General Information

EDITORIAL ENQUIRIES

All enquiries about official notices, public notices, advertisements and general information in the Journal should be directed to IP Australia, ABN No 38 113 072 755, PO Box 200 Woden ACT 2606
(Telephone 02 6283 2999)
(Fax 02 6283 7999)
(E-mail assist@ipaustralia.gov.au)

Copy for advertisement in the journal should be received at IP Australia, not later than seven days before the desired publication date. If a publication date is not nominated, the advertisement will appear in the next available issue.

ORDERING PATENT DOCUMENTS

When ordering copies of Australian patent specifications, or abstracts and abridgements notified as open to public inspection on or after 26 October 1978, or as accepted on or after 16 November 1978, the documents should be referred to by application numbers only, preceded by the letters AU-A or AU-B respectively.

REQUESTS FOR INFORMATION UNDER SECTION 194 (C)

A request for information under Section 194 (C) of the Patents Act 1990 should be made in the approved form and be accompanied by the prescribed fee. The request should be as detailed as possible.

INFORMATION FROM REGISTERS

All requests for information from the Registers of Patents Trade Marks or Designs, should be made in writing and accompanied by the prescribed fee. The Registers are located in Canberra and may be examined free of charge.

COUNTRY CODES

For a listing of country codes used by IP Australia please refer to the Official Journals dated 7 November 1996.

ABBREVIATIONS IN JOURNAL

Standard abbreviations are used in the names of companies and firms. Enquiries concerning the precise name should be directed to the Customer Support Centre.

FREEDOM OF INFORMATION ACT

What does it do?

Gives you the right to obtain information held by Commonwealth Ministers, Departments and most statutory bodies (these bodies are called agencies under the Act).

Requires Commonwealth Government agencies to make available to members of the public:

- information about agencies, their functions and operations
- information about rules and practices which are used in making decisions which affect you.

Gives you a legal right to:

- see non exempt documents held by agencies, and
- appeal against a decision not to grant access to a document.

What documents can you see?

The Act gives you the right to see documents lodged on or after 1 December 1977, or earlier if you need them to understand another document you have already.

Documents include files, reports, computer printouts, maps, plans, photographs, tape recordings, films and videotapes.

Documents which are available for purchase under the Patents Act 1990, the Trade Marks Act 1995 or the Designs Act 1906 are not available under the Freedom of Information Act (Section 12 refers)

How do you apply?

Requests for access to documents must:

- Be in writing
- Provide sufficient information to enable identification of the documents requested
- Specify an address in Australia where notices can be sent and
- Be accompanied by the application fee (currently \$30.00) or specify an IP Australia account to which the charges will be posted.

Requests for documents should be addressed to IP Australia, PO Box 200 Woden, ACT 2606, or faxed to 02 6283 7999

NOTICE TO ADVERTISERS

The attention of all advertisers and advertising agents is drawn to the provisions of division 1 of Part V of the Trade Practices Act which prohibits various misleading or deceptive conduct and Section 53 provides that a corporation, and in some instances a person, shall not -

- Falsely represent that goods are of a particular standard, quality, grade, composition, style or model or have a particular standard, quality or grade;
- Falsely represent that goods are new;
- Represent that goods or services have a sponsorship, approval or affiliation it does not have;
- Make a false or misleading statement concerning the need of any goods or services; or
- Make a false or misleading statement concerning the existence, exclusion or effect of any condition, warranty, guarantee, right or remedy.

Any breach of Part V of the Act may involve a penalty of up to \$50,000 plus damages and an injunction. Attention is also drawn to State laws that govern advertisements.

Therefore it is an express provision of IP Australia accepting any advertisement that it complies with all State and Commonwealth laws.

REQUIREMENTS FOR ADVERTISEMENTS

Advertisements for publication in the Official Journals can be filed either as hard copy or electronically. Our preference is that they be filed electronically, but please note that they can only be accepted if they are in PDF format or sent as Word documents. All advertisements, whether filed as hard copy or electronically, must be completed either within an A4 page with a 4 cm top and 2 cm side and bottom margin, or within half a page with 2 cm margins all round. If copy does not meet these size requirements and it is necessary to photo reduce it, the quality of the advertisement cannot be guaranteed. All copy must be received by 1:00 pm on Wednesday one week prior to the date of publication. Electronic copy must be sent by e-mail to publications@ipaustralia.gov.au. The charge for a full page advertisement is \$AU 100 and for a half page is \$AU 50.

DECISIONS OF THE COMMISSIONER OF PATENTS AND REGISTRARS OF TRADE MARKS AND DESIGNS

- All decisions of the Commissioner and Registrars are available free of charge from AUSTLII's website www.austlii.edu.au.

Copies of all written Patent and Design decisions are available (except if they would not be available under the provisions of the Freedom of Information legislation, e.g. if they would effectively disclose matter from documents that are not open to public inspection) on request for a cost of \$AU 25. They are also available for inspection in indexed volume series, dating from 1 January 1987, in the Office library, Canberra.

