GUIDE TO THE USE OF THIS JOURNAL

The Australian Official Journal of Patents (AOJP) and the Supplement to the AOJP reports all major events and actions which take place during the life cycle of an Australian patent and provides certain details of these actions as they relate to the patent or patent application involved. This guide sets out to teach the reader how to use the journal & supplement to access this information.

While there are many possible actions in the life of a patent, the majority of actions reported relate to the following events, which are the main stages in the progression of a patent application to a granted patent:

(i) FILING -

This is the act of making an application. When the application is first filed certain details are published.

(ii) OPEN-TO-PUBLIC-INSPECTION (OPI) -

Approximately 18 months after first filing of an Australian or a corresponding foreign application, certain application documents, including the complete specification, become available to the public (Open-to-Public-Inspection or "OPI"). Relevant application details are published.

(iii) ACCEPTANCE –

This is the Commissioner's acceptance of a patent application. Once the Commissioner has accepted a patent application, certain details of the application are published in the AOJP. Notice of opposition may be filed within three months of advertisement of acceptance.

(iv) OPPOSITION –

If an opposition action is commenced against the grant of the patent, the application number and the name of the opponent are published. If the opposition is to the Certification of an Innovation Patent, the patent number and the name of the opponent are published.

(v) GRANTING –

Most accepted applications are not opposed. These proceed to grant and become granted patents. Of the few that are opposed (less than 1%) most of these, after resolution of the opposition, proceed to grant and become granted patents. Granted patents are simply listed in order of their patent number.

(vi) CERTIFICATION

This is the Commissioner's Certification after passing examination of a previously granted unexamined Innovation Patent.

In addition to the actions related to these stages, other actions reported include: assignments, lapsing or withdrawal of applications and ceasing or expiry of patents, voluntary amendments, extensions of time for certain actions and registration of licences.

How To Identify Information Using "INID" Numbers

Patents are published in many different countries and in many different languages. As a result, finding the information that you want (eg the filing date) on a patent document or in a journal can be quite difficult. There is an international system operating, which codifies this information in an unambiguous way, by assigning a specific number to each piece of information about the history of a patent. These numbers are called the **Internationally agreed Numbers for the Identification of Data** or INID numbers.

These numbers appear on all published patents and abstracts and are used throughout this journal to identify particular items of information. For example, the date on which a document is filed has the INID number (22), while the name of the applicant has the INID number of (71). These numbers are always expressed in parentheses and always immediately precede the information to which they relate. For example:

(22) 12.10.91

means that the filing date of the document which contains this reference is 12 October 1991. Learning the INID numbers for the information you want will help you find it quickly and easily. A complete list of the INID numbers and the items to which they relate is provided at the end of this Guide.

How Australian Patent Documents are Numbered

When searching information or ordering documents it is vital that you understand the numbering system.

Document Numbering in the **Australian Official Journal of Patents**

Australian provisional applications are assigned a 2 letter code followed by 4 digits. This is a unique series of numbers. Australian patent applications are assigned a unique series of 5 digit numbers followed by the year of lodgement at filing. At acceptance the application is assigned a 6 digit number, this again is a unique series of numbers.

1. Provisional Applications are given a 2 letter code followed by 4 unique numbers
e.g. PR1326
2. Standard Complete applications (including Petty patents) are given a 5 digit number. Followed by the year of lodgement
e.g. 56490/99
3. At acceptance Standard Completes (including Petty patents) are given a 6 digit number
e.g. 698745

Document Numbering in the **Supplement to the Australian Official Journal**

Australian patent applications are assigned a 10 digit number at filing. Each Australian application will retain the same number throughout its life. The first four numbers of the application will be the year of lodgement followed by a unique series of numbers.

1. Provisional Applications are given a 10 digit number, this is the year of lodgement followed by a '9' then a series of unique numbers.
e.g. 2012907896
2. Standard Complete applications are also given a 10 digit number. Standard Completes are identified by 4 digit year of lodgement followed by a '2' or '3' then a series of unique numbers. Innovations are identified by the 4 digit year of lodgement followed by a '1' then followed by a unique series of numbers.
e.g. 2011236254 (Standard Complete)
e.g. 2011158589 (Innovation)

Different prefixes will be associated to the application/patent at different stages of its life. This prefix indicates whether the application has been accepted.

