Cl. 9 Printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers,

computer operating programs for use therewith, optical devices for guiding and aligning laser beams); coders with programmable thermal transfer; controllers for ink-jet printers; controllers for ink-jet printheads; controllers for thermal printers; controllers for thermal printheads; label applicators; readers and coders of radio frequency identification markers (tags); applicators of radio frequency identification markers (tags);

readers and coders of intelligent labels; applicators of intelligent labels; control and verification devices for printing machines, ink-jet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, ink-jet printers, thermal printers, thermal transfer printers, label printers, printers with ink-jet printing and programmable thermal transfer coders,

printing machines using impact, ink-jet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators of intelligent labels, laser coders for marking and coding;

electronic controllers for printing machines, ink-jet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, ink-jet printers, thermal printers, thermal transfer printers, label printers, ink-jet printers and programmable thermal transfer coders, printing machines using impact, ink-jet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators or intelligent labels, laser coders for marking and coding; all the above goods being linked to a computer; electronic controllers for conveyors used to move articles in front of an ink-jet printing station;

electronic overprinting machines for printing batch codes, expiry dates, bar codes and/or variable information directly on packaging materials, labels and goods; software for creating product identification or coding information, monitoring software for printing machines, product identification and traceability management software, database software for product identification, interactive traceability systems for industrial goods;

computer programs for generating laser markings and printing goods for others; computer programs for configuring and controlling printing systems; computer programs for formatting data in a printable format; computer programs for controlling machines for marking and coding by laser and for printing; computer programs for synchronising and checking data originating from multiple sources;

computer programs for preparing reports in graphic format or texts for management of logistical chains and of goods manufacture and of compliance with regulations; computer programs for marking and coding products and product packaging and for controlling marking and coding machines; radio frequency identification markers (tags); intelligent labels containing identification information or information sensors; printers; ink-jet printers;

printers for marking; printers for printing, marking and coding products and product packaging; thermal printer units; thermal transfer printers; label printers; impact, ink-jet, ink roller, thermal transfer, percussion and laser printers for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; ink-jet printer printheads; thermal printheads;

ink-jet printheads; printers for printing, affixing and application of labels; printers for application of protective and decorative coatings to surfaces

- CI. 16 Ribbons for thermal transfer printers; labels for label printers, labels for label printing, affixing and application systems
 - CI. 37 Installation, repair, maintenance and servicing with regard to the goods mentioned above in classes 7 and 9; technical assistance services, namely diagnostics and breakdown maintenance for the goods mentioned above in classes 7 and 9
 - CI. 40 Assistance services for recycling printers, print machines, laser encoders, readers, printing machines, marking machines and encoding machines; consumable supply packaging refilling, disposal of waste from consumable supplies in the field of marking, printing, industrial encoding and product identification
 - CI. 42 Consultancy services regarding computer engineering in the field of marking, printing, industrial encoding and product identification; updating of computer software in the field of marking, printing, industrial encoding and product identification; rental of the goods mentioned above in classes 7 and 9
- (500) Trade Mark Description: Colour Claimed: PURPLE: PANTONE PMS 2613; GREY: PANTONE PMS COOL GREY 11.* Provisions of paragraph 44(3)(b) and/or Reg 4.15A(3)(b) applied.*

Cl. 2 Inks; ink jet printer ink; ink for printers; thermographic inks; heat-fusible inks and phase change inks; mixtures for the preparation of ink; thinners, solvents and additives for ink; cartridges filled with ink for ink-jet printers and printing machines; filled cartridges containing ink solvents and additives used in ink-jet printers and printing machines;

protective and decorative chemicals for surface coating, in the form of dispersions of resins and additives, for application by machines to the surface of objects, namely resins, varnishes, inks and additives for surface coating for application by machines to the surface of objects; chemicals materials, such as resins, varnishes, inks and additives for coatings applied by machines; chemicals in film form used in the printing of holograms

Cl. 7 Machines and machine tools, namely printing machines; ink-jet printing machines; marking machines; printing, marking and coding machines for products and product packaging; ink-jet printers; thermal printers; thermal transfer printers; label printers; printing machines using impact, ink-jet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags),

boxes, pallets, products and product packaging; ink-jet printheads; ink-jet printer printheads; thermal printheads; label applicators; label printing, affixing and application machines; applicators of radio frequency identification markers (tags); applicators of intelligent labels; machines for applying protective and decorative coatings to surfaces;

printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers,

computer operating programs for use therewith, optical devices for guiding and aligning laser beams); machines and machine tools, namely programmable thermal transfer coders; machines and machine tools, namely readers and coders of radiofrequency identification markers (tags); machines and machine tools, namely readers and coders of intelligent labels