Copies of Trade Mark decisions may be accessed via IP Australia's website www.ipaustralia.gov.au.

- Copies of the taped record of Patent and Design hearings are available (with the same exception as above) on request.
- When a written decision is issued the fact of the decision plus a brief head note will be published in the Official Notices section of the next available Patents, Trade Marks or Designs Journal as appropriate.

HEARINGS BEFORE THE COMMISSIONER OF PATENTS AND THE REGISTRARS OF TRADE MARKS AND DESIGNS

Hearings before the Commissioner of Patents and the Registrars of Trade Marks and Designs will be set down in Melbourne, Sydney, Adelaide, Perth and Brisbane during the periods indicated below.

Patent and Design Matters 2004

Melbourne	10 - 12 May
Sydney	12 - 14 July
Adelaide	3 - 4 August
Perth	5 - 6 August
Brisbane	2 - 3 September

Note: *Ex parte* matters will have priority over other matters for allocation of a hearing in these sessions.

Trade Mark Matters 2004

Melbourne	17 - 21 February 16 - 20 June 15 - 19 September
Sydney	10 - 14 March 21 - 25 July 27 - 31 October
Adelaide	11 - 12 August
Perth	14 - 15 August
Brisbane	28 - 29 August

Persons who desire matters to be set down for hearing in Melbourne, Sydney, Adelaide, Perth or Brisbane must give at least one month's notice of their intention to be heard. If such notice is not given, it may be that there would be insufficient time to allow for the execution of official procedures associated with the listing of hearings, and as a result, the matter involved might not be listed.

Subject to the convenience of this Office, hearings will be set down in Canberra at any time suitable to the parties

GUIDE TO THE USE OF THIS JOURNAL

The Australian Official Journal of Patents (AOJP) reports all major events and actions which take place during the life cycle of an Australian patent and provides certain details of these actions as they relate to the patent or patent application involved. This guide sets out to teach the reader how to use the journal to access this information.

While there are many possible actions in the life of a patent, the majority of actions reported relate to the following events, which are the main stages in the progression of a patent application to a sealed patent:

(i) FILING -

This is the act of making an application. When the application is first filed certain details are published.

(ii) OPEN-TO-PUBLIC-INSPECTION (OPI) -

Approximately 18 months after first filing of an Australian or a corresponding foreign application, certain application documents, including the complete specification, become available to the public (Open-to-Public-Inspection or "OPI"). Relevant application details are published.

(iii) ACCEPTANCE -

This is the Commissioner's acceptance of a patent application. Once the Commissioner has accepted a patent application, certain details of the application are published in the AOJP. Notice of opposition may be filed within three months of advertisement of acceptance.

(iv) OPPOSITION -

If an opposition action is commenced against the grant of the patent, the six-figure acceptance number and the name of the opponent are published. If the opposition is to the Certification of an Innovation Patent, the patent number and the name of the opponent are published.

(v) SEALING -

Most accepted applications are not opposed. These proceed to sealing and become granted patents. Of the few that are opposed (less than 1%) most of these, after resolution of the opposition, proceed to sealing and become granted patents. Sealed patents are simply listed in order of their application number.

(vi) CERTIFICATION-

This is the Commissioner's Certification after passing examination of a previously granted unexamined Innovation Patent.

In addition to the actions related to these stages, other actions reported include: assignments, lapsing or withdrawal of applications and ceasing or expiry of patents, voluntary amendments, extensions of time for certain actions and registration of licences.

How To Identify Information Using "INID" Numbers

Patents are published in many different countries and in many different languages. As a result, finding the information that you want (eg the filing date) on a patent document or in a journal can be quite difficult. There is an international system operating, however, which codifies this information in an unambiguous way, by assigning a specific number to each piece of information about the history of a patent. These numbers are called the **internationally agreed Numbers for the Identification of Data** or INID numbers.

These numbers appear on all published patents and abstracts and are used throughout this journal to identify particular items of information. For example, the date on which a document is filed has the INID number (22), while the name of the applicant has the INID number of (71). These numbers are always expressed in parentheses and always immediately precede the information to which they relate. For example:

(22) 12.10.91

means that the filing date of the document which contains this reference is 12 October 1991. Learning the INID numbers for the information you want will help you find it quickly and easily.

A complete list of the INID numbers and the items to which they relate is provided at the end of this Guide.

How Australian Patent Documents are Numbered

Patent applications in Australia are assigned a number at the filing stage in their processing. Each Australian application will retain the same number throughout its life, though different numbers may be associated to the application. The number will incorporate the year of lodgment then a unique number within the appropriate range.

There will be number ranges for types of patents:

100,000 – 199,999	Innovation
200,000 – 799,999	Standard
800,000 – 899,999	Petty
900,000 – 999,999	Provisional

When searching for information and ordering documents it is vital that you understand the numbering systems.