A document corresponding to an unaccepted application has the prefix, AU-A; eg AU-A-2002200234.
A document corresponding to an accepted application carries the prefix AU-B; eg AU-B-2002200234.

Users need to be aware that an accepted document may differ from the corresponding unaccepted document. This is because amendment may occur between first publication (OPI) and second publication (acceptance).

NOTE: When ordering any patent document from us, whether accepted or not, please quote the application/patent number preceded by the appropriate prefix.

Arrangement of Information in the Journal

For each of the categories

- (i) Provisional Applications Filed,
- (ii) Complete Applications Filed,
- iii) Applications Open to Public Inspection
- (iv) Applications Accepted, and
- (v) Innovation Patent Certified.

The Journal lists the information published in that category in an alphabetical Name Index list based on the name of the applicant. These indices are useful if you wish to find information about applications made by a particular applicant.

In addition to the Name Index there is provided, for each of these categories, a Numerical Index This index lists the applications either in order of their Application Numbers, in the case of complete applications filed and applications OPI, or in order of their Document Number in the case of accepted applications. It provides, for each number, the name of the applicant. These indices are useful if you wish to track the progress of a particular patent application.

There are also IPC Indices provided for applications which are OPI and for applications which have been accepted. IPC stands for International Patent Classification. Each IPC "mark" is an alpha-numerical representation of a particular area of technology. These indices are in order of IPC mark, and within each mark provide either the application numbers of the application which are now OPI or the numbers of the cases now accepted. These indices are useful if you wish to check on patent activity in a particular technology.

Using the Indices

1. To Find Patent Information if You Know the Name of the Applicant.

Use the Name Indices. They will give you the following information identified by their INID number:

<u>ITEM</u>	<u>INID</u> <u>No.</u>	<u>ITEM</u>	<u>INID</u> <u>No.</u>

Related by division	(62)

You will notice at each stage of following application through that all applications are in alphabetical order of **Applicant**, not inventor.

2. To Find Information About a Patent Application if You Know its Number.

Use the appropriate numerical index. This will give you the name of the applicant from the number. You will then need to use the appropriate Name Index as above to find out other information about the Patent Application you are interested in.

The following Numerical Indices are available:

- A) **Provisional** Applications filed.
- B) **Complete** Applications filed.
- C) Innovation Applications filed.
- D) Applications **Open to Public Inspection**.
- E) Applications **Accepted**.
- F) Innovation Patent Certified

3. To Find Information About Patent Documents in the Area of Technology in which You are Interested if You Know the International Patent Classification Mark for that Area.

All patent applications are classified according to their subject matter using the International Patent Classification (IPC). Although the system is very detailed and covers all technologies, knowledge of the IPC marks of the technologies you are interested in will allow you to find patent documents in these technologies quite easily. To identify the IPC marks of technologies you are interested in, you can inspect relevant documentation in any of AIPO's state offices.

The indices to use are

- A) Applications **OPI** - IPC Index
- B) Applications **accepted** - IPC Index.

These indices give you the numbers of the applications which are either OPI or Accepted and are listed in order of their IPC marks.

Once you have the numbers of the documents that interest you, consult the relevant Number Index (see 2. above) to find the applicant's name, and then the Name Index (see 1. above) to find out the details of that application.

Patents

International Type Search

Description:	Current fee:	New fee:
International type search	\$2,200	\$950

The reduction in the international type search fee is part of IP Australia’s innovation policy to support small business.

Patent Renewals - fee paid by approved means

Description:	Current fee:	New fee:
4 th to 9 th anniversaries	\$300	\$300
10 th to 14 th anniversaries	\$500	\$550
15 th to 19 th anniversaries	\$1,120	\$1,250
20 th to 24 th anniversaries	\$2,300	\$2,550

Patent Renewals - fee paid by another means

Description:	Current fee:	New fee:

10 th to 14 th anniversaries	\$550	\$600
15 th to 19 th anniversaries	\$1,170	\$1,300
20 th to 24 th anniversaries	\$2,350	\$2,600

There is no increase to patent renewals until the 10th year anniversary. The increase to patent renewal fees has been graded: with a \$50 increase in the 10th to 14th anniversary range; a \$130 increase in the 15th to 19th anniversary range; and a \$250 increase in the 20th to 24th anniversary range. These increases to patent renewal fees reflect the balance between both innovation and cost recovery policy objectives.