Cl. 9 Printing and marking machines for creating machine-readable and/or human-readable codes in the form of labels or directly on products or on product packaging material; machines and machine tools, namely laser coders for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, product packaging (including laser sources, electrical power units, computers,

computer operating programs for use therewith, optical devices for guiding and aligning laser beams); coders with programmable thermal transfer; controllers for ink-jet printers; controllers for ink-jet printheads; controllers for thermal printers; controllers for thermal printheads; label applicators; readers and coders of radio frequency identification markers (tags); applicators of radio frequency identification markers (tags);

readers and coders of intelligent labels; applicators of intelligent labels; control and verification devices for printing machines, ink-jet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, ink-jet printers, thermal printers, thermal transfer printers, label printers, printers with ink-jet printing and programmable thermal transfer coders,

printing machines using impact, ink-jet, ink roller, thermal transfer, percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators of intelligent labels, laser coders for marking and coding;

electronic controllers for printing machines, ink-jet printing machines, marking machines, machines for printing, marking and coding machines, machines for marking and coding products and product packaging, ink-jet printers, thermal printers, thermal transfer printers, label printers, ink-jet printers and programmable thermal transfer coders, printing machines using impact, ink-jet, ink roller, thermal transfer,

percussion and laser for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging, readers and coders of intelligent labels, applicators or intelligent labels, laser coders for marking and coding; all the above goods being linked to a computer; electronic controllers for conveyors used to move articles in front of an ink-jet printing station;

electronic overprinting machines for printing batch codes, expiry dates, bar codes and/or variable information directly on packaging materials, labels and goods; software for creating product identification or coding information, monitoring software for printing machines, product identification and traceability management software, database software for product identification, interactive traceability systems for industrial goods;

computer programs for generating laser markings and printing goods for others; computer programs for configuring and controlling printing systems; computer programs for formatting data in a printable format; computer programs for controlling machines for marking and coding by laser and for printing; computer programs for synchronising and checking data originating from multiple sources; computer programs for preparing reports in graphic format or texts for management of logistical chains and of goods manufacture and of compliance with regulations; computer programs for marking and coding products and product packaging and for controlling marking and coding machines; radio frequency identification markers (tags); intelligent labels containing identification information or information sensors; printers; ink-jet printers;

printers for marking; printers for printing, marking and coding products and product packaging; thermal printer units; thermal transfer printers; label printers; impact, ink-jet, ink roller, thermal transfer, percussion and laser printers for marking and coding information, drawings, logos, bar codes and messages on labels, markers (tags), boxes, pallets, products and product packaging; ink-jet printer printheads; thermal printheads;

ink-jet printheads; printers for printing, affixing and application of labels; printers for application of protective and decorative coatings to surfaces

Cl. 16 Ribbons for thermal transfer printers; labels for label printers, labels for label printing, affixing and application systems

Cl. 37 Installation, repair, maintenance and servicing with regard to the goods mentioned above in classes 7 and 9; technical assistance services, namely diagnostics and breakdown maintenance for the goods mentioned above in classes 7 and 9

Cl. 40 Assistance services for recycling printers, print machines, laser encoders, readers, printing machines, marking machines and encoding machines; consumable supply packaging refilling, disposal of waste from consumable supplies in the field of marking, printing, industrial encoding and product identification

Cl. 42 Consultancy services regarding computer engineering in the field of marking, printing, industrial encoding and product identification; updating of computer software in the field of marking, printing, industrial encoding and product identification; rental of the goods mentioned above in classes 7 and 9

Cl. 9 Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity; apparatus for recording, transmission or reproduction of sound or images;

magnetic data carriers, recording discs, automatic vending machines and mechanisms for coin-operated apparatus; cash registers, calculating machines, data processing equipment and computers; compact discs (read-only memory); compact discs (audio, video); magnetic data carriers; floppy disks; optical data media; computers; computer peripheral devices; computer hardware; computer networks; computer equipment; data processing apparatus;

computer programs and programming languages; computer software in connection with information services in a computer network; computer software for searches and information queries, sites and other sources which are available, in particular, via the Internet, intranet; game programs for computer, operating systems for computers;

computer software, namely directories with information, sites and other sources which are available via Internet, intranets; computer software for transmission via email; computer software for enabling multiple user access to computer networks; computer software for generating and designing web sites; computer software for generating and designing web catalogues;

communications networks for computers for accessing information in a computer network, in particular, in the Internet, intranet

