**Cl. 1** Chemicals for developing and fixing x-ray films and other chemicals associated with the development of said films; chemicals, biochemicals and reagents for use in industry, science and research; chemical preparations, kits and reagents for analysis or diagnosis used for scientific purposes, namely, chemical preparations for cell separation and culture, nucleic acid purification, nucleotides, fluorescent nucleotides, oligonucleotides, peptides, proteins, amino acids, organic molecules, and markers for DNA/RNA synthesis; reagents for luminescence; reagents for gene expression quantification; reagents for use with the polymerase chain reaction process; reagents for use with the rolling circle amplification process; reagents for cDNA cloning and vectors, modifying and restriction enzymes;

reagents for labeling, sequencing and fragment analysis of nucleic acids, proteins and custom synthesis; reagents for recombinant protein expression purification; chromatography media; reagents for electrophoresis, bioinformatics, spectrophotometry and fluorometry; radiochemicals for scientific research use; reagents for scintillating proximity assays; high throughput screening assays for drug development;

reagents for high resolution laser fluorescence confocal microscopy; specialty chemicals for use in industry, science and research; gases and gas mixtures for industrial, research and scientific purposes; chemical preparations and substances for use in the manufacture of pharmaceutical products, diagnostic preparations and substances; chemical test reagents, saline solution and reagent-coated paper all for scientific and laboratory use;

fissionable chemical elements for scientific research use; radioactive elements and isotopes for industrial, scientific and research purposes; radioactive sources and standards for use in radiographic techniques; radioactive sources for use in non-destructive testing, purification and sterilizing techniques; radionuclides for scientific research use;

chemicals and chemical compositions for use in the treatment of water systems, wastewater treatment systems, cooling water systems, boiler water and steam generating systems, boiler condensate systems, fluid separation systems, water clarification and dewatering in aqueous systems; bacteria cultures and nutrients for wastewater and sludge treatment

- Cl. 5** Pharmaceutical preparations for use in diagnosis; veterinary pharmaceutical preparations for use in diagnosis; pharmaceutical and veterinary substances for medical purposes; diagnostic reagents and preparations for medical purposes; diagnostic substances for medical purposes; contrast media for medical imaging; diagnostic scanning agents for in vivo use; diagnostic imaging agents for magnetic resonance imaging; radiopharmaceutical products for clinical, medical, scientific and research use; radiopharmaceutical sources and standards for use in nuclear medicine; radioactive pharmaceutical preparations and non-radioactive reagents for producing radiopharmaceuticals for in vivo diagnostic or therapeutic use; gases and gas mixtures for medical imaging; biocidal chemicals and biocidal chemical compositions for use in industrial cooling water systems
- Cl. 7** Pumps, namely, centrifugal pumps, diaphragm pumps, bellows pumps and process and transfer pumps; fluid control devices, namely, valves, flow meters, pressure switches, sequence timers, regulators, levelers, ejectors, and electrical controls and switches; fluid separation cartridges and parts therefore, including semi-permeable membranes; filter cartridges for various industrial machines for filtration applications including the filtration of coating solutions for the manufacture of magnetic tape and the filtration of petrochemicals, portable water, beer in the brewing industry, and other specialty chemicals; machines for the feeding and application of chemicals for industrial use
- Cl. 9** Computer software for, persons who troubleshoot and maintain programmable controllers, for analyzing blood vessels including cardiac vessels which also provides calculation functions with respect to blood vessels, for use with medical patient monitoring equipment, for collecting data involving vital medical signs,

for a radiology information system for use by radiologists and radiology department in the database management of employee and patient information for patient monitoring and archival purposes installed on and used in connection with pcs and medical monitoring equipment for graphical user interface, software and software programs for industrial, research, and medical use; apparatus for electrophoresis; chromatography columns and pumps;

apparatus for microfabrication; apparatus for bioinformatics systems; apparatus for scintillation; imaging apparatus for radioactive and luminescent emissions; synthesis and purification integrated systems; apparatus manufacturing oligonucleotides; apparatus for microarrays; laser based optical systems for digital imaging; microarray slides; laboratory glassware; vials and microvials; microtitre plates;

computer software for hospital operating room management; computer software for critical care information management; bioreactors for culturing cells; media filters and depth filters for removing sediments, iron, sulfur, tastes and odors from water; reverse osmosis water purification; portable analytical instruments; namely, a probe with a microprocessor based data conversion logger for measurement of organic and inorganic chemicals in water;

filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane filters for laboratory use; silt density measuring device; deionization units for laboratory use, filters and filter housings for laboratory use; fluid separation apparatus for laboratory use; membrane for laboratory use; fluid flow control devices, namely, pumps, valves, flow meters and regulators for laboratory use; ozone monitors;

laboratory equipment, namely, porous microtiter plates for use in cell biology and other life science applications; electronic water and process treatment controls, namely, apparatus for use in the treatment of commercial and industrial water systems, boiler water systems, cooling water systems, and closed water systems, determine the proper treatment program, apply the desired treatment and monitor the effectiveness of the treatment;

computer software for data management in the water treatment and paper field; electronic controllers used for processing information in the water treatment field; apparatus for use in industrial water systems to measure and control ph and conductivity; apparatus for feeding chemical to an industrial, commercial or municipal water system in measured amounts; electronic test apparatus for use in water treatment;

laboratory testing equipment-namely, deposition and corrosion rate testers; mobile laboratory equipped with equipment and instrumentation to monitor and measure ph, conductivity, and chromate concentration of industrial and domestic waters, to conduct inorganic analysis of water and to conduct microbiological testing of water

**Cl. 10** Test kits for clinical medical use including test tubes, test plates and indicator charts for evaluating test results; medical apparatus and accessories systems for the dispensing of measured unit doses of pharmaceutical preparations; vials; cannulas; syringes; injectors; cartridges; pre-filled vials containing medical diagnostic reagents; pre-filled cartridges containing chemical solutions for medical use;

pre-filled cylinders containing gases and gas mixtures for medical use; infusion pumps for intravenous administration of fluids; needles for medical purposes; implantable radiation therapy devices consisting of encapsulated radioisotope brachytherapy sources; radiation therapy delivery system consisting of radioactive seeds and a bio-absorbable carrier assembly; cardiac output monitors; heat and moisture exchangers; bacteria filters;

gas analyzers for medical purposes; anesthesia record keeping and data management systems and patient monitor systems, namely, gas monitors; pulse oximeters, multiparameter monitors, ECG monitors, invasive and non-invasive blood pressure monitors, neuromuscular transmission monitors, metabolic monitors and spirometers for anesthesia, intensive care and diagnostic applications; anesthesia machines and ventilators;

intensive care and anesthesia accessories for single patient use, namely, gas sampling lines, airway adapters, breathing circuits, spirometry sensors and tubes, tubes, water traps, pulse oximetry sensors, non-invasive blood pressure cuffs, flushing sets, anesthesia masks, carbon dioxide absorbers, temperature probes and nebulizers; central nervous system monitors; gastrointestinal tonometers; gradient coils;

namely, magnetic gradient coils used in magnetic resonance imaging; medical diagnostic devices, namely, bone densitometers; fetal monitoring apparatus, namely, fetal pulse and vital signs monitors; patient monitoring apparatus, namely, heart and vital signs monitors medical imaging systems, namely, ultrasounds, medical diagnostic imaging machines,

imaging devices for screening and diagnostic applications for use in planning intervention and surgery, and parts thereof and attachments thereto; medical diagnostic apparatus for displaying diagnostic images; namely, spot film apparatus, x-ray image intensifiers, x-ray fluoroscopes, mobile x-ray units, radiographic film viewers, computerized tomography scanners, nuclear resonance scanners, ultra sound scanners, magnetic resonance scanners, positron emission tomography (pet) scanners; and parts thereof and attachments thereto including tables and pads

**Cl. 11** Fluid separation units; fluid concentration units; fluid recycling units; polymeric membrane material for use in the separation of fluids; filter apparatus used for filtering solids from gases and liquids or filtering liquids from gases, and for filtering one immiscible liquid from another; spirally-wound elements or cartridges contained within a tubular plastic sleeve for concentrating products and removing impurities in fluid treatment systems;

water conditioning units for residential purposes; reverse osmosis modules and membranes therefore; water purification units and systems consisting of clarifiers, electro deionization systems, condensate polishers, vacuum degasification units, ultra filtration units, ultraviolet sterilizers, ion exchangers, acid and caustic regeneration systems, reverse osmosis systems, forced draft decarbonator units, filters, chemical feed systems and bulk storage units, sold with automatic controls and instruments to monitor operating parameters of the units and systems electrochemical liquid purification units for use in the industrial, commercial and municipal sectors; water filtering units for domestic, commercial and industrial use; water treatment equipment for household use, namely water softeners and water conditioners;