1. **Provisional Applications** are given a ten-figure number

e.g. 2002901123

A provisional application number is identified by the INID number (21).

2. **Complete and Innovation Applications** are also given a ten-figure application number

e.g. 2002200345 Standard

There are prefixes applied to this number which indicate whether the application has been accepted:

A document corresponding to an unaccepted application has the prefix, AU-A; eg AU-A-2002200234.

A document corresponding to an accepted application carries the prefix AU-B; eg AU-B-2002200234.

Users need to be aware that an accepted document may differ from the corresponding unaccepted document. This is because amendment may occur between first publication (OPI) and second publication (acceptance).

A ten-figure application number is identified by the INID number (21).

NOTE When ordering any patent document from us, whether accepted or not, please quote the ten-figure application number preceded by the appropriate prefix.

Arrangement of Information in the Journal

For each of the categories

- (i) Provisional Applications Filed,
- (ii) Complete Applications Filed,
- (iii) Applications Open to Public Inspection
- (iv) Applications Accepted, and
- (v) Innovation Patent Certified.

The Journal lists the information published in that category in an alphabetical Name Index list based on the name of the applicant. These indices are useful if you wish to find information about applications made by a particular applicant.

In addition to the Name Index there is provided, for each of these categories, a Numerical Index. This index lists the applications either in order of their five-figure Application Numbers, in the case of complete applications filed and applications OPI, or in order of their six-figure Document Number in the case of accepted applications. It provides, for each number, the name of the applicant. These indices are useful if you wish to track the progress of a particular patent application.

There are also IPC Indices provided for applications which are OPI and for applications which have been accepted. IPC stands for International Patent Classification. Each IPC "mark" is an alpha-numerical representation of a particular area of technology. These indices are in order of IPC mark, and within each mark provide either the five-figure application numbers of the application which are now OPI or the six-figure numbers of the cases now accepted. These indices are useful if you wish to check on patent activity in a particular technology.

Using the Indices

1. To Find Patent Information if You Know the Name of the Applicant.

Use the Name Indices. They will give you the following information identified by their INID number:

<u>ITEM</u>	<u>INID</u> <u>No.</u>	<u>ITEM</u>	<u>INID</u> <u>No.</u>

Related by division	(62)

You will notice at each stage of following application through that all applications are in alphabetical order of **Applicant**, not inventor.

2. To Find Information About a Patent Application if You Know its Number.

Use the appropriate numerical index. This will give you the name of the applicant from the number. You will then need to use the appropriate Name Index as above to find out other information about the Patent Application you are interested in.

The following Numerical Indices are available:

- A) **Provisional** Applications filed.
- B) **Complete** Applications filed.
- C) Innovation Applications filed.
- D) Applications **Open to Public Inspection**.
- E) Applications **Accepted**.
- F) Innovation Patent **Certified**

3. To Find Information About Patent Documents in the Area of Technology in which You are Interested if You Know the International Patent Classification Mark for that Area.

All patent applications are classified according to their subject matter using the International Patent Classification (IPC). Although the system is very detailed and covers all technologies, knowledge of the IPC marks of the technologies you are interested in will allow you to find patent documents in these technologies quite easily. To identify the IPC marks of technologies you are interested in, you can inspect relevant documentation in any of AIPO's state offices.

The indices to use are

- A) Applications **OPI** - IPC Index
- B) Applications **accepted** - IPC Index.

These indices give you the numbers of the applications which are either OPI or Accepted and are listed in order of their IPC marks.

Once you have the numbers of the documents that interest you, consult the relevant Number Index (see 2. above) to find the applicant's name, and then the Name Index (see 1. above) to find out the details of that application.

'INID' NUMBERS in use on Australian Patent Documents

'INID' is an acronym for 'Internationally agreed Numbers for the Identification of Data'.

(10) Document identification

- (11) Number of the document
- (12) Plain language designation of the kind of document
- (19) WIPO country code, or other identification, of the country publishing the document.

(20) Document filing data

- (21) Number(s) assigned to the application(s).
- (22) Date(s) of filing application(s)
- (23) Other date(s) of filing, including exhibition filing date and date of filing complete specification following provisional specification.
- (24) Date from which industrial property rights may have effect.

(30) Priority data

- (31) Number(s) assigned to priority application(s)
- (32) Date(s) of filing priority application(s)
- (33) Country (countries) in which the priority application(s) was (were) filed.

(40) Date(s) of making available to the public

- (43) Date of publication by printing or similar process of an unexamined document, on which no grant has taken place on or before the said date.
- (44) Date of publication by printing or similar process of an examined document, on which no grant has taken place on or before the said date.
- (45) Date of publication by printing or similar process of a document, on which grant or certification has taken place on or before the said date.

(50) Technical Information

- (51) International Patent Classification
- (52) Domestic or national classification
- (54) Title of invention
- (56) List of prior art documents, if separate from descriptive text
- (57) Abstract or claim

(60) Reference(s) to other legally related domestic document(s)

- (60) Related by cognate(s).
- (61) Related by addition(s).
- (62) Related by division(s).