Cl. 35 Advertising; business management services; business administration; office functions; auctioneering via a computer network, in particular via the Internet or intranets; providing business information via the Internet, intranet; computer file management; systemization of information into computer databases; presentation of goods in communications media, for retail purposes, in the Internet, intranet; data search in computer files for others;

advertising and marketing via a computer network, in particular via Internet, intranet; updating of advertising material; news clipping services, publicity material rental; rental of advertising space in a computer network, in particular, in the Internet, intranet; publicity columns preparation; compilation of information into computer databases, collecting and compiling of topic related press articles (public relations);

compiling, storing, analyzing and retrieving data and information relating to business management; records management services, namely, maintaining and indexing documents for others; providing of retail services in a plurality of fields via a computer network, in particular, via Internet, intranet; selling of a plurality of goods and services via a computer network, in particular, via Internet, intranet;

providing on-line commercial directory information services, in particular providing directories with contents which are available via a computer network, in particular, via Internet, intranet, online directory services as assistance for finding persons, firms, organisations, telephone numbers, addresses, and e-mail addresses;

providing on-line business directory information services, organization of commercial transactions via electronic communication networks

Cl. 38 Telecommunications, in particular transmission of messages, data and other information; providing access to general information via computer networks, computer mailboxes and notice boards on topics of general interest; provision of access to Internet and intranet search engines; Internet services provider services (telecommunications); provision of access to databases; providing access to Internet portals;

Internet or intranet hub services (telecommunications); communications and telecommunications via computer networks, especially via Internet, intranet; telecommunications and communication, in particular, providing news, data and other information, in particular, supplier addresses of an online system as well as their supplying into an online network (search engine); e-mail services; telecommunication services;

electronic transmission of data, pictures and documents via computer terminals and networks; providing on-line facilities for real-time interaction with other computer users (chatrooms and forums), providing access to general information via computer networks, computer mailboxes and pin boards for topics of general interest; transmission of information and entertainment in all media;

providing on-line access to news, weather, sports and current reports as reference materials; electronic mail and news transmission; transmission and broadcasting of information and data via computer networks, in particular, via Internet, intranet; electronic bulletin board services; providing access to a world wide computer network; providing of telecommunications connections to the world wide computer network; providing Internet chatrooms;

services of news agencies; communication services by means of computer terminals; transmission of news and pictures by means of a computer via a world wide computer network; information concerning telecommunication; providing access to databases; providing multiple-user access to a world wide computer network;

transmission of data and documents via computer networks, in particular via Internet, intranet, services with respect to connection nodes in the Internet, intranet; providing access and rental of access time to search, retrieval, indexing, linking and data organization capabilities for computer networks, in particular, for the Internet or intranets, electronic communications networks and electronic databases;

services of an Internet provider (telecommunications), providing access to company owned information collections

Cl. 41 Education; providing of training; entertainment; sporting and cultural activities; game services provided online from a computer network, in particular the Internet or intranets; providing of information relating to sport and news via a computer network, in particular via the Internet or intranets; online publishing of electronic books and periodicals;

booking of seats for shows via a computer network, in particular via the Internet, intranets, club services (education) relating to the Internet, intranets, Internet surfing and websites; online publication of electronic books and journals; booking of tickets (via a computer network, in particular, via the Internet, intranets); online contests and bets; editing printed and electronic publications, providing clubs via the Internet, intranet

Cl. 42 Scientific and technological services and research and design relating thereto; industrial analysis and research services; design and development of computer hardware and software, in particular updating of computer software; computer software consulting; recovery of computer data; installation and copying of computer programs; computer system analyses; computer systems design; rental of databases; computer virus protection services;

providing software for data processing; design and maintenance of websites for others; converting computer programs and data; maintenance of computer software; providing software interfaces via a network for enabling a customer specific access to a computer information network for transmitting and broadcasting of information in the fields of news, science, health, family, home, society, entertainment, sports, education, travelling,

retail and finance information in the form of text, electronic documents, databases, graphic and audio visual information, creating indexes of information, websites and other information sources; provision of search engines for a computer network, in particular, for the Internet or intranet; research services for the development of new products; application service provider;

providing of information relating to the weather via a computer network, in particular, via the Internet or intranets
