handling devices (parts of computer printers); paper tapes and cards bearing punched (encoded) computer programs; peripheral control devices for computers; personal communications devices;

personal computer application software; personal computer cards (punched); personal computer enhancement circuitry; personal computers; personal computers for use with coin operated video game devices; personal computers for use with video game devices; personal computers incorporating computer software; personal home computers; personalized installations for buildings; photographic storage devices;

photographic storage devices bearing representations of typefaces in encoded form; pick-ups for electrical musical instruments; plastic insulated cables (electric) for computers; plates adapted for holographic recordings; plotters for computers; plotters for use in data processing installations; plug-in cards bearing computer programmes; plug-in cartridges bearing computer programmes; plug-in electronic cards for computers;

point of sale apparatus; pointing devices for use with computers; portable communication terminals for use in conjunction with satellites; portable computers; portable radio communications receivers; pre-recorded data carriers for use with computers; printed circuit boards for mounting in computers; printers or print out apparatus for data processing apparatus; printing apparatus for use with data processing apparatus;

printing machines for use with computers; private telephone exchange apparatus; processing computers; processing programs recorded on data carriers; program carrying magnetic discs for use with electronic data processing apparatus; program cartridges for computer games; programmable computers; programmed video games (software); programming instructions for data processing apparatus (recorded); programs bearing encoded information;

programs for computer generated music; programs for computers; programs for data processing apparatus (recorded); programs for data processing apparatus recorded on tapes; programs for processing data on computers; programs for recording data; programs for recording data in reproduction technology; programs for the design of control information systems; programs for use with computer games; programs in the form of printed matter for computers;

programs recorded on optical data carriers; public access information data terminals; public access information data terminals; pulse code modulation apparatus for transmission via satellite; punched disks containing data in encoded form; punched paper tapes containing data in encoded form; punched tapes for use with computers; racks and mountings specifically adapted for use with audio; radios with electronic data decoders;

reconditioned computer parts; record carriers for computer programmes (magnetic); record carriers for computer programmes (optical) recorded; recorded computer programs; recorded computer programs for scientific research; recorded computer programs in the form of cards; recorded computer programs in the form of punched cards; recorded computer programs in the form of tapes; recorded computer programs in the form of wires; recorded data files;

recorded software and programmes for use with electronic games of all kinds; recording discs; recording material bearing computer programmes; recorded material for use by computers; recording materials for the storage of digital computer programs; recording materials of card for the storage of data (encoded); records bearing entertainment material; remote access online electronic information apparatus;

remote access online electronic information apparatus; remote access online electronic information apparatus; remote data gathering apparatus; remote data processing apparatus; remote management apparatus for payphones; network analysers (scientific apparatus); satellite apparatus; satellite communication apparatus; satellite communications terminals; satellite dishes (antennae); satellite earth stations; satellite imagery software;

satellite receiving aerials; satellite transmitting apparatus; satellites for communication purposes; satellites for scientific purposes; scanners (data processing equipment); scientific apparatus for the receiving of data;; scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life- saving, and; teaching apparatus and instruments;

semiconductor apparatus for use with computers; semiconductor memory cartridges being computer programmes; sensors for real time data input apparatus; sensors for trace analysis in the food industry; simulators; simulators incorporating digital computers for industrial training purposes; solid-state electrical apparatus for storing computer programmes; sound record storage apparatus; sound recordings; sources of optical beams for communications;

speakers for computers; speech communications apparatus for use in noisy environments; stereo headphones for personal entertainment use; storage apparatus for computer data; storage containers adapted for video cassettes; storage devices; storage discs for use with computers; storage materials for data in electronic form; storage racks; storage racks for compact discs (CDs); storage racks for computer discs; storage racks for computer disks;

storage racks for discs (sound recordings); storage racks for DVDs; storage racks for magnetic tapes; storage racks for video cassettes; switchboards for telephone exchanges; synchronous data units; table top electronic games (adapted for use with an external display screen or monitor); tablets for computers; tags carrying magnetically encoded information; tape drives for use with computers; tape recordings of music;

tape units for backing up computer data storage systems; tape recordings relating to fictional characters; tapes encoded with computer readable data; tapes encoded with machine readable data; target surveillance apparatus (satellite); target trackers (satellite); telecommunications apparatus or instruments; telecommunications alarm apparatus; telecommunications apparatus for measuring purposes;

telecommunications apparatus for transferring data to computers; telecommunications apparatus for transmitting data for use with computers; telecommunications apparatus for use with digital signals; telecommunications devices; telecommunications instruments for use in cellular radio networks; telecommunications network management installations; telecommunications networks; telephone apparatus adapted for use on credit;

telephone apparatus for communication by sound; telephone apparatus for communication by vision; telephone apparatus for the recording of sound; telephone apparatus for the reproduction of sound; telephone apparatus for the transmission of sound; telephone apparatus for use by persons with hearing difficulties; telephone apparatus for use by the handicapped; telephone apparatus with prepayment by coin; telephone appliances;