(70) Identification of parties concerned with the document

- (71) Name(s) of applicant(s)
- (72) Name(s) of inventor(s) if known to be such
- (74) Name(s) of attorney(s) or agent(s)
- (75) Name(s) of inventor(s) who is (are) also applicant(s)

(80) Identification of data related to International Conventions other than the Paris Convention

- (86) PCT Application Number
- (87) PCT Publication Number

NOTE

- (1) Australian patent documents published on or after 26 October 1978 should be referred to by the application number preceded by the prefix AU-A or AU-B.

AU-A = Pre-examination

AU-B = Post-examination

- (2) The classification used is the International Patent Classification and is identified by the INID code (51). Further editions of the classification are identified as (51)², (51)³, (51)⁴ and (51)⁵.
- (3) INID code 74 provides for the name of the patent attorney, or firm of attorneys, prosecuting an application.

Official Notices

PCT Rule Change

On 1 January 2004 extensive changes to the PCT Rules enter into force. Most of these changes were previously advised in an Official Notice dated 24 October 2002, and what follows is largely a reiteration of the relevant parts of that Notice. These changes have come about as part of a process of reforming the PCT. One of the first changes in the reform process was to change the time for national phase entry to 30 months for all applications - whether or not a Demand was filed. One of the most significant changes now made - that of establishing an Opinion at the time of issuing the ISR - arises as a consequence of that earlier change.

What follows is a practical summary of the changes that have been made, including some implications for applicants that may not be self-evident from the rule changes. The summary has been prepared in the context of IP Australia as a PCT Authority. Of course, for definitive information about the rule changes applicants should refer to the Rules themselves - which may be obtained from the WIPO web site.

Text of the Rules:<http://www.wipo.int/pct/en/texts/index.htm>

More info on PCT reform: <http://www.wipo.int/pct/reform/en/index.html>

Designation of All countries

A PCT application will be deemed to have designated all countries that are party to the PCT on the date of filing the application. The Request form will not allow for the designation of selected countries. This will apply to all applications filed on or after 1 January 2004 [**Rule 4.9(a)(i)**]

A direct corollary of this is that every PCT application filed after 1 January 2004 will be an Australian application. Accordingly there will be no need to allocate an Australian application number to identify those PCT applications that have designated Australia.

The application will be taken as being for every type of application (including regional patents) that are available under the PCT for each of the Designated countries. The choice of which type of protection (including more than one type of protection) will be made at the time of national phase entry. In the absence of any indication, the application will be taken as being for the grant of a standard patent. [Note. These changes do not restrict the applicant's ability to change the type of application that would otherwise be available after national phase entry.] [**Rules 4.9(a)(ii) and (iii); 49bis**]

Four countries have been identified where, if :

- The priority application is made in that country; and
- The PCT application designates that country

the priority application is deemed withdrawn. Those countries are Germany, Japan, Republic of Korea, and the Russian Federation. The automatic designation of all states creates a potential problem in these countries, in that the priority application would necessarily be deemed withdrawn in that country if a PCT application were filed claiming priority from it.

The Rules include a transitional reservation mechanism that (if invoked by the country concerned) will allow applicants in such circumstances to not designate that country. In that event, the Request form will include a location to indicate the non-designation of that country. Only Germany, Republic of Korea and the Russian Federation have made this reservation. Accordingly PCT applicants whose application claims priority from a Japanese application will need to decide whether to allow the priority application to lapse, or withdraw the designation of that country under Rule 90bis.2. Any withdrawal of designation will need to be effected before the date at which the priority application is deemed withdrawn.

NOTE that this issue only arises in the context of applications claiming priority from DE, JP, KR or RU applications. Accordingly, it should not be a practical issue for PCT applications filed with IP Australia. [**Rule 4.9(b)**]

There will be no 'Designation fees'. Rather, the current *Basic fee* and *Designation fee* will be replaced with a single *International filing fee*. The whole fee will be due within 1 month of filing. If it is not paid in that time, the receiving Office will issue an invitation to pay the fee - including a late payment fee. [Note that the option presently available in certain circumstances, to pay Designation fees at a later date, will not exist.] [Rule 15.1; 15.4; 16bis].

It is expected that pamphlets will cease to individually identify all designated states. Rather, in the box identifying designated states, a phrase such as "all States bound by the Treaty on the international filing date of this application" is likely.

Election of All countries

A Demand for Preliminary Examination will be deemed to have been elected all designated countries. The Demand form will not allow for the election of selected countries. The possibility of 'later elections' (Rule 56) is removed. This will apply to all Demands filed on or after 1 January 2004. [Rule 53.7]

The requirements of the Demand, *vis-à-vis* applicant details and signature, are the same as for the Request. [Rule 60.1(a-bis)]

Applicant details

Under Rule 4.5, the names of each of the applicants must be identified. In the case of applications that are intended to proceed in the USA, it is essential that ALL inventors be named as inventor/applicants.