Patent Opposition Fees

Description:	Current fee:	New fee:
Request for Dismissal Patent Opposition (item 217)	\$600	No fee
Objection to Proposed Amend Patent (item 219)	\$600	No fee
Objection to Granting a Patent or any other action (item 220)	\$600	No fee
Commissioner's Discretionary Powers (item 229)	\$600	No fee

The removal of these opposition fees is consistent with the red-tape reduction initiatives and the efficiency and effectiveness principle outlined in the Australian Government Cost Recovery Guidelines. It is also IP Australia's aim to simplify the fee structure for customers where possible.

Patent Sale of Documents

Description:	Current fee:	New fee:
Copy of Patent Specification (item 233)	\$50	No fee
Copy of Document other than Patent Specification (item 234 (b))	\$50	No fee
Photocopy of Pages (Beyond 6 Documents) (item 234 (a))	\$1	No fee
Copy of 6 Documents From the Same File (item 234 (a))	\$200	No fee
Certified Copy of a Document (item 235)	\$50	No fee
NEW FEE – Copy of 1 to 3 documents from the same file	No fee	\$50 each
NEW FEE – Copy of 4 or more documents from the same file	No fee	\$200

There are numerous fees for the sale of documents across patents, trade marks, and designs. The fee structure has been simplified by removing all the fees for the sale of documents, extracts and certified copies and replacing them with 2 fees that are standard across these IP Rights.

Trade Marks

Trade Mark Registration

Description:	Current fee:	New fee:
Trade mark registration	\$300	No fee

Under the new fee structure, applicants will pay a fee when they submit a trade mark application. The pending trade mark will then be examined by IP Australia and if it complies with all the requirements of the Trade Marks Act and Regulations, the trade mark will be advertised as accepted. If no opposition is filed in the 2 month opposition period, or if opposition is decided in favour of the applicant, the trade mark will then be automatically registered.

Removing the trade mark registration fee will bring IP Australia into line with other international IP Offices, specifically 95 out of the 97 countries that are current members of the Madrid Protocol. Despite the increase to the trade mark application fee, the removal of the registration fee reduces the overall up-front cost to register a trade mark. The simplified fee structure also provides a clear benefit to trade mark applicants with one less point of interaction with IP Australia.

If an applicant files a trade mark application prior to 10 October 2016 and subsequently their trade mark is registered after this date; the applicant will still be required to pay a \$300 registration fee.

Trade Mark Applications

Description:	Current fee:	New fee:
TM Headstart (pre-application service) new request - per class	\$120	\$200
TM Headstart (pre-application service) new representation - per class	\$120	\$150
TM Headstart (pre-application service) additional class fee - per class	\$120	\$200
TM Headstart (pre-application service) Part 2 fee - per class	\$80	\$130
Trade mark application - with picklist per class	\$120	\$250
Trade mark application - without picklist per class	\$200	\$330
Series trade mark application -with picklist per class	\$270	\$400
Series trade mark application - without picklist per class	\$350	\$480
Trade mark application (not using online services) - per class	\$220	\$350
Series trade mark application (not using online services) - per class	\$370	\$500
Madrid import application – per class	\$420	\$350

The majority of trade mark application fees will increase by \$130 per class to partially offset the removal of the \$300 registration fee.

Trade Mark Renewals

Description:	Current fee:	New fee:
Trade mark renewal (online services fee) - per class	\$300	\$400
Trade mark renewal (fee by other means) - per class	\$350	\$450
Madrid import renewal – per class	\$300	\$400

The TM renewal fee will increase by \$100 to partially offset the removal of the \$300 registration fee.

Increasing the renewal fee allows for a smaller increase to the application fee; this supports our innovation policy by providing a cheaper up-front cost to register a trade mark.