telephone books in electronic form; telephone cables of optical fibres; telephone call cost calculators; telephone call management systems; telephone circuits; telephone cords; telephone directory databases; telephone distribution frames; telephone installations; telephone keyboards; telephone management installations; telephone measuring apparatus; telephone registers (electronic); telephone ring tones (downloadable);

telephone security instruments; telephone transmitters; telephones incorporating answering machines; telephones incorporating intercommunication systems; telephones incorporating radios; television apparatus incorporating sound reproducing apparatus television games; terminals for remote data processing; testing apparatus for sale in kit form (other than medical); textual information published on optical materials;

thermal energy measuring apparatus; time data generators; training guides or manuals in electronic format; training materials (apparatus); trackers (computer apparatus); transmitter simulators; transmitters for use with computers; transmitting apparatus for satellite broadcast; typeface data recorded on electronically readable data carriers; underwater communications devices; units adapted for the storage of computer disks;

units for backing up computer data storage systems; units for displaying information received in machine readable format; value cards for accreditation purposes; video communications apparatus; video communications instruments; video data converting apparatus; video door telephone installations; video game computer programs for use with game apparatus not requiring a separate means of display; video game programs for use with computers;

video games on disc (computer software); video games programs (computer software); video games programs (software); video local area network controllers; video local area network controllers; videotext computer terminals incorporating alphanumeric keyboards; view data terminals; visual display apparatus or device; visual display apparatus for use in training personnel; visual display apparatus for reading data;

visual display apparatus for recording data; voice actuated computer apparatus; voice amplifiers for detecting telephone rings; voice apparatus for analogue network apparatus; voice apparatus for digital network apparatus; voice facsimile communication apparatus; voice signalling apparatus for use with line telephone systems; waterproof safety clothing for the prevention of injury; waveguides (telecommunications components);

weather information instruments; wire free data transmission apparatus; wireless telephones; wires for communication; work stations (computer apparatus); wrist rests for use with computers; point of sale communication devices; devices for use in the networking of computers; communication system or network apparatus, equipment or devices enabled by any form of energy transmission;

on-line internet customer service and distribution computer systems and software

- Cl. 38** Advisory services relating to communications; broadcast of information by means of television; broadcasting or transmission of recorded messages and/or information; broadcasting services; car telephone communications services; cellular communications services; cellular telephone communication; communication between computers; communication by computer; communication of data by means of telecommunications; communication of data by means of telecommunications; communication of information by computer; communication of information by electronic means; communication of information by satellite; communication of information by television; communication network consultancy; communication services between computers; communication services by electronic means; communication services for the transmission of information; communication services including transmission of voice, audio, visual images, data and other sensory means of expression by telecommunications or other means of communication or network including wireless communication networks or systems; communications by closed circuit audio or video systems; communications by fiber (fibre) optic networks; communications by fiber optic networks; communications by telephone; communications by telephone; communications including telecommunications; communications services between computers; communications services by electronic means; communications services for accessing a database; communications services for the exchange of data in electronic form; communications services over computer networks; computer bulletin boards; computer intercommunication; consultancy services in relation to communications; consultancy services relating to data communications; data broadcasting services; data communication services; data transmission; data transmission services over telecommunications networks; delivery of digital music by telecommunications; digital network telecommunications services; electronic communications consultancy; electronic communications services for the transmission of data; electronic data exchange services; electronic funds transfer communication services; electronic instructions transmission services; electronic network communications; electronic transmission of data; fibre optic telecommunications services; hire of telecommunications instruments; information services relating to broadcasting or telecommunications; interactive services for facilitating the recording of television programs;

Internet cafe services being the provision of telecommunications access to the Internet; Internet cafe services being the provision of telecommunications access to the Internet; maritime radio-telephone network services; mobile telephone communication services; operating of electronic communications networks; operation of cellular communications systems; operation of chat rooms; operation of television cable networks; operation of wide-band telecommunications networks; planning relating to communications; planning relating to communications; podcasting services; point of sale communication services; preparation of reports relating to communications; providing access time to websites (isps); providing access to computer networks; providing access to computer networks; providing access to databases; providing access to online computer databases; providing email and instant messaging services; providing information including online about telecommunications and communications; providing of access to telecommunication warehousing services; providing online chat rooms and electronic bulletin boards for transmission of messages among users in various fields of interest which may also contain interactive polls about entertainment and a wide range of other topics ; providing telecommunications connections to a global computer network; providing user access to an internal, local or global computer network (service providers); providing user access to an internal, local or global computer network and online sites containing information on a wide range of topics; providing user access to global positioning signals for navigation purposes; providing user access to search engines; provision of access to electronic messaging systems; provision of access to television via decoding apparatus; provision of communications between computers; provision of communications information; provision of telephone directory information; provision of user access to the Internet; provision of voice communication services over the Internet; radio frequency communications services; radiophonic communications services; radio telecommunications; remote transmission of data by means of telecommunications; rental of access time to global computer networks; rental of access time to global computer networks; rental of broadcasting time by satellite; rental of communications apparatus or equipment; rental of communications systems; rental of data communication apparatus or equipment; rental of telephone circuits; satellite communications services; satellite communications services; satellite telecommunications services; satellite transmission; sound transmission via satellite; streaming audio, visual or other material on the Internet; telecommunications advisory services; telecommunications routing and junction services; telecommunications security (providing secure connections and access including to computers and the global computer network);

