**OFFICIAL NOTICE****Trade Marks Goods and Services Classification  
Clarification of practice in relation to the 'retailing or wholesaling of utilities'**

The retailing and/or wholesaling of utilities includes the retailing and/or wholesaling of electricity, energy, gas supply, water supply, telecommunications network access and the like. These claims have, in the past, been raised by IP Australia as being incorrectly classified when claimed in specifications of services in class 35.

Recent advice received by IP Australia from the International Bureau of the World Intellectual Property Organisation has indicated that these claims are acceptable in class 35.

In light of this advice, these claims will be acceptable in class 35 in Australian applications from 12 September 2013.

Retrospective changes will not be made to existing trade mark registrations in other classes. However, where this issue has been raised and the application is currently under examination, the matter may be reconsidered by an examiner at the applicant's request.