water filtering units for domestic, commercial and industrial use; time or condition sensing apparatus for initiating and controlling regeneration or backwash cycles for water treatment equipment; waste water purification units; water purifying units for portable water for domestic, commercial and industrial use; control valves for water conditioning and water filtration equipment; fluid separation units, namely industrial fluid filters;

fluid separation units for industrial use in a wide variety of industries; recycling units, namely fluid purification units; fluid recycling units for industry use in a wide variety of industries; disposable cartridge filters for industrial use; depth filter units and depth filter cartridges for liquid and air filtration for domestic, industrial and commercial use

**Cl. 37** Diagnostic repair and maintenance services rendered in the repair and maintenance of medical equipment including accessories and component parts the foregoing; chemical cleaning services for glass-lined reactor vessels used in the chemical and pharmaceutical processing industries; maintenance and repair services in the field of computerized cooling system equipment; maintenance services for heat transfer systems and condensers; consulting services in the field of hospital construction

**Cl. 38** Electronic data interchange (EDI) services for healthcare transaction information; computerized transferring of health care related information

- Cl. 40** Wastewater treatment services, water treatment services, namely, desalination, purification, conditioning, identifying and controlling microbiological organisms, cleaning of ion exchange resins; membrane regeneration services; chemical control system services relating to the feeding of treatment chemicals to industrial water systems; reverse osmosis water purification
- Cl. 41** Educational services in the field of medical imaging and diagnostics; namely, holding seminars, conferences, symposiums or workshops relating to the pharmaceutical industry, for medical practitioners and employees of pharmaceutical companies; educational services, namely holding seminars, conferences, symposiums or workshops in the field of life science and biotechnology for scientists and researchers;  
conducting seminars related to industrial water treatment problems; providing training services for all the aforesaid; providing training services in management and the medical field through the use of instructions and demonstrations provided online, through the Internet, intranet and extranets;  
education services, namely, conducting practical training workshops, classes and seminars featuring demonstrations in the field of management and medicine
- Cl. 42** Computer programming services for others; computer software design and analysis services for others; computer consultation services; maintenance and updating of computer software and computer systems for others; installation of computer software; computer systems analysis and design services for others; consultancy services relating to chemical research;  
consultancy services relating to the discovery and evaluation of drugs and compounds having diagnostic properties; technical support services; consultancy services relating to methods for diagnosis using laser based optical systems; high through put screening assay for drug development services; customer synthesis, analytical and diagnostic services; biotechnological services;  
laboratory and testing services for fluid separation and membrane testing; engineering and consulting services in the fields of water treatment, aqueous systems, cooling water systems, industrial boiler water systems, industrial water and process systems, industrial fuel processing system treatment;  
engineering services and technical support services related to the design and configuration of computer software and hardware systems to be used in the treatment of aqueous system, providing information to others, over a global computer network, relating to industrial water purification systems; remote monitoring; advisory services related to all the aforesaid

- Cl. 44** Consultancy services relating to medical and diagnostic imaging; consultancy and advisory services relating to diagnostic, prophylactic and therapeutic properties of pharmaceuticals; medical information services; medical services, including comprehensive services in the medical field relating to improving and maintaining quality of patient care, diagnosis and treatment throughout a hospital;  
consultancy services in the medical and healthcare fields

apparatus for the measurement of body size/shape, foot size/shape or footwear; apparatus for determining fitting information for clothing, footwear or prosthetics; imaging apparatus for imaging bodies, feet and/or footwear especially for size and/or shape measurement; three dimensional imaging apparatus especially for imaging bodies, feet and/or footwear; apparatus for scanning; scanners; frequency scanners; image scanners; optical apparatus for scanning; rapid scan cameras; x-ray scanners (not for medical use); apparatus for scanning materials, vehicles, structures for flaws, corrosion, damage and cracks; control apparatus (automatic, electric or electronic) for robots; digital controls for robots; robots for military and security use, including for explosive detection and handling purposes; operating systems for robots; aircraft cockpit instrumentation;