telecommunications services for the distribution of data; telecommunications services by satellite; telegraph telecommunications services; telegraphic communications services; telephone communication services; telex message communication services; text and numeric wireless digital messaging services; transmission of data by computer; transmission of data by radio; transmission of information by telephone;

transmission of information on a wide range of topics including online and over a global computer network; transmission of messages by telephone; transmission of pictures by satellite; transmission of sound by satellite; video conference services (telecommunications services); video on demand transmission services; web portal services (providing user access to a global computer network); webcasting (broadcasting over a global computer network);

wireless communication services; wireless telephone services; providing access to a communication system or network enabled by any form of energy transmission; communication services relating to a communication system or network enabled by any form of energy transmission and communication services related to on-line internet customer service and distribution systems

- Cl. 42** Accreditation for quality or standards; advisory services relating to computer systems design; advisory services relating to energy efficiency; advisory services relating to environmental pollution; advisory services relating to environmental protection; advisory services relating to interior design; advisory services relating to the preparation of standards; architectural project management; building design services;
- certification of quality or standards; clothing and fashion designing; clothing design services; commercial design services; computer database consultancy services; computer program advisory services; computer program updating services; computer research services; computer security services (programming and software installation repair and maintenance services); computer security services (design and development of secure computer hardware, software and systems); computer software advisory services; computer software consultancy; computer software development; computer software engineering; computer support services (computer hardware software and peripherals advisory and information services); computer system design; computer time-sharing; consultancy in relation to occupational health and safety;
- consultancy in the field of computer hardware; data conversion of computer programs and data (not; physical conversion); data conversion of computer programs and data (not physical conversion); data encryption services; data security services (firewalls); design and development of computer software (for others); design of business premises; design of building interiors; design of communications apparatus; design of communications systems;

design of computer codes; design of computer databases; design of computer languages; design of computer programs; design of computer software; design of fashion accessories; design of games; design of office space; design of protective clothing; design of road networks; design of storage systems; design of telecommunications installations; design planning; designing and planning of real estate subdivisions and developments;

development of computer based networks; development of computer codes; development of computer software; development of computer software application solutions; development of computer systems; development of systems for the processing of data; development of systems for the storage of data; development of systems for the transmission of data;

development, maintenance and updating of a telecommunication network search engine; diagnosis of faults in computer software; disaster recovery services for data communications systems; duplication of computer programs; energy auditing; engineering services relating to computer programming; engineering services relating to computers; environmental conservation; environmental hazard assessment; environmental surveys;

hosting computer sites (web sites); hosting of databases; information services relating to standards; information technology (IT) services (computer hardware, software and peripherals design and technical consultancy); maintenance and updating of a telecommunication network search engine; maintenance of computer programs; maintenance of computer records; management of scientific research projects;

occupational health and safety services (ergonomics and design services); online provision of web-based applications; online provision of web-based software; pattern design; preparation of reports relating to architecture; preparation of reports relating to computer programs; project management (design); project management (technical support); providing information including online about design and development of computer hardware and software;

providing information including online about scientific and technological services and research and design relating thereto; provision of information on food safety; provision of information relating to computer programming; provision of meteorological information; provision of online calculators; quality assurance consultancy; quality audits; real estate planning; recording data relating to the energy consumption in buildings;

recovery of computer data; recovery of computer data; rental of computer equipment; rental of computer programs; rental of computer software; rental of computers; rental of data carriers; rental of data processing systems; rental of games software; repair of computer software; research relating to computers; research relating to data processing; research in the field of environmental protection; retail design services;

scanning (conversion of data or documents from physical to electronic media); scientific computer programming services; social science consultancy services; social science research services; structural engineering services (design); testing of computer installations; testing of computer programs; testing of computers; town planning; town planning consultancy services; translation of programs; updating of computer programs; updating of computer software; updating of memory banks of computer systems; upgrading of computer software; urban design; urban planning; weather information services; writing of computer programs; writing of computer software; development of computer hardware and software; design of computer languages; design of software for the recording of data; development of branding or corporate identity; design services relating to a communication system or network enabled by any form of energy transmission and commercial design services relating to an on-line internet customer service and distribution system