[NOTES re US National phase

- *The US patent system requires the applicants be the actual inventors.*
- *As a general matter, a US application cannot be made by an Assignee applicant (eg. a company.) If the only applicants listed are assignee applicants, the application will be unable to enter the national phase in the US.*
- *For the purposes of the US national phase, the inventors should at least be identified on the request form as "applicant/inventor (US only)" - although naming them merely as "inventor" may be sufficient.*
- *Failing to name (or misnaming) the inventors will invalidate the US patent application, unless it was done in error and without deceptive intent.*
- *Accordingly, applicants should ensure that the names of ALL inventors are included on the PCT Request form. Any decision to deliberately not name inventors should only be taken after obtaining professional advice.]*

A range of details has to be provided for each applicant - see rule 4.5. In the past, if those details were not provided, an Art.14 defect notice would be issued. Under the new rules, an Art.14 defect notice will not issue if the details are provided for at least ONE applicant. [However, the obligation to provide those details in the national phase - if required - remains.]

[Rule 26.2bis(b); 51bis.1(vi) and (vii)]

Where the applicants want the application to proceed using a 'Common Representative', that Common Representative may only be an applicant for which all the details under Rule 4.5(a) to (c) have been provided. Similarly, where there is no appointment of Agent or Common Representative, the first applicant with those detail provided will be taken to be the Common Representative. [Rule 90.2]

Signature requirements; Power of Attorney; Withdrawals; Assignments

The request will only need to be signed by one of the named applicants. [Rule 26.2bis(a)]

RO's, ISA's, and IPEA's may waive the requirement for a power of attorney to be submitted to it. **IP Australia has notified the IB that it will be making that waiver.** This will mean that for PCT applications filed by an attorney before IP Australia, the only signature required will be that of the attorney on the request form. [Rule 90.4(d)]

Important Note

Offices are **unable to waive** the requirement for a Power of Attorney in respect of **any withdrawals under Rule 90bis** - that is, withdrawals of the application, designations, priority claim, Demands or elections. Either all applicants must sign the notice of withdrawal, or the attorney effecting the withdrawal must also provide a power of attorney signed by all applicants. Note that as all applications will necessarily designate the US, and the US will treat any named inventors as being applicants for the purpose of the US, it will be necessary to have the signatures of all named applicants AND inventors in order to effect any of these withdrawals. [For this reason (only), if at the time of filing the applicant has **absolutely no intention of proceeding in the national phase in the US**, it may be advisable not to list the inventors on the Request Form. However, any decision to deliberately not name the inventors should only be taken after obtaining professional advice - as that decision will prevent the application from proceeding in the US if the applicant changes their mind.] **[Rule 90bis.5]**

Rule 92bis changes (such as assignments) are not *per se* affected by the changes to the rules - and in particular, a power of attorney will not be required as a precondition to recording a 92bis change.. However, the current practice of the International Bureau - of advising the 'old' parties of any changes, and reversing the change if they receive an objection, will be formalised in the Administrative Instructions.

It should be noted that the Rule 92bis process is designed to record 'consensual' changes. It is not designed to deal with resolution of disputes, or enforcement of equitable rights. Where the change is clearly unlikely to be consensual, IP Australia will not record changes without the clear agreement of any adversely affected party. Examples of this include:

- Removing the name of one or more applicants (or inventors, who are applicants because the US is designated). This is irrespective of allegations of they having been included because of a mistake. Agreement of the person being excluded is required.
- Adding another applicant (especially if requested by a different attorney). Agreement of the applicants of record is required.

Expanded International Search Report

For applications filed on or after 1 January 2004, the International Search Report will include an "International Search Opinion". **[Rule 43bis.1(a)]**

The opinion will cover all issues that are covered under Preliminary Examination. **[Rule 43bis.1(b)]**.

Following the establishment of the International Search Report, the applicant will have the following options:

1. Take no further action.

The International Search Opinion will be re-issued by the International Bureau, as an "International Preliminary Examination Report on Patentability (Chapter I)" This will occur at 30 months from the priority date. Prior to that date, the opinion will be confidential. **[Rule 44bis.1]**

2. Provide written comments to the International Bureau

The rules will not provide any formal mechanism for this. But the applicant may provide written comments *to the IB*, which will be included with the "International Preliminary Examination Report on Patentability (Chapter I)" when the International Bureau issues it. It should be noted that the applicant would bear the responsibility for ensuring that the submissions are translated as required in the national phase.

3. File a Demand for Preliminary Examination

The time for filing the Demand will be 22 months from the Priority date, or three months from the date of the ISR - whichever is the later. Demands filed after this date will be deemed not filed. **[Rule 54bis]**

[Note that for those countries that have not yet changed to 30 months for national phase entry, the requirement to file a Demand by the end of the 19th month in order to defer national phase entry to 30 months remains.]