aircraft landing guidance apparatus and instruments; apparatus for testing in the aircraft industry; apparatus for the automatic, remote and directional control of aircraft; armament testing apparatus for use on aircraft; portable communications and testing apparatus for aircraft; scientific apparatus for installation in aircraft; simulators for training personnel in the ground control of aircraft; stabilizing devices for aircrafts;

strategic telecommunication apparatus for aircraft; ultrasonic apparatus for scanning aircraft components for flaws; cameras for military use; metal detectors for industrial or military purposes; military electronic and optical apparatus; topographic apparatus for military use; transformers being electromagnetic devices for military applications; breathing apparatus for protective purposes;

electronic protective fences in the nature of activated invisible barriers; protective helmets and masks; protective eyewear; ballistic resistant clothing, footwear and headgear; periscopes for use on vehicles; diving apparatus, breathing apparatus for diving, wet suits for diving, diving goggles; mobile data communications apparatus; shields for protecting body against ballistics, weapons and injury; fibre optic apparatus;

fibre optic sensors to detect instability in materials, structures, cables and pipelines, rail tracks, borders and for detecting persons and foreign bodies; camera stabilising equipment; fibre optic cables; fuel cells; batteries; lithium batteries; speakers and sound systems; fibrescopes (other than for medical use); parts and fittings for the aforesaid goods;

none of the aforesaid goods being for use in connection with or for factory automation, material handling and or the automotive manufacturing plant industries

**Cl. 12** Vehicles; military vehicles, space vehicles, armoured vehicles; apparatus for locomotion by land, air or water; aircraft; underwater craft; unmanned vehicles for locomotion by land, air or water; anti-theft and security devices for vehicles (other than locks); helicopter blades; turbines for vehicles; parts and fittings for aircraft, land and sea vehicles; minesweeper towing apparatus; minesweepers (ships);

- motorised military vehicles for the transportation and launch of weapons; weapon carriage and release apparatus for installation on military craft, land vehicles and water vehicles; unmanned transportation robots; aircraft; aircraft flap braking installations; aircraft interior panels; aircraft landing gear and wheels; aircraft manoeuvring apparatus; alarm systems for aircraft; apparatus for dropping loads from aircraft; bodies for aircraft;
- vehicle brakes; buoyancy bags adapted for use with aircraft; drag parachutes for aircraft; ejector seats (for aircraft); pilot less aircraft; tyres; unmanned airborne apparatus for causing aircraft to change course; wings for aircraft; apparatus for land locomotion by parachute; parachute apparatus assemblies; parachute canopies, harnesses and packs; parachutes for arresting the motion of vehicles; armour plates (shaped) for vehicles;
- armour protection apparatus; armoured bodies for vehicles; tracks for armoured vehicles; aerospace apparatus; electric security apparatus (other than locks) for vehicles; parts and fittings for the aforesaid goods
- Cl. 13** Firearms; ammunition and projectiles; explosives; fireworks; anti-tank mines; explosive devices for minefield breaching; explosive devices for minefield clearance; fuses for explosives, for use in mines; safety apparatus being part of or for affixing to munitions casings to prevent unintentional detonation or ignition namely a device to force open a valve or puncture the casing to release pressure or heat, such device being activated by changes in temperature or pressure; guided antitank mines; mines (explosives); sea mines; bombs; guided bombs; guided mortar bombs; multi-munitions stand-off bombs; target sights for artillery (other than electronic, laser or telescopic); target sights for guns (other than electronic, laser or telescopic); actuators being parts of weapon ejecting and loading installations; apparatus for firing and launching weapons;
- cartridges for carrying materials to be deployed in weapon installations; containers for launching weapons and for storing weapons; air delivered weapons; decoy apparatus (weapon); decoy installations (weapon); firing platforms (weapons); tanks (weapons); tanks (weapons) being tracked vehicles; tear-gas personal attack defence weapons; tear-gas weapons; weapons; unmanned remote-controlled powered aircraft for use as military targets;
- protective shields adapted for firearms; armour-piercing projectiles; smoke missiles for armoured vehicles
- Cl. 22** Ropes, string, nets, tarpaulins, sails; padding and stuffing materials; nets, being vehicle and aircraft arresting devices, including spiked non-metallic nets, and parts and fittings therefor
- Cl. 35** Advice relating to business management, personnel management; advisory services relating to (business) risk management; analysis of business management systems; business management and organization consultancy; business management services relating to the acquisition and development of businesses; business project management; computerised database management; data management consultancy;