Trade Mark extension of time to pay late renewal fees

Current fee:	New fee:
\$100 per class per month or part thereof from the renewal due date	\$100 per month or part thereof from the renewal due date

The current extension of time to pay a late renewal fee is charged per class for each month, or part of a month, from the renewal date. After the fee change, the extension of time to pay late renewal fees will apply per trade mark for each month, or part of a month, from the renewal date and not per class.

Trade Mark Opposition Fees

Description:	Current fee:	New fee:
Filing a notice of intention to oppose removal/cessation of protection of a trade mark for non-use (item 7(b))	\$150 per trade mark	No fee
Filing written submissions when not attending a requested hearing (item 17A)	\$100 per trade mark	No fee

The removal of several opposition fees is consistent with red-tape reduction initiatives and the efficiency and effectiveness principle outlined in the Australian Government Cost Recovery Guidelines. It is also IP Australia's aim to simplify the fee structure for customers where possible.

Trade Mark Sale of Documents

Description:	Current fee:	New fee:
Certificate by the Registrar of Trade Marks (item 21)	\$50	No fee
Supply of Duplicate TM Certificate (item 21A)	\$250	No fee
Copy of an extract from the Register (item 22)	\$50	No fee
TM Document requiring a Search (item 23)	\$100	No fee
NEW FEE – Copy of 1 to 3 documents from the same file	No fee	\$50 each
NEW FEE – Copy of 4 or more documents from the same file	No fee	\$200

There are numerous fees for the sale of documents across patents, trade marks, and designs. The fee structure has been simplified by removing all the fees for the sale of documents, extracts and certified copies and replacing them with 2 fees that are standard across these IP Rights.

Designs

Design Opposition Fees

Description:	Current fee:	New fee:
Exercise of discretionary powers (item 10)	\$500	No fee
Filing a notice of opposition (item 9)	\$550	\$600

The removal of several opposition fees is consistent with red-tape reduction initiatives and the efficiency and effectiveness principle outlined in the Australian Government Cost Recovery Guidelines. It is also IP Australia's aim to simplify the fee structure for customers where possible.

Design Sale of Documents

Description:	Current fee:	New fee:
Duplicate Certificate of Registration or Exam (item 13)	\$250	No fee
Copy of an Extract (item 14)	\$100	No fee
Copy of Document other than an Extract (item 15)	\$50	No fee
Filing a request for certification of a document (item 16)	\$50	No fee
NEW FEE – Copy of 1 to 3 documents from the same file	No fee	\$50 each
NEW FEE – Copy of 4 or more documents from the same file	No fee	\$200

There are numerous fees for the sale of documents across patents, trade marks, and designs. The fee structure has been simplified by removing all the fees for the sale of documents, extracts and certified copies and replacing them with 2 fees that are standard across these IP Rights.

Plant Breeder's Rights

PBR Discounted Examination

Current Requirement:	Fee:
Examination - multiple application Applicable only to two or more varieties of the same species, tested at the same site in Australia, and when applications and descriptions are lodged simultaneously by the same applicant and QP, and examined simultaneously	\$1,380
New Requirement:	Fee:
Examination - multiple application Applicable only to two or more varieties, tested at the same site in Australia, and when applications and descriptions are lodged simultaneously by the same applicant and QP, and examined simultaneously	\$1,380

The fee for discounted examination remains the same however the requirements to qualify for a discounted examination will change. Currently, discounted examination only applies when 2 or more varieties of the same plant species are tested simultaneously at the same site in Australia. The new arrangement will allow for discounted examination when 2 or more varieties of any plant species are tested simultaneously at the same site in Australia.

PBR other fee changes

Description:	Current fee:	New fee:
Amendment of the register on notification of assignment under section 21 (item 3)	\$100	No fee
On making a request for a variation of an application under subsection 31 (1) (item 5)	\$100	No fee
NEW FEE – Copy of 4 or more documents from the same file	No fee	\$200

A new fee has been introduced for a copy of 4 or more documents from the same file. This is consistent with the introduction of a similar fee for patents, trade marks and designs.