The International Search Opinion is taken to be the first opinion under Preliminary Examination - irrespective of which Authority established that Opinion. While there is a reservation mechanism for this, it is not expected that any Authority will make that reservation.

[Rule 66.1bis]

As the Demand will be, in effect, a response to the first written opinion, it will be important for applicants to ensure that amendments (or at least persuasive arguments) are filed - either with the Demand, or before the end of the time limit for filing the Demand. In the absence of amendments or arguments, the Report will be established on the basis of the International Search Opinion - without any correspondence being entered into - on the assumption that the Demand has been filed solely to obtain the benefit of 30 months national phase entry date in certain countries.

*One issue that arises is the obligation of the Examining Authority to issue a further written opinion in the event that the Report will be negative. Under Rule 66.2(a) the Examining Authority must provide a first written opinion if the Report would be negative in any respect. There is no **obligation** to provide a further written opinion following a response [**compare rule 66.4**]. However, under this new regime the International Search Opinion is the first opinion under Preliminary Examination, and the obligation under Rule 66.2(a) is exhausted by way of that opinion. It would seem that some Examining Authorities may, under pressures of workload, minimise the number of opinions that are issued to the extent that there is generally no further opinion issued after the Demand is filed (i.e. the Report is established). However, IP Australia will continue to issue further opinions if the report will be adverse, so long as (i) there is time remaining and (ii) progress is occurring, or is likely.*

The time limit for completing Preliminary Examination will be the later of 28 months, or 6 months from when Preliminary Examination is started. It may be expected that the 28 month date will apply generally except for offices with severe backlog problems. **[Rule 69.2, 69.1]**

Following completion of the preliminary examination, the Report will be communicated to elected offices after 30 months. The International Search Opinion will not be published as such, as is the case for opinions under Preliminary Examination. **[Rule 73, 44ter]**

Availability of the Search Opinion

- The Expanded International Search Opinion is not publicly available from the IB or the ISA before the end of 30 months. **[Rule 44ter]**
- It will be automatically communicated to Offices after 30 months, after having been converted by the International Bureau into an International Preliminary Report on Patentability (Chapter I of the PCT). However, if Preliminary Examination has occurred the opinion will not be converted to a Report. Rather the report under Preliminary Examination will be communicated to Offices after 30 months, as an **International Preliminary Report on Patentability (Chapter II of the PCT)**. **[Rule 44bis]**
- If the applicant enters national phase early, those Offices can request a copy of the Expanded International Search Opinion following national phase entry. Public access to the Opinion is governed by the national law of the country; in Australia, it would be OPI when the application was OPI following national phase entry.

Communication on Request

The great increase in PCT filings over the last decade has resulted in some fundamental changes in the way PCT applications are communicated to Offices. Whereas in the early days of the PCT, a paper copy of each specification was sent to each designated office, that is not now the case.

The International Bureau is currently developing a computer system that will enable Offices to selectively obtain all the documents necessary to process the application in the national phase. A number of rule changes are being made to formalise this process, and to provide the applicant with certainty in this environment about whether or not the communication under Art 20 has occurred (an issue that is important for a small number of designated offices, including the USPTO - but not IP Australia) **[Rules 47 {esp. 47.1(e)}, 61.2, 93bis]**

Effect of Local Holidays

The PCT Assembly in September of this year (2003) adopted an amendment to Rule 80.5 which deals with the computation of time limits in the case of non-working days or official holidays. The amendment was jointly developed/proposed by AU/CA/EPO is designed to address a deficiency in current Rule 80.5, which does not clearly deal with the situation where a country is large and the ability to file under national laws is different in different localities. The difficulty with Rule 80.5 is that it simply applies a test of whether 'the office' is open for the transaction of official business.

The situation for Australia, and the EPO, is that there are 'offices' of the Office in different locations. In the situation where some, but not all, are closed for business, there is a problem with asserting that 'the Office' is closed for business. The EPO has offices in Munich and in Bonn; and under the EPC, if one office is closed, then for the purpose of computing the expiration of a time period both offices are, in analogy to the Australian situation, deemed to be closed. Both situations are inconsistent with current Rule 80.5.

The situation in Canada is somewhat different. Canada only has one office. However applicants are able to file applications in offices of Industry Canada in the various provinces. And Canadian law recognizes the effect of the local holiday in the various provinces. This is different to the AU/EPO situation – in that there is only one office, but local law provides for filing by other means, and recognizing the local holiday.

The amendment to Rule 80.5 is the addition of two paragraphs. Paragraph (c) relates to the AU/EPO situation. Paragraph (d) relates to the Canadian situation. The effect of these two paragraphs is to recognize the effect under the PCT of a local holiday in the same manner as would apply for a national filing in that country.

Official Notices**Fee changes consequent upon PCT Rule Changes**

In consequence of the changes to PCT Rules entering into force on 1 January 2004, it has been necessary to amend certain of the fees applying to international applications. Those fee changes are as follows:

International Filing Fee* (Rule 15.2 of the PCT)	1,400 Swiss francs plus 15 Swiss francs for each sheet of the international application in excess of 30 sheets
Handling fee (Rule 57.2 of the PCT)	200 Swiss francs
Search fee under Rule 16 of PCT	\$1,200
Additional fee for search under Article 17(3)(a) of the PCT	\$1,200

* The international fee is reduced by 100 Swiss francs if the international application is, in accordance with and to the extent provided for in the Administrative Instructions under the PCT, filed on paper together with a copy in electronic form.

In addition to the above changes, IP Australia has amended its agreement with WIPO to now provide refunds of 25% and 50% where IP Australia benefits from an earlier search which it conducted.

Official Notices**IP Australia Christmas Holiday Close Down****25 December 2003 - 1 January 2004**

IP Australia's Certified Agreement provides for a Christmas close down period between Christmas Day and New Year's Day. This means that the majority of IP Australia's staff will be on leave for the period 25 December 2003 until 1 January 2004 inclusive. Please note that Friday 2 January 2004 has **not** been declared a public holiday and is not covered by the Christmas 'Close Down' provisions and will be business as usual.

However 30 and 31 December are not public holidays for the purposes of the Patents, Trade Marks or Designs Acts. This means that **all deadlines that fall due on the 30 and 31 December will still need to be met by customers.**

In order to provide essential services to our customers on the days of 30 and 31 December, minimum staffing will be maintained. State Offices will remain open during this period to receive applications, payments and other documents and to provide searching facilities. Our Customer Service Number 02 6283 2999, will also be available to answer enquiries.

However all processing and examination work will occur outside of this period.

To assist us to deal with urgent matters, customers are requested to send all non-urgent work outside of the Christmas close down period.

Where critical deadlines fall due on a day during the Christmas close down (25th December 2003 to 1st January 2004), customers are requested to undertake necessary action **prior** to the Christmas close down. Some examples of these critical deadlines include:

the 21-month finalisation date for patent examination;

- to respond to place a design application in order for registration;

urgent requirement for a certified copy;

the end of the 6 month period in which a person may file an application for registration of a trade mark in Australia and claim a right of priority from an application they filed overseas in a convention country for the same trade mark;

- final date for acceptance of a trade mark;

the end of the 15 month period in which a request for deferment of acceptance of a trade mark application may be made.

If this is not possible and customers need to take action on 30 or 31 December, our Customer Service staff will be available to assist on 02 6283 2999.

If you have any specific enquiries regarding the close down period please contact:

Complete Specifications Treated as Provisional Specifications, Section 37

2003

2003261805 **Abbott, P.** Provisional Number: 2003906556

Change of Name(s) of Applicant(s), Section 104

2001

2001268746 **ABB Power T&D Company Inc** The name of the applicant has been changed to **Asea Brown Boveri Inc.**

2001268746 **Asea Brown Boveri Inc.** The name of the applicant has been changed to **ABB Inc.**

2002

2002214566 **Westvaco Corporation** The name of the applicant has been changed to **MeadWestvaco Corporation**

2002244534 **U.S. Filter Wastewater Group, Inc., and Seitzschken Filtersystems GmbH** The name of the applicant has been changed to **U.S. Filter Wastewater Group, Inc.; Pall Seitzschken Filtersystems GmbH**

2002254119 **Gray Matter Holdings, LLC.** The name of the applicant has been changed to **180s, Inc.**

2002303869 **Inhale Therapeutic Systems, Inc.; Shearwater Corporation** The name of the applicant has been changed to **Inhale Therapeutic Systems, Inc.; Nektar Therapeutics AL, Corporation**

2002313925 **Megg Associates** The name of the applicant has been changed to **CRISNet, Inc.**

2002313953 **Megg Associates** The name of the applicant has been changed to **CRISNet, Inc.**

2002313974 **Megg Associates** The name of the applicant has been changed to **CRISNet, Inc.**

Assignments before Grant, Section 113

2001

2001243148 **Lexigen Pharmaceuticals Corp** The application has been assigned to **Merck Patent GmbH**

2001253759 **Lockheed Martin Mission Systems** The application has been assigned to **Lockheed Martin Corporation**

2001258228 **Novo Nordisk A/S** The application has been assigned to **Novo Nordisk Health Care AG**

2001259802 **Atlantes Services, Inc.** The application has been assigned to **Vistant Corporation**

2001271626 **Schmalbach-Lubeca AG** The application has been assigned to **Amcors Limited**

Assignments before Grant, Section 113

2001273214 Boston Scientific Corporation The application has been assigned to **Scimed Life Systems, Inc.**

2001274274 Ensay Limited The application has been assigned to **Pabsay Investments Limited**

2001276514 CereStem Limited; Imperial College of Science, Technology and Medicine The application has been assigned to **CereStem Limited**

2002

2002213661 Taximedia Pty. Ltd. The application has been assigned to **Total Cab Media Pty. Ltd**

2002233101 Eldom Rothrist AG. The application has been assigned to **ETNA Vending Technologies b.v.**

2002233902 Reddo Networks AB The application has been assigned to **Operax AB**

2002246733 Sunol Molecular Corporation The application has been assigned to **Altor Bioscience Corporation**

2002300674 Mach30 Pte Ltd; Singapore Technologies Pte Ltd The application has been assigned to **Trusted Board Ltd**

2002301248 Bethlehem Steel Corporation Inc. The application has been assigned to **ISG Technologies Inc.**

2002303160 Nelson, Alan The application has been assigned to **Visiongate, Inc.**

2002303869 Inhale Therapeutic System Inc; Nektar Therapeutics AL, Corporation The application has been assigned to **Nektar Therapeutics; Nektar Therapeutics AL, Corporation**

2002304270 Kosashvili, Yona; Robinson, Dror The application has been assigned to **Orthogon Technologies 2003 Ltd.**

2002338660 Nextran, Inc. The application has been assigned to **Mayo Foundation for Medical Education and Research**

2003

2003900549 Patton, Stuart The application has been assigned to **Hagar Electro S.A.S.**

2003900880 Hayes, William The application has been assigned to **Winplus Australia Pty Ltd**

2003902914 B & A for Scientific Research Ltd The application has been assigned to **Global Phytoganics Ltd.**

2003905008 AP Cheah Management Pty Ltd The application has been assigned to **Cheah, Aik Pin**

Extensions of Time, Section 223**Applications Received**

Notice of opposition under Section 223(6) to the undermentioned application(s) for an extension of time may be lodged at the Patent Office within the prescribed time.

2001

2001252018 **Stokes, J.** An application to extend the time from 20 Nov 2002 to 20 Oct 2003 in which to enter the national phase has been filed. Address for service in Australia - James Stokes 45 Hawdons Rd Moruya NSW 2537

Section 223(1) Allowances**2003**

2003100516 **Hatchman, C.; Sol, D.** The time in which to comply with Regulation 3.2B has been extended to 13 Oct 2003

Amendments, Section 104**Amendments Made****2001**

2001251402 **Sterling Commerce, Inc.** The nature of the amendment is: Amend the name of the applicant/patentee from Sterling Commerce (Northern America), Inc. to Sterling Commerce, Inc.

2001255517 **Sterling Commerce, Inc.** The nature of the amendment is: Amend the name of the applicant/patentee from Sterling Commerce (Northern America), Inc. to Sterling Commerce, Inc.

2001255774 **Sterling Commerce, Inc.** The nature of the amendment is: Amend the name of the applicant/patentee from Sterling Commerce (Northern America), Inc. to Sterling Commerce, Inc.

2001257048 **Becton, Dickinson and Company** The nature of the amendment is: Amend the name of the applicant from Becton Dickinson and Company to Becton, Dickinson and Company

2001297971 **Becton, Dickinson and Company** The nature of the amendment is: Amend the name of the applicant from Becton Dickinson and Company to Becton, Dickinson and Company

2002

2002234761 **Amersham PLC** The nature of the amendment is: Add co-inventors Bacon, Edward Richard; Desai, Vinay Chandrakant; Kasina, Sudakar and Wolfe, Henry Raphael.

2002242894 **Phytotech Limited** The nature of the amendment is: Add priority details P020101170 27 Mar 2002 AR.

2002245362 **The Regents of the University of California** The nature of the amendment is: Amend the priority details to 10/066424 31 Jan 2002 US.

2002246593 **The Board of Regents of the University of Nebraska** The nature of the amendment is: Amend the name of the co-inventor from Faulamnn, Grit to Faulmann, Grit

2002258934 **The University of Vermont** The nature of the amendment is: Add co-inventor Brummel, Kathleen E.

Amendments, Section 104

2002300115 **WebFM Pty Ltd** The nature of the amendment is:
Amend inventor name from Smith, Stuart to Smith, Stuart James Roy.

2003

2003100762 **Lagias, J.** The nature of the amendment is: To proceed as application number 2003906506

2003204970 **Modernfold, Inc.** The nature of the amendment is:
Amend the priority details to 10/601969 23 Jun 2003 US.

2003213472 **Parietti, P.** The nature of the amendment is: Amend the name of the applicant/patentee from Poliauto di Pietro Parietti & C.S.n.c. to Pietro Parietti.

2003262316 **Goonetilleke, L.** The nature of the amendment is:
Amend the associated provisional details to 2003904243 12 Aug 2003 AU.

2003262316 **Goonetilleke, L.** The nature of the amendment is:
Amend the name of the applicant/patentee from Laleendra Goonetilleke to Laleendra Mike Goonetilleke.

2003904802 **Johnson, W.** The nature of the amendment is: Amend the name of the applicant from William Ryan Johnson to William Alistair Johnson

2003906075 **Pavlina, T.** The nature of the amendment is: Amend the invention title to read Door Vice
